3. Regulation 1.1.5 of the principal regulations is varied by striking out from subregulation (1) the definition of "movable electrical equipment".

**Substitution of Division**

4. Division 2.5 of Part 2 of the principal regulations is revoked and the following Division is substituted:

**DIVISION 2.5—ELECTRICAL****Preliminary**

2.5.1 The purpose of this Division is—

- (a) to ensure that persons at work are, as far as is reasonably practicable, safe from the risks of injury caused by electricity; and
- (b) to minimise the risk of injury, electrical shock or fire at a workplace through the use of, or on account of, any electrical installation or electrical plant; and
- (c) to ensure that any electrical work performed on any electrical installation or electrical plant is carried out by a competent person.

**Work in vicinity of electrical hazards**

2.5.2 Without limiting the operation of any other regulation, if work must be carried out in proximity to exposed live equipment or cables, or to any other electrical hazard, steps must be taken to ensure compliance with any relevant requirements of the *Electricity Act 1996*, and the regulations made under that Act.

**Competency requirements**

2.5.3 Any electrical work performed on any electrical installation or electrical plant at a workplace must be carried out by a competent person who must be, if required by the *Plumbers, Gas Fitters and Electricians Act 1995*, licensed under that Act.

**Electrical installations, etc.**

2.5.4 Any electrical installation, plant, materials, equipment or apparatus within a workplace must be so designed, constructed, installed, protected, maintained and tested so as to minimise the risk of injury, electrical shock or fire.

**General requirement for hazard identification at the workplace**

2.5.5 An employer must ensure—

- (a) that any electrical hazard at a workplace is identified and assessed in accordance with regulation 1.3.2; and
- (b) that any risks to health or safety arising out of an electrical hazard identified under paragraph (a) are eliminated, or minimised and controlled, in accordance with regulation 1.3.3.

**Electrical installations—Hazard identification, risk assessment and control of risk**

2.5.6 (1) An employer must ensure—

- (a) that hazards are identified and risks assessed in accordance with regulation 1.3.2—
  - (i) before the connection and supply of electricity to a new electrical installation at a workplace; and

- (ii) before the modification, maintenance or repair of an existing supply of electricity to or at a workplace, or of an existing electrical installation at a workplace; and
- (b) that any risks to health or safety arising out of a hazard identified under paragraph (a) are eliminated, or minimised and controlled, in accordance with regulation 1.3.3.

(2) All electrical installations within the scope of AS/NZS 3000 *Wiring Rules* must be designed, constructed, installed, protected, maintained and tested so as to comply with that standard on the basis that—

- (a) the standard as it exists at the time of installation of the electrical installation is the minimum standard that will apply; and
- (b) if the electrical installation is modified, it is the standard as it exists at the time of modification that will be the minimum standard that will then apply with respect to the modification.

#### **Inspection and testing of electrical plant**

**2.5.7** (1) Regular inspection and testing must be performed on electrical plant in the workplace if the supply of electricity is through a socket outlet to—

- (a) hand held electrical plant; or
- (b) electrical plant that is moved while in operation; or
- (c) electrical plant that is moved between operations in circumstances where damage to the electrical plant or to a flexible supply cord could reasonably occur; or
- (d) electrical plant where electrical safety could be affected by the operating environment.

(2) If electrical plant is fixed, it must be inspected and tested after taking into account—

- (a) information provided by the designer or manufacturer of the electrical plant; and
- (b) any hazard identification and risk assessment process that is relevant to the use of the electrical plant in its intended work environment.

#### **Provision of R.C.D.s**

**2.5.8** (1) Subject to complying with any requirement of a preceding regulation under this Division, any risk associated with the supply of electricity through a socket outlet must be minimised so far as is reasonably practicable by the use of an R.C.D.

(2) If the supply of electricity in any situation in a workplace is through a socket outlet not exceeding 20 amps to—

- (a) hand held electrical plant; or
- (b) electrical plant that is moved while in operation; or
- (c) electrical plant that is moved between operations in circumstances where damage to the electrical plant or to a flexible supply cord could reasonably occur; or

- (d) electrical plant where electrical safety could be affected by the operating environment,

the electrical plant must be protected by an R.C.D. with a tripping current not greater than 30 milliamps.

(3) An R.C.D. under subregulation (1) or (2) must be—

- (a) for a new electrical installation—a non-portable R.C.D.;
- (b) for a new or modified circuit on an existing electrical installation—a non-portable R.C.D.;
- (c) for an existing electrical installation where paragraph (b) does not apply—either a non-portable R.C.D. or a portable R.C.D., where a portable R.C.D. is connected at the socket outlet supplying electricity to any electrical plant.

(4) An R.C.D. must be provided for any final sub-circuit on a construction or demolition site within the scope and application of AS/NZS 3012 *Electrical installations—Construction and demolition sites*.

(5) The requirement for an R.C.D. does not apply where—

- (a) the supply of electricity is to an extra low voltage system that is electrically separated from earth and from other systems in such a way that a single fault cannot give rise to the risk of electric shock; or
- (b) the supply of electricity is to electrical plant and is—
  - (i) direct current (DC); or
  - (ii) provided through an isolating transformer that complies with AS/NZS 3108 *Approval and test specification—Particular requirements for isolating transformers and safety isolating transformers*; or
  - (iii) provided from a portable generator that complies with AS 2790 *Electricity generating sets—Transportable (up to 25 kW)*.

#### **Testing and maintenance of R.C.D.s**

**2.5.9** (1) An R.C.D. must be tested and maintained after taking into account the designer's or manufacturer's specifications and any hazard identification and risk assessment process required by these regulations, but in any event an R.C.D. must be tested as follows:

- (a) in the case of a non-portable R.C.D. or an R.C.D. that is operated in a fixed position—
  - (i) a push-button test that is sufficient to ensure that the tripping mechanism does not fail must be undertaken at least once every 12 months; and
  - (ii) an operating time-test in accordance with AS/NZS 3760 *In-service safety inspection and testing of electrical equipment* must be undertaken at least once every three years;

- (b) in the case of a portable R.C.D. that is moved from place to place—
  - (i) push-button tests must be carried out in accordance with AS/NZS 3760 *In-service safety inspection and testing of electrical equipment*; and
  - (ii) operating time-tests must be carried out in accordance with AS/NZS 3760 *In-service safety inspection and testing of electrical equipment*;
- (c) in the case of an R.C.D. located at a workplace within the scope and application of AS/NZS 3012 *Electrical installations—Construction and demolition sites*—tests must be carried out in accordance with the requirements of that standard.

(2) If an R.C.D. fails to meet the requirements of a test under subregulation (1), it must be repaired or replaced.

(3) A record of the results of a test carried out under this regulation, other than a daily test required under AS/NZS 3760, must be kept by the owner of the R.C.D. for a period of at least five years from the date of the test.

#### **Variation of reg. 5.13.14—R.C.D.s**

5. Regulation 5.13.14 of the principal regulations is varied by striking out subregulation (2) and substituting the following subregulation:

- (2) Subregulation (1) does not apply where—
  - (a) the supply of electricity is to an extra low voltage system that is electrically separated from earth and from other systems in such a way that a single fault cannot give rise to the risk of electric shock; or
  - (b) the supply of electricity is to electrical plant and is—
    - (i) direct current (DC); or
    - (ii) provided through an isolating transformer that complies with AS/NZS 3108 *Approval and test specification—Particular requirements for isolating transformers and safety isolating transformers*; or
    - (iii) provided from a portable generator that complies with AS 2790 *Electricity generating sets—Transportable (up to 25 kW)*.

(2) A person who has refused or failed to pay contributions under this Part or who has received a refund under regulation 6 is not entitled to any direct service or benefit under a program funded under subregulation (1)(c) for a period of 2 years from the date on which the contributions (that were not paid, or refunded) fell due.

(3) The Minister must, from time to time, determine an amount to be set aside in the Fund for the purposes of payments of compensation and other amounts under Part 3.

**PART 3**  
**COMPENSATION SCHEME**

**Claim for compensation**

8. (1) Subject to these regulations, the owner of deer destroyed in accordance with a notice or order issued under Division 4 of Part 4 of the *Livestock Act 1997*, or by action taken or caused to be taken by an inspector under that Division, for the purposes of controlling or eradicating Tuberculosis may claim compensation for the deer.

(2) Only one claim may be made in respect of a deer.

(3) A claim for compensation may not be made in respect of deer unless, immediately prior to the destruction of the deer, the deer were kept by a person registered under the *Livestock Act 1997* as a deer keeper.

**Sale of carcass of destroyed deer**

9. If a notice or order is issued or action taken or caused to be taken in relation to a deer as referred to in regulation 8(1), the following provisions apply:

- (a) an inspector may give the owner of the deer written notice requiring the owner to assign the deer to the Minister;
- (b) if such a notice is given, a claim for compensation cannot be made under these regulations unless the owner complies with the notice;
- (c) if the owner of the deer assigns the deer to the Minister—
  - (i) an inspector must ensure that the deer is destroyed;
  - (ii) an inspector may sell or otherwise dispose of the carcass of the deer as the inspector considers appropriate;
  - (iii) the net proceeds of the sale (if any) must be paid into the Fund;
  - (iv) if the owner of the deer makes a claim for compensation under these regulations and the net proceeds of the sale exceed the amount of compensation paid in respect of the deer under these regulations, the excess must be paid from the Fund to the owner;
  - (v) if no claim for compensation under these regulations is made in respect of the deer during the period allowed by these regulations, the amount of the net proceeds of the sale must be paid from the Fund to the owner of the deer.

**Amount of compensation**

10. (1) Subject to this regulation, the amount of compensation that may be claimed for a deer is the lesser of—

- (a) \$400; or
- (b) the value of the deer (for meat) immediately before its destruction.

(2) If the deer was not assigned to the Minister or the deer was assigned to the Minister but the net proceeds of the sale of the carcass of the deer have been paid from the Fund to the owner of the deer under regulation 9(c)(v), the amount of compensation that may be claimed is reduced by the amount of the net proceeds (if any) of the sale of the carcass of the deer.

(3) A deer is to be valued—

- (a) as if it were unaffected by Tuberculosis; and
- (b) having regard to the value of comparable deer (for meat) at the nearest most recent markets selling such deer for meat, whether those markets are in the State or in any other State or Territory of the Commonwealth; and
- (c) using a method of valuation determined by the Minister after consultation with the consultative committee.

(4) Compensation may not include any amount for loss of profit or production, loss arising from breach of contract or other consequential loss.

(5) If the owner of a deer has been paid compensation or is entitled to compensation in respect of the deer under any other law, the amount of compensation that may be claimed under these regulations is reduced by the amount so paid or to which the owner is so entitled.

#### **Procedure for making claim and determination of claim**

**11.** (1) A claim for compensation must be made to the Chief Inspector within one month after the issuing of the notice or order for destruction of the deer or the destruction of the deer by the inspector (as the case requires).

(2) The Chief Inspector may, if satisfied that it is just and reasonable in the circumstances to do so, dispense with the requirement that a claim be made within the period fixed by this regulation.

(3) A claim for compensation must be made in the form and contain or be accompanied by the information required by the Chief Inspector (including, if the deer was not assigned to the Minister, information relating to the proceeds (if any) of the sale of the carcass of the deer).

(4) The Chief Inspector may, with the approval of the Minister, determine that no compensation, or a reduced amount of compensation, is payable to a claimant if the Chief Inspector is satisfied that—

- (a) the deer was visibly affected by Tuberculosis and the owner failed to notify an inspector of that fact; or
- (b) the owner (or a person who kept the animal on behalf of the owner) failed to carry out any written direction of an inspector for the control or eradication of Tuberculosis and that the failure was a probable cause of the deer being affected by the disease; or
- (c) the owner (or a person who kept the animal on behalf of the owner) failed to take reasonable steps to minimise the risk of deer affected by Tuberculosis being introduced into the owner's herd or the deer otherwise becoming affected by Tuberculosis; or
- (d) the deer was destroyed within three months of being introduced into South Australia and was likely to have been affected by Tuberculosis when so introduced; or

- (e) the aggregate number of deer destroyed in the registration period and for which claims have been made by the owner is such that, if contributions were paid to the Fund for that number of deer at the rate of 30 cents for each large species deer and 15 cents for each small species deer, the contributions would exceed the actual contributions paid to the Fund by the owner for that registration period; or
- (f) the owner (or a person who kept the animal on behalf of the owner) has refused or failed to pay contributions as required under Part 2; or
- (g) the owner (or a person who kept the animal on behalf of the owner) has, at his or her request, been refunded contributions under regulation 6, at any time within the period of 2 years immediately preceding the claim for compensation.

(5) Before the Minister gives approval under subregulation (4), the Minister must consult the consultative committee.

(6) The Chief Inspector must, by written notice, inform the claimant, the Minister and the consultative committee of the Chief Inspector's determination of the claim.

(7) The claimant may, within one month after receiving notice of the amount of compensation to be paid, object in writing to the Minister to the proposed amount on the grounds set out in detail in the objection.

(8) If an objection is not made within the time allowed, the claimant's entitlement to compensation is finally determined for the purposes of these regulations.

(9) If an objection to a proposed amount of compensation is made, the Minister may, after consulting the consultative committee—

- (a) affirm the decision against which the objection is made; or
- (b) rescind the decision and substitute a decision that the Minister considers appropriate.

(10) A decision of the Minister after consideration of an objection is final and without appeal.

**PART 4**  
**MISCELLANEOUS**

**12.** A person must not make a statement that is false or misleading in a material particular (whether by reason of the inclusion or omission of any particular) in information provided, or record kept, for the purposes of these regulations.

Maximum penalty: \$5 000.
