DEVELOPMENT ACT 1993, SECTION 48: DECISION BY THE DEVELOPMENT ASSESSMENT COMMISSION AS DELEGATE OF THE GOVERNOR

*Preamble*

1. The Governor, by a decision made on 27 May 2004 and published in the *Gazette* of that date at pages 1350-1354, granted provisional development authorisation under section 48 of the Development Act 1993, for the development of a 19 storey apartment complex located at 41-51 Hindmarsh Square and 131-139 Grenfell Street (RAA Corner), incorporating environmentally sustainable development features and comprising:

- the construction of a 19 level residential apartment tower and podium (10 storeys high) containing 127 apartments, with ground and part first floor retail and office use;
- renovation of the adjacent two-storey State Heritage listed YWCA building (incorporating a cafe, gymnasium, function room, lounges and wine storage areas);
- redevelopment of the roadway on the western side of Hindmarsh Square in front of the apartment allotment; and
- a three-level basement car park extending 30 m under the Hindmarsh Square roadway (for the width of the development site only), with provision for 158 car spaces, 27 bicycle spaces, storage, plant rooms and water storage tank.

That provisional development authorisation was subject to the 22 conditions attached to the authorisation.

2. Conservatory on Hindmarsh Square Pty Ltd (formerly Grenfell Street East Pty Ltd), the person having the benefit of the development authorisation applied for an amendment to that development authorisation to amend the development which was still for a 19 storey building but contained several changes, including:

- deletion of the underground car parking intruding into the roadway of Hindmarsh Square;
- an elevated car park has been incorporated into the building at levels 2 to 5. The car park façade includes solar panels and passive ventilation. The number of car parking spaces has been reduced from 155 to 116;
- the building of 19 storeys is no longer constructed over the adjoining YWCA heritage building;
- the number of apartments is reduced from 124 to 72 and more commercial space is included with an increase from 832 m<sup>2</sup> to 3 600 m<sup>2</sup>;
- all green elements such as water retention, water saving, waste management, power generation and energy usage minimisation have been maintained or improved.

3. The proposal was the subject of an Amended Development Report and an Amended Assessment Report under section 47 of the Development Act 1993.

4. The Governor, by a decision made on 1 September 2005 and published in the *Gazette* of that date at pages 3145-3149 granted provisional development authorisation under section 48 of the Development Act 1993, for the amended development.

5. Application has now been made to the Development Assessment Commission as delegate of the Governor under section 48 of the Development Act 1993 to grant an approval for variation to the Temporary Display Unit in the former YWCA Building and its associated Building Rules Certification, which is a reserved matter.

6. The amendments and reserved matters to the development are contained in the letter and accompanying plans by Tecon Australia dated 15 February 2006, which includes the signed approval of the Building Rules Certification for the Temporary Display Unit.

7. Application has now been made to the Governor under section 48 of the Development Act 1993, to grant an approval to amend the development authorisation, which is still for a 19 storey building but contains several changes, which are largely triggered by the further sustainability assessment of the building and include:

- façade changes to glazing, balconies and solar panels;
- relocation of the commercial lift core;

- relocation of the pool to the basement;
- small changes to apartment numbers, commercial floor space, building height and floor area.

8. The amendments to the development are contained in the correspondence and plans from Connor Holmes, 21 March 2006 and later varied by plans lodged on 18 May 2006.

9. The Governor has in considering the application had regard to all relevant matters under section 48 (5) of the Development Act 1993.

10. The Governor is satisfied that the variations do not require the preparation of a further amended Development Report.

*Decision*

PURSUANT to section 48 of the Development Act 1993 and with the advice and consent of the Executive Council, in relation to a proposal submitted by Conservatory on Hindmarsh Square Pty Ltd to develop the Hindmarsh Square Apartment Complex at 41-51 Hindmarsh Square and 131-139 Grenfell Street, I:

## OCCUPATIONAL HEALTH, SAFETY AND WELFARE ACT 1986

*Approved Code of Practice for Amusement Structures*

NOTICE is hereby given that pursuant to subsection 63 (1) of the Occupational Health, Safety and Welfare Act 1986, the following standards is an approved code of practice:

*AS 3533.4.1-2005 Amusement Rides and Devices—Specific requirements—Land-borne inflatable devices.*

*AS 3533.4.1-2005* shall be read as incorporating the 'Foreword', which is included in this notice and shall have effect from the date of *Gazettal*.

M. WRIGHT, Minister for Industrial Relations

## FOREWORD

The term 'approved code of practice' has a particular meaning under the South Australian Occupational Health, Safety and Welfare Act 1986.

An approved code of practice is designed to be used in addition to the Act and Regulations. In proceedings for an offence against the Act, where it is proved that a person failed to comply with a provision of a relevant approved code of practice, the person shall be taken to have failed to exercise the required standard of care, in the absence of proof to the contrary (section 63A of the Act).

Thus, a code of practice provides practical guidance on how a particular standard of health and safety can be achieved. It describes the preferred methods or courses of action for achieving this standard of health and safety. However, an approved code of practice allows the flexibility to show that an equivalent or better standard of health and safety is achieved by alternative action. An approved code of practice is therefore different from a regulation where the responsible person must meet the specific requirement of the regulation.

In summary, an approved code of practice:

- provides practical guidance;
- should be followed unless there is another solution which achieves the same or a better standard of health and safety; and
- can be used to support prosecution.

Codes of Practice are approved by the Minister for Industrial Relations, following recommendation from the SafeWork SA Advisory Committee which is constituted under the Occupational Health, Safety and Welfare Act 1986.

**GOVERNMENT OF SOUTH AUSTRALIA****COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO  
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS  
ENDED 31 MARCH 2006 AND 31 MARCH 2005*****Receipts****Taxation*

Low levels of debits tax receipts in 2005-2006 reflect the abolition of the tax with effect from 1 July 2005, resulting in only residual collections in the September quarter 2005.

Gambling tax receipts were lower in the first nine months of 2005-2006, compared with the same period a year ago, reflecting lower overall expenditure on gambling.

Land tax receipts in the March quarter 2006 were low compared with the same quarter a year ago, due to the earlier timing of land tax payments by the South Australian Housing Trust in 2005-2006. The Trust's 2005-2006 land tax liability (\$115.9 million) was paid in the December quarter whereas its 2004-2005 land tax liability (\$97.1 million) was not paid until the March quarter of 2004-2005. The land tax reduction package introduced in February 2005 and quarterly billing also contributes to the lower collection level in the March quarter 2006.

Lower land tax receipts for the nine months to March 2006 compared with the nine months to March 2005 are the result of the land tax reduction package referred to above, including the introduction of quarterly billing.

Payroll tax receipts for the first nine months of 2005-2006 were higher than for the same period in the previous year mainly reflecting stronger economic conditions that impact on payroll tax.

*Recoveries*

The seemingly large variation between budgeted recoveries for 2005-2006 and actual recoveries to 31 March 2006, reflects the timing of the recovery of surplus cash from agencies pursuant to the Department of Treasury and Finance Cash Alignment Policy. Under the policy cash deposited by agencies into the Surplus Cash Working Account during the year is transferred to the Consolidated Account in June each year following the Treasurer's approval.

*Fees and Charges*

The Land Services Group of the Department of Administrative and Information Services collects regulated fees and charges through various land administration Acts administered under the statutory authority of the Registrar-General and the Surveyor-General. Previously, these receipts were transferred to Consolidated Account net of the cost of the Land Services Group operations, as a dividend payment. The total land services receipts are now transferred to Consolidated Account and the Land Services Group are funded for their costs. As a result, these receipts have been reclassified as Fees and Charges. The year to date collection for 2005-2006 was transferred to the Consolidated Account in January 2006 and will

continue to be recorded in such a manner from now on. This revised treatment accounts for the variation against the 2005-2006 budget for fees and charges, and between the total fees and charges collected for the nine months ended and the quarter ended 31 March 2006 compared with the same periods last financial year.

### *Royalties*

Higher royalty receipts in the first nine months of 2005-2006 and for the March quarter 2006 compared with the same periods in the previous year, mainly reflect differences in the timing of royalty payments from Olympic Dam.

### *Commonwealth – General Purpose Grants*

GST monthly payments are based on schedules prepared by the Commonwealth at the commencement of each year and may be adjusted if full year estimates are revised. The 2005-2006 monthly payment profile was adjusted in February to reflect the revised estimate published in the Commonwealth's Mid Year Economic and Fiscal Outlook. The full year estimate was further revised in the Commonwealth Budget on 9 May but the payment profile has yet to be amended. Cash receipts are also affected by adjustments for over and under payments in prior periods. Accordingly, it is not possible to extrapolate on a *pro rata* basis the likely full year outcome from year to date receipts.

Further, growth in general purpose grants between the first nine months of 2005-2006 and the same period of 2004-2005 is not indicative of underlying GST revenue growth.

### *Commonwealth—Specific Purpose Grants*

The increase in the level of Commonwealth Specific Purpose Payments in the first nine months of this year, compared with the same period last year, mainly reflects the timing of debt redemption assistance payments by the Commonwealth.

### *Other Receipts*

Other Receipts are higher in the nine months ended 31 March 2006, compared with the same period last year mainly because of repayments of equity capital contributions from SA Water of \$74.3 million, paid in the first quarter of 2005-2006 in line with the 2005-2006 Budget.

### **Payments**

Payments have been made pursuant to the *Appropriation Act*, passed at the time of the 2005-2006 State Budget and in accordance with various Acts for which specific appropriation has been authorised.

Payments made from the Consolidated Account during the first three quarters of 2005-2006 were higher than the same period in 2004-2005. This is primarily due to the level of appropriation approved in the 2005 Appropriation Act being greater than the appropriation level included in the 2004 Appropriation Act.

**Note**

Considerable caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. In addition, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, it should be noted that the timing of receipts and payments could be volatile within a particular year. As a result, apparently significant movements between years may only be due to changes in the timing of receipts and payments, and therefore may not have implications for the underlying budget position.
