4. No construction activities or building works shall commence until a heritage survey has been completed to identify any Aboriginal sites, objects or remains in the site area, and monitoring shall be undertaken during construction to enable the development to proceed without a breach of the Aboriginal Heritage Act 1988. 8. The wastewater collection and treatment system shall be designed to ensure that the general obligations of the Environment Protection (Water Quality) Policy 2003 are met, and to ensure that effluent does not overflow or escape from drains, pipes, sumps, tanks, storage/treatment basins into any watercourse, or into stormwater drains which do not drain into the effluent collection, treatment and disposal system, except where the effluent complies with criteria in the above policy.

9. In accordance with commitments by the applicant, wastewater shall not be stored in open storage ponds until it is first treated to reduce the potential for odours to occur.

10. The applicant shall ensure that stormwater, which does not comply with the Environment Protection (Water Quality) Policy 2003 criteria, is not discharged from the site without prior effective treatment.

11. Noise from the development shall be in accordance with the following:

Construction Activities—Mondays to Saturdays:

- (a) not exceed 52 dB(A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property;
- (b) not exceed 45 dB(A) between the hours of 6 a.m. and 7 a.m. measured and adjusted at the nearest existing residential property;
- (c) shall be in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (d) site deliveries and other noisier construction activities shall be scheduled to minimise noise impacts;
- (e) all other aspects of construction activities shall be undertaken in accordance with the Environmental Management and Monitoring Plan.

Operation of the development:

- (a) shall not exceed 52 dB (A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (b) shall not exceed 45 dB (A) between the hours of 10 p.m. and 7 a.m. measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (c) a short-term typical maximum noise level of 60 dB (A) when measured at the nearest existing residential property.

12. The proponent shall, subject to obtaining the landowner's consent in relation thereto, install, operate and maintain frost fans on the property located north of the proposed development site either in accordance with the recommendations in the Development Report and assessed in the Acoustic report on frost fan impacts and in accordance with the Environment Protection Authority's standards for their operation, siting and distance from potential receptors, or in accordance with any alternative arrangement negotiated with the landowner. If the landowner refuses consent for the establishment of frost fans on the property located to the north of the proposed development, the proponent is excused from compliance with this condition.

13. Landscaping of the site shall commence prior to construction of the proposed major development, and when established must be maintained in good health and condition at all times. A plant must be replaced if or when it dies or becomes seriously diseased within the first growing season after the plant dies or becomes seriously diseased.

14. In accordance with commitments by the applicant, building walls up to 3 m shall be clad in colorbond 'ironstone' (or similar), and walls above 3 m shall be clad in colorbond 'paperbark' (or similar).

15. All lighting shall be directed and shielded in such a way as to prevent glare from the site, and any lighting that is not in use for operational or security reasons shall be switched off.

16. In accordance with EPA recommendations, no trucks or heavy vehicles shall access the site from the portion of Light Pass Road, south of the access point for the proposed major development.

17. The temporary concrete batching plant for on-site construction activities and associated infrastructure shall be decommissioned and removed from the site no later than 1 August 2005.

18. The applicant shall, prior to the commencement of operations, prepare an Irrigation Management Plan to the satisfaction of the Environment Protection Authority to demonstrate that the proposed development will:

- (a) minimise the risk of polluting surface and groundwater resources by preventing excessive wastewater runoff or infiltration;
- (b) minimise soil degradation and damage to crops by using sustainable irrigation application rates, based on soil limitations (determined by a soil survey), crop requirements and limiting wastewater constituents;
- (c) prevent environmental nuisance by identifying wastewater pre-treatment requirements and employing suitable separation distances for irrigation;
- (d) prevent public and animal health impacts by using appropriate irrigation equipment and implementing training and awareness programs for staff;
- (e) maximise organic carbon, nutrient and salt removal by selecting suitable land, viable and tolerant crops and suitable cropping practices;
- (f) maintain a 50 m buffer between irrigation areas and the Council stormwater collection system.

19. The Irrigation Management Plan shall contain contingency measures for the disposal of any excess wastewater that cannot be irrigated during the winter periods.

NOTES TO APPLICANT

- Pursuant to Development Regulation 64, the applicant is advised that the Barossa Council or private certifier conducting a building rules assessment must:

- Should the applicant wish to vary the major development or any of the components of the major development, an application may be submitted, provided that the development application variation remains within the ambit of the Development Report and Assessment Report referred to in this provisional development authorisation. If an application variation involves substantial changes to the proposal, pursuant to section 47 of the Development Act 1993, the applicant may be required to prepare an amended Development Report for public inspection and purchase. An amended Assessment Report may also be required to assess any new issues not covered by the original Assessment Report and a decision made by the Governor pursuant to section 48 of the Development Act 1993.
- It is recommended that the applicant finalise the required water licence arrangements pursuant to the Water Resources Act 1997, for the construction of the proposed water storage dam and subsequent re-use of water, prior to construction of the proposed major development (in order for operations to proceed). The applicant is also advised to submit information on the water licence arrangements to Planning SA, together with final details on the design of the stormwater dam and associated release mechanism(s) and infrastructure.
- The proponent is advised of the General Environmental Duty under section 25 of the Environment Protection Act 1993, which requires that a person must not undertake any activity, which pollutes, or may pollute; without taking all reasonable and practical measures to prevent or minimise harm to the environment.

- It is recommended that the applicant ensure there are measures in place to promote staff vehicle access to the site from the northern end of Light Pass Road.
- The applicant is advised that a further development application and authorisation will be required pursuant to Part 4, Division 2 of the Development Act 1993, for the following matters:
 - prior to commencement of Stage 2, if the applicant proposes to treat wastewater at the existing Wolf Blass winery wastewater treatment system;
 - for the establishment of any additional frost fans that may be required as part of Stage 2;
 - if the external advertising signage is amended from that indicated in the Development Report, or additional advertising signage is proposed.
- The applicant is advised that any construction activities proposed to be undertaken on Sundays shall be subject to EPA requirements and further approval.
- The Minister has a specific power to require testing, monitoring and auditing under section 48C of the Development Act 1993.
- The Environment Protection Authority has advised that an authorisation (licence) will be required for the temporary concrete batching plant.

DEVELOPMENT ACT 1993, SECTION 48: DECISION BY THE DEVELOPMENT ASSESSMENT COMMISSION

Preamble

1. The decision by the Governor under section 48 of the Development Act 1993, to approve the development of a waste management facility in the form of a solid waste landfill (Northward Fill (Inkerman Landfill Depot)) at Inkerman was published in the *Gazette* on 21 January 1999.

2. The development was the subject of an Environmental Impact Statement under section 46 of the Development Act 1993 and amended under section 47 of the Development Act 1993.

3. Amendments to the development authorisation were granted by the Development Assessment Commission as delegate of the Governor on 17 June 2004 and 14 October 2004.

4. A further amendment has been under consideration by the Development Assessment Commission as delegate of the Governor under Division 2 of Part 4 of the Development Act 1993.

5. The proposed amendments relate to the leachate collection system and a change to the operating hours and are contained in letters from Waste Management Pacific Pty Ltd dated 10 October 2005 and 10 March 2006 and final plans submitted on 7 April 2006.

6. The Development Assessment Commission is satisfied that the amendments do not require the preparation of a further or amended Environmental Impact Statement.

7. The Development Assessment Commission has, in considering the matter, had regard to all relevant matters under section 48 (5) of the Development Act 1993.

Decision

PURSUANT to section 48 of the Development Act 1993, the Development Assessment Commission, as delegate of the Governor, grants development authorisation to the amended waste management facility in the form of a solid waste landfill (Northward Fill (Inkerman Landfill Depot)) at Inkerman, subject to conditions.

Conditions

1. Except where minor amendments may be required by other legislation, or by conditions imposed herein, proposed the solid waste landfill (Northward Fill (Inkerman Landfill Depot)) shall be undertaken in accordance with the plans in the application (dated 4 March 1997 and 'Supporting Documentation for Development Application' dated 24 November 1998), except as varied by the conditions listed below, the letters from Waste Management Pacific Pty Ltd dated 19 April 2004 and 19 May 2004 and the following drawings:

- Drawing No. 40033003/005C dated 1 September 2003.
- Drawing No. 40033003/0080 dated 27 April 2004.
- Drawing No. 40033003/009 dated 27 April 2004.
- Drawing No. 40033003/013 dated 27 April 2004.
- Drawing No. 40033003/014 dated 27 April 2004.

or as amended by the following drawings:

- Northward Fill Detailed Design, Central Leachate Sump Details, Sheet 10 (Revision F) dated 10 May 2005.
- Northward Fill Detailed Design, Leachate Management—Edge Sump Arrangement, Sheet 13 (Revision D)—dated 10 May 2005.
- Northward Fill Stages 2 and 3, Detailed Design Pipework Layout, Sheet 15 (Revision A)—dated 7 February 2006.

Groundwater

2. Monitoring must be undertaken over two successive winter seasons to determine the maximum seasonal watertable level for that period starting prior to the landfill operations starting.

3. An internal leachate-level monitoring bore network within each stage of the landfill must be established to allow early identification of any problem with the leachate collection system before excessive leachate heads develop.

4. Groundwater monitoring bores must be established down gradient of the leachate collection ponds to the satisfaction of the Environment Protection Authority.

Leachate Management

5. A construction report must be provided to the Environment Protection Authority by a geotechnical consultant certifying that the liner and drainage system has been constructed in accordance with the design principles together with *in situ* testing to demonstrate that the required permeability has been achieved prior to operations commencing, except as varied by conditions 5a, 5b, 5c and 5d.

5a. The high density polyethylene (HDPE) membrane and geotextile portion of the liner shall extend a minimum of 5 m laterally from the sump (measured from the toe of the sump side slope to the outer edge of the lining system) and the underlying clay outside the sump area must have a minimum thickness of 1 m.

5b. The drainage slopes towards drainage lines and along drainage lines shall be a minimum of 2% and 1% respectively.

5c. Construction of the landfill liner and polylock system shall be undertaken and certified in accordance with Level 1 supervision and Construction Quality Assurance (CQA) procedures. A report documenting the results of the Level 1 supervision and construction quality control tests for the compacted clay liner, HDPE membrane and polylock system shall be prepared to the reasonable satisfaction of the Environment Protection Authority.

5d. Appropriate procedures and controls shall be implemented on site to address potential risks or damage which may compromise the integrity of the leachate extraction system, including from vehicle traffic, Ultraviolet Radiation and any movements of the overland pipework including interim flexible pipework used while cells are operational.

5e. Contingency procedures shall be developed to address the potential for and response to any pipe rupture and leachate emission from the leachate pipes and extraction system.

5f. The LEMP shall be updated to incorporate conditions 5d and 5e.

Landfill Gas

6. Landfill gas extraction wells must be installed progressively as filling of the cell proceeds, to the satisfaction of the Environment Protection Authority.

7. All fire control measures proposed at the site must be approved by the Country Fire Service prior to operations commencing.

Buffers and Landscaping

8. The maximum height of the landfill including rehabilitation must be restricted to 27 m AHD (generally 7 m above the existing natural surface) to be consistent with the existing maximum topographic levels in the region.

9. All perimeter plantings must be started as early as practicable after the date of this approval to achieve maximum amelioration of visual impacts.

10. Screening by suitable plantings where adequate natural screening is not provided, must be provided for the perimeter fence, all built structures, stockpiles and internal roads (where practicable) using suitable species in accordance with the Vegetation Management and Revegetation Plan proposed as part of the Landfill Environmental Management Plan (LEMP).

Noise and Dust

11. The proponent must comply with the provisions of the Environment Protection (Industrial Noise) Policy (1994, SA Government).

12a. The maximum hours of operation shall be 6 a.m. to 7.30 p.m. seven days per week and waste shall only be received between 6 a.m. and 7 p.m.

12b. The Applicant shall ensure that close proximity and low impact directional reverse beepers are installed and utilised on all mobile plant associated with waste disposal operations.

12c. Noise levels shall not exceed 40 dB(A) in accordance with EPA Fact Sheet 424/04 between the hours of 10 p.m. and 7 a.m.

Infrastructure

13. The proponent must pay all reasonable costs of the detailed design and construction of any public roadworks made necessary by this development and to the satisfaction of Transport SA.

Building Rules

14. Work constituting building work under the Development Act 1993, must be certified by the Wakefield District Council or a private certifier, as complying with the Building Rules. Copies of the relevant certification documentation shall be provided to the Minister for Urban Development and Planning, as outlined in Regulation 64 of the Development Act 1993. No building works shall commence until a favourable decision has been notified in writing to the applicant by the Governor or the Development Assessment Commission as delegate of the Governor.

Heritage

15. The party with the benefit of this approval must ensure that operators and construction personnel are made aware of the requirements under the Aboriginal Heritage Act 1988 that any burial site skeletal material or significant artefact discovery is reported to the Division of State Aboriginal Affairs, Department of Environment, Heritage and Aboriginal Affairs.

Wastes

16. No Listed Waste as prescribed in Schedule 1, Part B of the Environment Protection Act 1993, or contaminated soil and material or asbestos containing material, will be permitted to be disposed of without further development authorisation.

NOTES

1. The Environment Protection Authority will require the proponent to prepare a Landfill Environmental Management Plan (LEMP) to satisfy the Authority's licensing requirements. Such a plan will be required to include provisions for the review, from time to time, of waste treatment and disposal methods to facilitate implementation of continuous improvement programs. The LEMP will be required to incorporate specific plans in relation to groundwater and leachate management, surface water management, vegetation and revegetation, soil erosion and drainage and the management of pest plants and animals as outlined in the amendment to the Assessment Report. It will also be required to include provisions for implementation of corrective actions in the event of any failure of the leachate and groundwater management systems.

2. Control over the types of waste to be received at the site will be exercised by the Environment Protection Authority. This will be done through conditions of environmental authorisation or requirements under a relevant Environment Protection Policy rather than through conditions of development authorisation (see condition 16).

3. A financial assurance in accordance with the provisions of section 51 of the Environment Protection Act 1993 will be required by the Environment Protection Authority as a condition of licence.

4. The outstanding stormwater management issues discussed in relation to section 25 of the Environment Protection Act 1993 must be clarified as part of the LEMP if approval is given to the project.

5. A comprehensive proposed groundwater monitoring and protection system would need to be finalised in the LEMP.

6. A landfill gas monitoring program should be prepared to the satisfaction of the Environment Protection Authority and incorporated into the LEMP.

7. As part of the LEMP a contingency plan for landfill gas extraction and combustion systems would be required.

8. A low flame multi-burn flaring system to be incorporated in the landfill gas management system would be required. The flaring system should be enclosed in a cage unit to prevent debris from going through the flame.

9. The acceptance criteria and frequency of monitoring for odours needs to be specified in the development of the LEMP based on the conduct of modelling and approved management practices.

10. In order to achieve satisfactory environmental outcomes the use of a force-fed mechanical waste shredding system at the transfer station (as a means of reducing the potential for litter) is recommended. The Authority will require all waste to go through an Environment Protection Authority approved resource recovery centre which has a high percentage of re-use and resource recovery.

11. The Environment Protection Authority as part of the licence condition will state that litter will not be allowed to discharge off the proponent's property.

12. As part of the LEMP a surface water management system, which collects run-off from road surfaces, stockpile areas and other locations where saline water has been used for dust suppression, should be prepared. This water is to be directed to specific ponds for collection and disposal into the leachate collection system or alternative treatment approved by the Environment Protection Authority.

13. The polylock system for anchoring the HDPE membrane may form part of the liner if the design and proposed construction method can demonstrate that the performance of the liner system is not compromised.

14. The applicant is reminded of its general environmental duty, as required by section 25 of the Environment Protection Act 1993, to take all reasonable and practical measures to ensure that the activities on the whole site, including during construction, do not pollute the environment in a way which causes or may cause environmental harm.

Dated 13 April 2006.

Assessment Commission

Schedule

Date of commencement.

1. *Preliminary*

- 1.1 These Rules may be cited as the Lotteries (Lotto—Saturday) Rules.
- 1.2 These Rules will come into operation on the date specified in the Schedule to these Rules.
- 1.3 These Rules are to be read in conjunction with and are subject to the Lotteries (General) Rules.
- 1.4 These Rules apply to the lottery known as 'Lotto' as played on a Saturday or such other day as determined by the Bloc members.

2. *Interpretation*

- 2.1 In these Rules and in each part of these Rules unless the contrary intention appears:

'Bloc members' means the parties from time to time to a certain Australian Lotto Bloc Agreement entered into by the Commission with other parties for the promotion, conduct and sale of tickets in *inter alia* the game of Lotto drawn generally each Saturday night on a joint basis with a common winning number determination and a declaration of common dividends based on the equal participation of all players in the aggregated prize pool;

'claim period' means the period commencing at midnight on the day of determination of the draw results ('relevant day') and ending at the close of business on the fourteenth day thereafter. If the fourteenth day is a Saturday, Sunday or Public Holiday the claim period will end at the Commission's close of business on the immediately preceding working day;

'drawing equipment' means equipment operated as determined from time to time by the Bloc members for ascertaining the winning numbers;

'Lotto' means a lottery drawn on a Saturday or such other day as the Bloc members determine in which a player is required to forecast 6 numbers to be drawn from the range of numbers 1 to 45 inclusive.

3. *Ordinary Entry*

- 3.1 To create an ordinary entry, a player must forecast or cause to be forecast 6 numbers.
- 3.2 An ordinary entry will participate in one draw only for the number of games paid for and selected.
- 3.3 The minimum number of games to be completed will be 4.
- 3.4 There will be no limit to the maximum number of games that can be played, save that in any one draw:
 - 3.4.1 the Commission may decline to issue more than 1 000 entries to a player; and
 - 3.4.2 a player can be issued with entries costing no more than \$99 999.
- 3.5 A player may request that an entry be issued in a draw to be conducted within 52 weeks or such lesser period as determined by the Commission.
- 3.6 Subject to Rule 6, a player must submit only:
 - 3.6.1 the coupon provided for that purpose from time to time by the Commission;
 - 3.6.2 an Easisplay Club card in respect of which regular wagers have been nominated; or
 - 3.6.3 an electronic request for entry in such format as the Commission determines.
- 3.7 In the case of a coupon, a player's forecast must be marked by hand with a vertical mark in the centre of the square or such other mark as the Commission or Agent requires. All marks on a coupon must be legible and made by pencil or dark blue pen. No other mark will be accepted. A coupon must not be marked in red or black.
- 3.8 The 'system entry' box must be left blank.
- 3.9 A player who marks a 'top up' box will be taken to have authorised the terminal to generate a random forecast of a sufficient quantity of numbers to complete the panel, the coupon or the nominated number of games, as the case may be.
- 3.10 If a player marks more than the specified number of squares in any panel, a ticket will not issue until the player has either nominated the number(s) to be deleted or opted for a system entry. The player may be required to complete another coupon.
- 3.11 If a player marks fewer than the specified number of squares in any panel and does not mark the relevant 'top up' box, a ticket will not issue until the player has either nominated the number(s) to be added or nominated a top up entry or a system entry.

4. *Multi-Week Entry*

- 4.1 A player may enter their number selections for a series of consecutive draws by marking the appropriate square in the 'weeks' box or by verbally requesting such an entry. The number of consecutive draws that may be entered in this way is up to 52 weeks or such lesser period as determined by the Commission.
- 4.2 The Rules governing ordinary entries will apply to every multi-week entry.

5. *System Entry*

- 5.1 A player may create a system entry by selecting or causing to be selected 4, 5 or from 7 to 20 numbers, rather than the 6 to be selected in the case of an ordinary entry.

- 5.2 In the case of a coupon, a system entry must be completed by marking the 'system entry' box and selecting or causing to be selected the quantity of numbers corresponding to the system to be entered by the player. (Thus, to play system 7, seven numbers are selected; to play system 8, eight numbers are selected and so on to a maximum of 20 numbers selected to play a system 20 entry). In the case of a verbal entry, a system entry must be completed by requesting the terminal operator to complete such an entry. Ordinary and system participation will not be accepted if completed on the one coupon and only one system entry type can be played on the one coupon.
- 5.3 If more numbers are marked in any panel than the requested system requires, a ticket will not issue until the player has nominated the number(s) to be deleted. If fewer numbers are marked in any panel than the requested system requires and the relevant 'top up' box is not marked, a ticket will not issue until the player has nominated either the number(s) to be added or a top up entry.
- 5.4 Systems 4 and 5 are a particular type of system whereby the quantity of numbers selected is less than the forecast objective.
- 5.5 A system 4 or 5 entry will be equivalent to playing a certain number of separate games of 6 numbers as determined by the following formula:

$$\frac{(45 - S)!}{39! \times (6 - S)!} \quad (\text{where } S = \text{system number})$$

- 5.6 A player who wishes to enter a system 4 entry must select or cause to be selected any four numbers. These four numbers will be combined with all combinations of two numbers from the remaining numbers. This system entry will be equivalent to playing 820 games of six numbers.
- 5.7 A player who wishes to enter a system 5 entry must select or cause to be selected any five numbers. These five numbers will be combined with each of the remaining numbers in turn. This system entry will be equivalent to playing 40 games of six numbers.
- 5.8 A player who wishes to enter a system 7 to 20 inclusive must select or cause to be selected the quantity of numbers according to the system number to be entered. These numbers will be combined with one another in all possible combinations of six numbers. This system entry will be equivalent to playing a certain number of separate games of six numbers as determined by the following formula:

$$\frac{S!}{6! \times (S - 6)!} \quad (\text{where } S = \text{system number})$$

- 5.9 Subject to Rule 3.4, a player may enter up to 12 of the same type of system entry on the one coupon.
- 5.10 A system entry may be entered for multi-week participation, in which case the Rules relating to multi-week and Easi-Pick entry will also apply.
- 5.11 The price of a system entry will be as published by the Commission from time to time.

6. *Easi-Pick Entry*

- 6.1 A player can play by means of an Easi-Pick nomination at the selling point. The Commission or Agent must enter the information nominated by the player into the terminal and cause it to generate a forecast of the type nominated by the player.
- 6.2 Easi-Pick entries will be limited to 25 games (of six numbers) for an ordinary entry, up to 12 panels of the same type of a system entry, or such other number as the Commission determines.
- 6.3 An Easi-Pick entry can be nominated using the terminal keyboard.
- 6.4 The Easi-Pick forecast will be printed on a ticket generated by the terminal, and the printed selections will be deemed to be those selections nominated to the Commission or Agent as if they were marked on a coupon by the player in accordance with these Rules.

7. *Determination of Winning Numbers*

- 7.1 Each draw will be identified by a number.
- 7.2 Each draw will be conducted using drawing equipment as the Bloc members determine.

- 7.3 For each draw, the Bloc members will cause 8 numbered balls to be drawn from the drawing equipment.
- 7.4 The first 6 balls drawn will be the winning numbers and the additional 2 balls will be the supplementary numbers.
- 7.5 There will be 5 prize winning divisions in each draw:
- Division 1—player(s) who correctly forecast the 6 winning numbers in any one game.
- Division 2—player(s) who correctly forecast any 5 of the 6 winning numbers and either one of the supplementary numbers in any one game.
- Division 3—player(s) who correctly forecast any 5 of the 6 winning numbers in any one game.
- Division 4—player(s) who correctly forecast any 4 of the 6 winning numbers in any one game.
- Division 5—player(s) who correctly forecast any 3 of the 6 winning numbers and either one of the supplementary numbers in any one game.

8. *Supervision of Draw*

- 8.1 The selection of winning numbers will be conducted in such manner as agreed by the Bloc members and:
- 8.1.1 if conducted in the State of Victoria, will be supervised by a representative of the Treasury of the State of Victoria;
- 8.1.2 if conducted in any of the States of South Australia, Western Australia or Queensland, will be supervised by a representative of the Auditor-General's Department of the State in which the draw is conducted; and
- 8.1.3 will be final for the purpose of determining the prize winners in that draw.

9. *Prize Pool Allocation*

- 9.1 Only one prize can be won by any one entry in a game.
- 9.2 60% of the total entry fees received for each draw (or such greater amount as the Commission determines) will be allocated as the prize pool.
- 9.3 The Commission will pay the percentage referred to in Rule 9.2 into a total prize pool to which the Bloc members will contribute the same percentage of the total amount of their entry fees.
- 9.4 The amount of the prize pool will be announced at each draw.
- 9.5 The prize money allocated to each division will be apportioned in equal shares between the winners in that division.
- 9.6 If there is no winner in any of Divisions 2, 3 or 4 of any draw, the prize money allocated to that division will be added to the prize money allocated to the next lower division in which there is a winner.

10. *Prize Structure*

- 10.1 The total prize pool will be distributed as follows:
- Division 1—27.2% of the prize pool.
Division 2—6.45% of the prize pool.
Division 3—12.15% of the prize pool.
Division 4—20.85% of the prize pool.
Division 5—33.35% of the prize pool.
- 10.2 Notwithstanding any other Rule, the Commission may at its discretion round out the amount of any prize other than a Division 1 prize to the nearest 5 cents above or below the actual prize otherwise payable. To the extent necessary to give effect to this Rule, the above percentages will be varied and the resulting surplus or deficit will be added to or deducted from the prize pool payable in respect of that draw or from the Prize Reserve Fund.

11. *Prize Reserve Fund*

- 11.1 From time to time, the Commission may set aside a proportion of the total amount received from entry fees to any draw and, in respect of that draw, the distribution of prizes will be reduced *pro rata* in all prize winning divisions. The amount set aside will be accumulated by the Commission to constitute a pool called the Prize Reserve Fund.
- 11.2 The Prize Reserve Fund will be applied from time to time for the purpose of additional or increased prizes in respect of such subsequent lottery or lotteries conducted by the Commission, in such amount(s) and to such player(s) as the Commission in its absolute discretion determines.
- 11.3 The amounts to be set aside and the amounts to be applied to additional or increased prizes must be agreed with the Bloc members.
- 11.4 In the event that the game of Lotto as played on a Saturday is replaced, enhanced, renamed or otherwise varied, the Prize Reserve Fund as constituted by this Rule 11 shall be assigned to the game replacing, enhancing, renaming or otherwise varying the game of Lotto as played on a Saturday.

12. *Jackpots*

- 12.1 If there is no Division 1 prize winner, that portion of the prize pool that would have been payable to a single Division 1 winner in that draw will be added to or jackpotted with the Division 1 prize money in the next draw. This jackpotting will continue for no more than 4 consecutive draws. If there is no Division 1 prize winner in the next (or 5th) consecutive draw, the total amount of the jackpot and the Division 1 prize that would have been payable to a single winner in that 5th draw will be added to the prize money allocated to the next lower division in which there is a winner.
- 12.2 The Commission guarantees a minimum prize payout in Division 1 of any draw, the amount by which the Commission thereby augments the portion of the prize pool allocated to Division 1 in that draw will not be taken into account in determining the amount of any jackpot subsequently paid in respect of that division.

13. *Publication of Results*

- 13.1 The Commission will publish the results as soon as practicable after each draw.
- 13.2 The information published may include:
 - 13.2.1 the winning numbers;
 - 13.2.2 the amount of the prize pool allocated to each division;
 - 13.2.3 the number of prize winners or provisional prize winners in each division;
 - 13.2.4 the value or provisional value of each prize in each division;
 - 13.2.5 the dates when prizes will be paid; and
 - 13.2.6 the date the claim period expires.

14. *Prize Claims*

- 14.1 In the case of Division 1 and 2 prizes:
 - 14.1.1 prize money will be distributed after the claim period has elapsed;
 - 14.1.2 claims lodged within the claim period and determined by the central computer to be prize winning entries and any entries subsequently identified within the claim period as prize winning entries will share equally in the prize pool available to winners in their respective division; and
 - 14.1.3 any player who claims to be entitled to a prize must lodge a claim with the Commission.
- 14.2 In the case of prizes other than Division 1 and 2 prizes:
 - 14.2.1 prize money will be paid as soon as practicable after the drawing of the draw either at the Commission or through any selling point terminal on presentation of the ticket or record of electronic entry and evaluation by a terminal subject to these Rules;

- 14.2.2 if a ticket or record of electronic entry includes a game that has won a prize in Division 3 or a lower division in addition to a Division 1 or 2 prize then the lower division prize will not be paid until the Division 1 or 2 prize is payable; and
- 14.2.3 any player who claims to be entitled to a prize but:
- 14.2.3.1 whose entry has not been identified by the central computer system as a prize winning entry;
 - 14.2.3.2 considers that their entry has been incorrectly evaluated by the Commission; or
 - 14.2.3.3 has not on application to a selling point terminal obtained confirmation that their ticket has won the prize,
- must lodge a claim with the Commission.
- 14.3 A claim under Rule 14.1.3 or 14.2.3:

- 14.4 The Commission:
- 14.4.1 will not be obliged to recognise any claim not identified as a prize winning entry by the central computer within 12 months of the relevant day; and
 - 14.4.2 may in its absolute discretion accept or refuse to accept a claim in whole or in part.

Schedule

Date of commencement.

1. *Preliminary*

- 1.1 These Rules may be cited as the Lotteries (Lotto—Monday and Wednesday) Rules.
- 1.2 These Rules will come into operation on the date specified in the Schedule to these Rules.
- 1.3 These Rules are to be read in conjunction with and are subject to the Lotteries (General) Rules.
- 1.4 These Rules apply to the lottery known as 'Lotto' as played on a Monday and Wednesday or such other day as determined by the Bloc members.

2. *Interpretation*

- 2.1 In these Rules and in each part of these Rules unless the contrary intention appears:

'Bloc members' means the parties from time to time to a certain Bloc Agreement entered into by the Commission with other parties for the promotion, conduct and sale of tickets in the game of Lotto drawn generally on each Monday and Wednesday night on a joint basis with a common winning number determination and a declaration of common dividends based on the equal participation of all players in the aggregated prize pool;

'claim period' means the period commencing at midnight on the day of determination of the draw results ('relevant day') and ending at the close of business on the fourteenth day thereafter. If the fourteenth day is a Saturday, Sunday or Public Holiday the claim period will end at the Commission's close of business on the immediately preceding working day;

'drawing equipment' means equipment operated as determined from time to time by the Bloc members for ascertaining the winning numbers;

'Lotto' means a lottery drawn on a Monday and Wednesday or such other day or days as the Bloc members determine in which a player is required to forecast 6 numbers to be drawn from the range of numbers 1 to 45 inclusive.

3. *Ordinary Entry*

- 3.1 To create an ordinary entry, a player must forecast or cause to be forecast 6 numbers.
- 3.2 An ordinary entry will participate in one draw only for the number of games paid for and selected.
- 3.3 The minimum number of games to be completed will be four.
- 3.4 There will be no limit to the maximum number of games that can be played, save that in any one draw:
 - 3.4.1 the Commission may decline to issue more than 1 000 entries to a player; and
 - 3.4.2 a player can be issued with entries costing no more than \$99 999.
- 3.5 A player may request that an entry be issued in a draw to be conducted within 52 weeks or such lesser period as determined by the Commission.
- 3.6 Subject to Rule 6, a player must submit only:
 - 3.6.1 the coupon provided for that purpose from time to time by the Commission;
 - 3.6.2 an Easisplay Club card in respect of which regular wagers have been nominated; or
 - 3.6.3 an electronic request for entry in such format as the Commission determines.
- 3.7 In the case of a coupon, a player's forecast must be marked by hand with a vertical mark in the centre of the square or by such other mark as the Commission or Agent requires. All marks on a coupon must be legible and made by pencil or dark blue pen. No other mark will be accepted. A coupon must not be marked in red or black.
- 3.8 The 'system entry' box must be left blank.
- 3.9 A player who marks a 'top up' box will be taken to have authorised the terminal to generate a random forecast of a sufficient quantity of numbers to complete the panel, the coupon or the nominated number of games, as the case may be.
- 3.10 If a player marks more than the specified number of squares in any panel, a ticket will not issue until the player has either nominated the number(s) to be deleted or opted for a system entry. The player may be required to complete another coupon.
- 3.11 If a player marks fewer than the specified number of squares in any panel and does not mark the relevant 'top up' box, a ticket will not issue until the player has either nominated the number(s) to be added or opted for a top up entry or a system entry.

4. *Multi-Week Entry*

- 4.1 A player may enter their number selections for a series of consecutive draws by marking the appropriate square in the 'weeks' box or by verbally requesting such an entry. The number of consecutive draws that may be entered in this way is up to 52 weeks or such lesser period as determined by the Commission.
- 4.2 The Rules governing ordinary entries will apply to every multi-week entry.

5. *System Entry*

- 5.1 A player may create a system entry by selecting or causing to be selected 4, 5 or from 7 to 20 numbers, rather than the 6 to be selected in the case of an ordinary entry.
- 5.2 In the case of a coupon, a system entry must be completed by marking the 'system entry' box and selecting or causing to be selected the quantity of numbers corresponding to the system to be entered by the player. (Thus, to play system 7, seven numbers are selected; to play system 8, eight numbers are selected and so on to a maximum of 20 numbers selected to play a system 20 entry). In the case of a verbal entry, a system entry must be completed by requesting the terminal operator to complete such an entry. Ordinary and system participation will not be accepted if completed on the one coupon and only one system entry type can be played on the one coupon.
- 5.3 If more numbers are marked in any panel than the requested system requires, a ticket will not issue until the player has nominated the number(s) to be deleted. If fewer numbers are marked in any panel than the requested system requires and the relevant 'top up' box is not marked, a ticket will not issue until the player has nominated either the number(s) to be added or a top up entry.
- 5.4 Systems 4 and 5 are a particular type of system whereby the quantity of numbers selected is less than the forecast objective.
- 5.5 A system 4 or 5 entry will be equivalent to playing a certain number of separate games of 6 numbers as determined by the following formula:

$$\frac{(45 - S)!}{39! \times (6 - S)!} \quad (\text{where } S = \text{system number})$$

- 5.6 A player who wishes to enter a system 4 entry must select or cause to be selected any four numbers. These four numbers will be combined with all combinations of two numbers from the remaining numbers. This system entry will be equivalent to playing 820 games of six numbers.
- 5.7 A player who wishes to enter a system 5 entry must select or cause to be selected any five numbers. These five numbers will be combined with each of the remaining numbers in turn. This system entry will be equivalent to playing 40 games of six numbers.
- 5.8 A player who wishes to enter a system 7 to 20 inclusive must select or cause to be selected the quantity of numbers according to the system number to be entered. These numbers will be combined with one another in all possible combinations of six numbers. This system entry will be equivalent to playing a certain number of separate games of six numbers as determined by the following formula:

$$\frac{S!}{6! \times (S - 6)!} \quad (\text{where } S = \text{system number})$$

- 5.9 Subject to Rule 3.4, a player may enter up to 12 of the same type of system entry on the one coupon.
- 5.10 A system entry may be entered for multi-week participation, in which case the Rules relating to multi-week and Easi-Pick entry will also apply.
- 5.11 The price of a system entry will be as published by the Commission from time to time.

6. *Easi-Pick Entry*

- 6.1 A player can play by means of an Easi-Pick selection at the selling point. The Commission or Agent must enter the information nominated by the player into the terminal and cause it to generate a forecast of the type nominated by the player.
- 6.2 Easi-Pick entries will be limited to 25 games (of six numbers) for an ordinary entry, up to 12 panels of the same type of a system entry, or such other number as the Commission determines.
- 6.3 An Easi-Pick entry can be nominated using the terminal keyboard.
- 6.4 The Easi-Pick forecast will be printed on a ticket generated by the terminal, and the printed selections will be deemed to be those selections nominated to the Commission or Agent as if they were marked on a coupon by the player in accordance with these Rules.

7. *Determination of Winning Numbers*

- 7.1 Each draw will be identified by a number.
- 7.2 Each draw will be conducted using drawing equipment as the Bloc members determine.
- 7.3 For each draw, the Bloc members will cause 8 numbered balls to be drawn from the drawing equipment.
- 7.4 The first 6 balls drawn will be the winning numbers and the additional 2 balls will be the supplementary numbers.
- 7.5 There will be 5 prize winning divisions in each draw:
- Division 1—player(s) who correctly forecast the 6 winning numbers in any one game.
- Division 2—player(s) who correctly forecast any 5 of the 6 winning numbers and either one of the supplementary numbers in any one game.
- Division 3—player(s) who correctly forecast any 5 of the 6 winning numbers in any one game.
- Division 4—player(s) who correctly forecast any 4 of the 6 winning numbers in any one game.
- Division 5—player(s) who correctly forecast any 3 of the 6 winning numbers and either one of the supplementary numbers in any one game.

8. *Supervision of Draw*

- 8.1 The selection of winning numbers will be conducted in such manner as agreed by the Bloc members and:
- 8.1.1 if conducted in the State of New South Wales, will be supervised by a representative of the Audit Office of the State of New South Wales;
- 8.1.2 if conducted in any of the other participating States, will be supervised by a representative of the Auditor-General's Department of the State in which the draw is conducted; and
- 8.1.3 will be final for the purpose of determining the prize winners in that draw.

9. *Prize Pool Allocation*

- 9.1 Only one prize can be won by any one entry in a game.
- 9.2 60% of the total entry fees received for each draw (or such greater amount as the Commission determines) will be allocated as the prize pool.
- 9.3 The Commission will pay the percentage referred to in Rule 9.2 into a total prize pool to which the Bloc members must contribute the same percentage of the total amount of their entry fees.
- 9.4 The amount of the prize pool will be announced at each draw.
- 9.5 The prize money allocated to each division will be apportioned in equal shares between the winners in that division.
- 9.6 If there is no winner in any of Divisions 2, 3 or 4 of any draw, the prize money allocated to that division will be added to the prize money allocated to the next lower division where there is a winner.

10. *Prize Structure*

- 10.1 The total prize pool will be distributed as follows:
- Division 1—50.0% of the prize pool.
- Division 2—3.7% of the prize pool.
- Division 3—6.8% of the prize pool.
- Division 4—17.0% of the prize pool.
- Division 5—22.5% of the prize pool.

- 10.2 Notwithstanding any other Rule, the Commission may at its discretion round out the amount of any prize other than a Division 1 prize to the nearest 5 cents above or below the actual prize otherwise payable. To the extent necessary to give effect to this Rule, the above percentages will be varied and the resulting surplus or deficit will be added to or deducted from the prize pool payable in respect of that draw or from the Prize Reserve Fund.

11. *Prize Reserve Fund*

- 11.1 From time to time, the Commission may set aside a proportion of the total amount received from entry fees to any draw and, in respect of that draw, the distribution of prizes will be reduced *pro rata* in all prize winning divisions. The amount set aside will be accumulated by the Commission to constitute a pool called the Prize Reserve Fund.
- 11.2 The Prize Reserve Fund will be applied from time to time for the purpose of additional or increased prizes in respect of such subsequent lottery or lotteries conducted by the Commission, in such amount(s) and to such player(s) as the Commission in its absolute discretion determines.
- 11.3 The amounts to be set aside and the amounts to be applied to additional or increased prizes must be agreed with the Bloc members.
- 11.4 In the event that the game of Lotto as played on a Monday and Wednesday is replaced, enhanced, renamed or otherwise varied, the Prize Reserve Fund as constituted by this Rule 11 shall be assigned to the game replacing, enhancing, renaming or otherwise varying the game of Lotto as played on a Monday and Wednesday.

12. *Jackpots*

- 12.1 If there is no Division 1 prize winner, that portion of the prize pool that would have been payable to a single Division 1 winner in that draw will be added to or jackpotted with the Division 1 prize money in the next draw. This jackpotting will continue until there is a Division 1 winner.
- 12.2 The Commission guarantees a minimum prize payout in Division 1 of any draw, the amount by which the Commission thereby augments the portion of the prize pool allocated to Division 1 in that draw will not be taken into account in determining the amount of any jackpot subsequently paid in respect of that division.

13. *Publication of Results*

- 13.1 The Commission will publish the results as soon as practicable after each draw.
- 13.2 The information published may include:
- 13.2.1 the winning numbers;
 - 13.2.2 the amount of the prize pool allocated to each division;

 - 13.2.4 the value or provisional value of each prize in each division;
 - 13.2.5 the dates when prizes will be paid; and
 - 13.2.6 the date the claim period expires.

14. *Prize Claims*

- 14.1 In the case of Division 1 and 2 prizes:
- 14.1.1 prize money will be distributed after the claim period has elapsed;
 - 14.1.2 claims lodged within the claim period and determined by the central computer to be prize winning entries and any entries subsequently identified within the claim period as prize winning entries will share equally in the prize pool available to winners in their respective division; and
 - 14.1.3 any player who claims to be entitled to a prize must lodge a claim with the Commission.

- 14.2 In the case of prizes other than Division 1 and 2 prizes:
- 14.2.1 prize money will be paid as soon as practicable after the draw either at the Commission or through any selling point terminal on presentation of the ticket or record of electronic entry and evaluation by a terminal subject to these Rules;
 - 14.2.2 if a ticket or record of electronic entry includes a game that has won a prize in Division 3 or a lower division in addition to a Division 1 or 2 prize, the lower division prize will not be paid until the Division 1 or 2 prize is payable; and
 - 14.2.3 any player who claims to be entitled to a prize but:
 - 14.2.3.1 whose entry has not been identified by the central computer as a prize winning entry;

 - 14.2.3.3 has not on application to a selling point terminal obtained confirmation that their ticket has won the prize,must lodge a claim with the Commission.
