4. No construction activities or building works shall commence until a heritage survey has been completed to identify any Aboriginal sites, objects or remains in the site area, and monitoring shall be undertaken during construction to enable the development to proceed without a breach of the Aboriginal Heritage Act 1988. Details of the applicant's Heritage Agreement and consultation with the Ngadjuri Heritage Association shall also be provided to the Development Assessment Commission and the Department of Aboriginal Affairs and Reconciliation prior to construction commencing.

5. Subject to conditions 3 and 4, the applicant may commence a stage of building works before receiving the Governor's decision concerning building rules compliance for other stages (refer reserved matter (i) in paragraph (a) of the Decision section above). No building works shall commence on a stage of the development, however, until a favourable decision in relation to building rules compliance in respect of that stage has been notified in writing to the applicant by the Governor or the Governor's delegate.

6. A decision on building rules compliance will only be made after a building rules assessment and certification has been undertaken and issued by the Barossa Council, or a private certifier, in accordance with the provisions of the Development Act 1993, and after the Minister for Urban Development and Planning receives a copy of all relevant certification documentation, as outlined in Regulation 64 of the Development Regulations 1993 (refer to 'Notes to Applicant' below for further information).

7. 8. The wastewater collection and treatment system shall be designed to ensure that the general obligations of the Environment Protection (Water Quality) Policy 2003 are met, and to ensure that effluent does not overflow or escape from drains, pipes, sumps, tanks, storage/treatment basins into any watercourse, or into stormwater drains which do not drain into the effluent collection, treatment and disposal system, except where the effluent complies with criteria in the above policy.

9. In accordance with commitments by the applicant, wastewater shall not be stored in open storage ponds until it is first treated to reduce the potential for odours to occur.

10. The applicant shall ensure that stormwater, which does not comply with the Environment Protection (Water Quality) Policy 2003 criteria, is not discharged from the site without prior effective treatment.

11. Noise from the development shall be in accordance with the following:

Construction Activities—Mondays to Saturdays:

- (a) not exceed 52 dB(A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property;
- (b) not exceed 45 dB(A) between the hours of 6 a.m. and 7 a.m. measured and adjusted at the nearest existing residential property;
- (c) shall be in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (d) site deliveries and other noisier construction activities shall be scheduled to minimise noise impacts;
- (e) all other aspects of construction activities shall be undertaken in accordance with the Environmental Management and Monitoring Plan.

Operation of the development:

- (a) shall not exceed 52 dB (A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (b) shall not exceed 45 dB (A) between the hours of 10 p.m. and 7 a.m. measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (c) a short-term typical maximum noise level of 60 dB (A) when measured at the nearest existing residential property.

12. The proponent shall, subject to obtaining the landowner's consent in relation thereto, install, operate and maintain frost fans on the property located north of the proposed development site either in accordance with the recommendations in the Development Report and assessed in the Acoustic report on frost fan impacts and in accordance with the Environment Protection Authority's standards for their operation, siting and distance from potential receptors, or in accordance with any alternative arrangement negotiated with the landowner. If the landowner refuses consent for the establishment of frost fans on the property located to the north of the proposed development, the proponent is excused from compliance with this condition.

13. Landscaping of the site shall commence prior to construction of the proposed major development, and when established must be maintained in good health and condition at all times. A plant must be replaced if or when it dies or becomes seriously diseased within the first growing season after the plant dies or becomes seriously diseased.

14. In accordance with commitments by the applicant, building walls up to 3 m shall be clad in colorbond 'ironstone' (or similar), and walls above 3 m shall be clad in colorbond 'paperbark' (or similar).

15. All lighting shall be directed and shielded in such a way as to prevent glare from the site, and any lighting that is not in use for operational or security reasons shall be switched off.

16. In accordance with EPA recommendations, no trucks or heavy vehicles shall access the site from the portion of Light Pass Road, south of the access point for the proposed major development.

17. The temporary concrete batching plant for on-site construction activities and associated infrastructure shall be decommissioned and removed from the site no later than 1 August 2005.

18. The applicant shall, prior to the commencement of operations, prepare an Irrigation Management Plan to the satisfaction of the Environment Protection Authority to demonstrate that the proposed development will:

- (a) minimise the risk of polluting surface and groundwater resources by preventing excessive wastewater runoff or infiltration;
- (b) minimise soil degradation and damage to crops by using sustainable irrigation application rates, based on soil limitations (determined by a soil survey), crop requirements and limiting wastewater constituents;
- (c) prevent environmental nuisance by identifying wastewater pre-treatment requirements and employing suitable separation distances for irrigation;
- (d) prevent public and animal health impacts by using appropriate irrigation equipment and implementing training and awareness programs for staff;
- (e) maximise organic carbon, nutrient and salt removal by selecting suitable land, viable and tolerant crops and suitable cropping practices;
- (f) maintain a 50 m buffer between irrigation areas and the Council stormwater collection system.

19. The Irrigation Management Plan shall contain contingency measures for the disposal of any excess wastewater that cannot be irrigated during the winter periods.

NOTES TO APPLICANT

- Pursuant to Development Regulation 64, the applicant is advised that the Barossa Council or private certifier conducting a building rules assessment must:
 - (a) provide to the Minister a certification in the form set out in Schedule 12A of the Development Regulations 1993 in relation to the building works in question; and
 - (b) to the extent that may be relevant and appropriate:
 - (i) issue a Schedule of Essential Safety Provisions under Division 4 of Part 12; and

STATE LOTTERIES ACT 1966
LOTTERIES (THE POOLS) RULES

1. *Preliminary*

- 1.1 These Rules may be cited as the Lotteries (The Pools) Amendment Rules 2005 (No. 3).
- 1.2 The Lotteries (The Pools) Rules made under the State Lotteries Act 1966 and published in the *Government Gazette* on 19 July 1999, as amended by the amendments published in the *Government Gazette* on 27 March 2003, 26 February 2004, 21 April 2005 and 14 July 2005 are hereinafter referred to as the 'Principal Rules'.
- 1.3 The Principal Rules are hereby amended effective from 2 p.m. on 27 August 2005 and these Rules will take effect immediately thereafter, except as provided in these Rules.

2. *Amendment of Rule 2.1*

Rule 2.1 of the Principal Rules is amended by deleting the definitions for 'Australian Soccer Pools', 'list of matches' and 'void match' and substituting the following therefor:

'Australian Soccer Pools' means a lottery conducted by the Commission or other Bloc members in which a player is required to forecast six numbers to be determined from the range of numbers 1 to 38 inclusive and the winning numbers are determined by the result of soccer matches played in Australia and in other parts of the world (and 'The Pools' has a corresponding meaning);

'list of matches' means the list of matches published from time to time by the Commission:

- (a) in respect of matches played in the Northern Hemisphere; and
- (b) in respect of matches played during the Australian Season or other matches played in the Southern Hemisphere,

containing a list of such number of matches exceeding 38 as is approved by the Bloc members;

'void match' means, a match in the list of matches so declared by the Commission.

3. *Amendment of Rule 7*

- (a) Rule 7.4 of the Principal Rules is deleted and the following is substituted therefor:

'To determine the six winning match numbers and the supplementary match number the matches represented by the numbers in a panel will be deemed to have an order of rank depending on the results of those matches in accordance with Rules 7.4.1 to 7.4.5. (but having regard to Rules 7.4.6 and 7.4.7). For the purposes of Rule 7.9 the six highest ranked numbered matches will be the six winning match numbers and the seventh highest ranked numbered match will be the supplementary match number'.

- (b) Rule 7.4.7 is amended by inserting the following text at the conclusion of the existing text:

'If still insufficient then a barrel draw shall be conducted in accordance with Rule 7.7'.

- (c) Rule 7.6 is deleted and the following is substituted therefor:

'Notwithstanding that one or more of the matches was not played as printed on the list of matches, the results of matches so printed on the list of matches will, subject to Rule 7.5, be the results adopted'.

(d) A new Rule 7.7 is inserted into the Principal Rules as follows:

'In the event that there are insufficient matches played to determine the six winning match numbers and the supplementary match number or the use of some matches in determining the six winning match numbers and the supplementary match number is precluded for any other reason then:

7.7.1 a barrel draw shall be conducted at the earliest opportunity;

7.7.2 the balls to be used shall be numbered from 1 to 38;

7.7.3 the balls for numbers already determined in accordance with Rule 7.4 shall be removed as already selected;

7.7.4 the barrel draw shall be conducted with the remaining balls;

7.7.5 each official (SA Lotteries Draw Official and Auditor-General's Department representative) will record the numbers drawn, in drawn order;

7.7.6 the numbers so drawn shall be included with the numbers already determined in accordance with Rule 7.4, in drawn order sequence, until six winning match numbers and a supplementary match number are determined.'

(e) Rule 7.7 of the Principal Rules is renumbered Rule 7.8.

(f) Rule 7.8 of the Principal Rules is renumbered Rule 7.9.

(g) Rule 7.9 of the Principal Rules is deleted.

(h) Rule 7.10 of the Principal Rules is deleted.

The Common Seal of the Lotteries Commission of South Australia was affixed pursuant to a resolution of the Commission in the presence of:
