5. Subject to conditions 3, 4, and 7, the applicant may stage building works, and, if so, may commence an approved stage before receiving my decision concerning building rules compliance for other stages (refer reserved matter (i) in paragraph (a) of the Decision section above). 9. In accordance with commitments by the applicant, wastewater shall not be stored in open storage ponds until it is first treated to reduce the potential for odours to occur.

If the landowner refuses consent for the establishment of frost fans on the property located to the north of the proposed development, the proponent is excused from compliance with this condition.

13. Landscaping of the site shall commence prior to construction of the proposed Major Development, and when established must be maintained in good health and condition at all times. GOVERNMENT OF SOUTH AUSTRALIA

COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS ENDED
30 SEPTEMBER 2004 AND 30 SEPTEMBER 2003

Receipts***Taxation***

Taxation receipts for the first three months of 2004-05 are higher than for the same period in the previous year reflecting continuing strength in the property market which is reflected in stamp duties (mainly mortgages and property transfers), together with underlying strength in economic conditions impacting on payroll tax receipts and higher than anticipated gambling expenditure on gaming machines. The introduction of the Save the River Murray Levy with effect from 1 October 2003 means that there was no revenue from this source in the September quarter of 2003-04 whereas \$5.3 million was collected in the September quarter of 2004-05.

Royalties

Royalties were higher in the first quarter of 2004-05 than in the corresponding quarter of 2003-04 reflecting an increase in royalty receipts from the Olympic Dam operation due to increased production levels.

Commonwealth – General Purpose Grants

Growth in grant revenues for the three months to September 2004 compared with the same period last year is due to underlying growth in the GST pool available for distribution to the States.

Payments

Payments have been made pursuant to the *Appropriation Act*, passed at the time of the 2004-05 State Budget and in accordance with various Acts for which specific appropriation has been authorised.

Payments made from the Consolidated Account in the first quarter of 2004-05 were higher than the same quarter in 2003-04. This was due to the timing of appropriation transfers to agencies. Under the Government's cash alignment policy, appropriations are now transferred fortnightly, rather than monthly in 2003-04 and previous years. Three fortnightly transfers were made to agencies during September.

The total payments for the three months ending 30 September 2004 are broadly in line with the budget for the 2004-05 financial year.

Note

Considerable caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. In addition, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, it should be noted that the timing of receipts and payments could be volatile within a particular year. As a result, apparently significant movements between years may only be due to changes in the timing of receipts and payments, and therefore may not have implications for the underlying budget position.
