DEVELOPMENT ACT 1993, SECTION 48: DECISION BY  
THE MINISTER FOR URBAN DEVELOPMENT AND  
PLANNING ON BEHALF OF THE GOVERNOR

*Preamble*

1. On 1 May 2007, I, as the Minister for Urban Development and Planning, made a declaration by notice in the *Government Gazette* that section 46 of the Development Act 1993 applied to any development of a kind listed in Schedule 1 of that notice in the parts of the State listed in Schedule 2 of that notice.

2. On 25 July 2007, an application was lodged by QED Pty Ltd on behalf of the owner [‘the proponent’] relating to a development within the ambit of the declaration, being a shopping centre and residential apartment complex of six storeys (ground level plus five levels) (‘the proposed Major Development’), to be located at 88 O’Connell Street, North Adelaide (‘the site’).

3. On 18 September 2008, by notice in the *Gazette*, the Governor:

- (a) granted provisional development authorisation to the proposed Major Development under section 48 (6) of the Development Act subject to the conditions set out in Part B of that notice;
- (b) reserved his decision on matters specified in Part A of that notice until further assessment of the proposed Major Development;
- (c) specified all matters relating to this provisional development authorisation as matters in respect of which conditions of this authorisation may be varied or revoked, or new conditions attached;
- (d) delegated to me pursuant to section 48 (8) of the Development Act 1993:
  - (i) the power to assess the reserve matters and to issue a final development authorisation for the purposes of section 48 (2) (b) (i) of the Act;
  - (ii) the power under section 48 (7a) to grant or permit any variation associated with that provisional development authorisation (provided that the essential nature of the development is not changed); and
  - (iii) in relation to that provisional development authorisation, or any variation—the power to vary or revoke conditions, or to attach new conditions, under section 48 (7) of the Development Act 1993 (provided that the essential nature of the development is not changed).

4. The proponent has:

- (a) applied to vary the provisional development authorisation to permit staging of the development; and
- (b) sought approval to commence Stage 1 (demolition) on the site.

5. I am satisfied that the application does not require the preparation of a further or amended Development Report, and that the amended proposal does not change the essential nature of the development.

6. I am satisfied that Stage (1) demolition would require compliance with two matters reserved in the notice of 18 September 2008, being matters (a) and (f) set out in Part A of that notice, insofar as those matters relate specifically to demolition.

7. A Demolition Plan and CEMP specific to demolition were supplied on 2 November 2009. I am satisfied that approval should be granted to stage (1) demolition in accordance with the Demolition Plan and CEMP.

8. I have decided to vary the provisional development authorisation by permitting the development to be staged, and to grant development authorisation in respect of stage (1) demolition.

*Decision*

PURSUANT to section 48 of the Development Act 1993, having due regard to the matters set out in section 48 (5) and all other relevant matters, I:

- (a) pursuant to section 48 (7), vary the conditions of the provisional development authorisation granted by the Governor on 18 September 2008 in relation to the proposed Major Development, which appear, as amended in Part B below;
- (b) pursuant to section 48 (2) (b) (i), grant a final development authorisation in respect of stage (1) demolition subject to the conditions set out in Part D below;
- (c) pursuant to section 48 (6) reserve my decision on the reserved matters specified in Part A below;
- (d) specify all matters relating to this development authorisation as matters in respect of which conditions of this authorisation may be varied or revoked, or new conditions attached;
- (e) specify for the purposes of section 48 (11) (b) that this development authorisation must have substantial work commenced on site by 18 September 2010 (which is two years from the date of the original Provisional Development approval), failing which I may cancel this authorisation.

*Part A: Reserved Matters*

The following are the matters reserved for further assessment:

- (a) Compliance with the Building Rules in relation to all aspects of the proposed Major Development other than demolition.
- (b) A Building Sustainability Plan that includes details of the objectives and measures to be implemented to achieve energy and water efficiencies, the use of recycled materials, minimisation of emissions, and waste minimisation/recycling for the proposed development. This would need to be shown on the plans and elevations where applicable. The Plan must include targets and measures.
- (c) Any external advertising signage.
- (d) A detailed landscaping schedule/plan for the site.
- (e) Acoustic treatment details that meet noise criteria as set out in:
  - AS 1276-1979: Methods for determination of sound transmission class and noise isolation class of building partitions;
  - AS ISO 140.8-2006: Acoustics—Measurement of sound insulation in buildings and of building elements, laboratory measurements of the reduction of transmitted impact noise by floor coverings on a heavyweight standard floor; and
  - AS/NZS 1269.2-1998: occupational noise management—Noise control management.
- (f) A Construction Environmental Management and Monitoring Plan covering the preconstruction and construction phases (other than demolition) to address management issues during construction.

*Part B: Conditions of Provisional Development Authorisation  
(for all work other than Stage (1) Demolition)*

1. The development authorisation granted hereunder is, with the exception of Stage (1) demolition, provisional only and does not operate as a final development authorisation. It does not therefore authorise implementation of the proposed Major Development with the exception of Stage (1) demolition. Only an authorisation granted under section 48 (2) (b) (i) can operate to authorise implementation of the balance of the proposed Major Development, which authorisation will only be granted after the reserved matters have been assessed and approved.

2. Except where minor amendments may be required by other legislation, or by conditions imposed herein, the proposed Major Development shall be undertaken in strict accordance with the following documents:

- Development application from QED Pty Ltd dated 25 July 2007 (except to the extent that it may be varied by a subsequent document in this paragraph);

- Development Report, 88 O'Connell Street, prepared by QED Pty Ltd (for the Makris Group), released on 23 January 2008 (except to the extent that it may be varied by a subsequent document in this paragraph);

#### *Part C: Notes to Proponent*

1. In respect of the reserved matters, the following is advised to the proponent:

##### (a) Building Rules:

The proponent must obtain a Building Rules assessment and certification from either the Adelaide City Council or a private certifier (at the proponent's option) and forward to the Minister all relevant certification documents as outlined in Regulation 64 of the Development Regulations 1993.

Pursuant to Development Regulation 64, the proponent is especially advised that the Adelaide City Council or private certifier conducting a Building Rules assessment must:

- provide to the Minister for Urban Development and Planning a certification in the form set out in Schedule 12A of the Development Regulations 1993, in relation to the building works in question; and
- to the extent that may be relevant and appropriate:
  - (i) issue a Schedule of Essential Safety Provisions under Division 4 of Part 12;
  - (ii) assign a classification of the building under these regulations; and
  - (iii) ensure that the appropriate levy has been paid under the Construction Industry Training Fund 1993.

Regulation 64 of the Development Regulations 1993, provides further information about the type and quantity of all Building Rules certification documentation for Major Developments required for referral to the Minister for Urban Development and Planning. The Adelaide City Council or private certifier undertaking Building Rules assessments must ensure that the assessment and certification are consistent with the provisional development authorisation (including its Conditions and Notes).

## (b) Building Sustainability Plan:

In relation to reserved matter (b), the Building Sustainability Plan should address energy consumption and green house emissions below the current levels to satisfy environmental performance. The approach to the design of this proposal should exceed the requirements of Part J of the Building Code on Energy Efficiency and as discussed in the Development Report provide an additional 20% energy efficiency to achieve a 5 star rating and should aim to provide a 5 Star Green Star GBCA Rating for the commercial component.

## (c) A Construction, Environmental Management and Monitoring Plan covering preconstruction and construction phases:

A Construction Environmental Management and Monitoring Plan (CEMMP) covering both preconstruction and construction phases shall be prepared in consultation with the Environment Protection Authority, before its submission to the Minister for approval. The CEMMP shall include the following:

- reference to, and methods of adherence to, all relevant Environment Protection Authority (EPA) policies and codes of practice for construction sites, including the inclusion of a copy of Schedule 1 of the Environment Protection Act 1993 as an Appendix to the Construction Environmental Management and Monitoring Plan to ensure contractors are aware of EPA requirements, in accordance with commitments made in the applicant's Response to Submissions, dated 27 June 2008;
- timing, staging and methodology of the construction process and working hours (refer also to condition outlining working hours);
- a risk assessment relating to the potential impacts of construction activities;
- traffic management strategies during construction of both the basement car park and the shopping centre and apartment complex, including transport beyond the development site;
- management of infrastructure services during construction and re-establishment of local amenity and landscaping;
- control and management of construction noise, vibration, dust and mud;
- engineering and structural issues associated with construction of the underground car park and overhead landscaping in the redevelopment of the roadway on the northern side (being Tynte Street) and the southern side (being Archer Street);
- stormwater and groundwater management during construction;
- identification and management of contaminated soils and groundwater, should these be encountered;
- site security, fencing and safety and management of impacts on local amenity for residents, traffic and pedestrians;
- disposal of construction waste, any hazardous waste and refuse in an appropriate manner according to the nature of the waste;
- protection and cleaning of roads and pathways;
- overall site clean up.

The CEMMP should be prepared taking into consideration, and with explicit reference to, relevant Environment Protection Authority policies and guideline documents, including the Environment Protection (Noise) Policy 2007.

2. The proponent is advised that noise emissions from the shopping centre and residential apartment complex will be subject to the Environment Protection (Noise) Policy 2007 and the Environment Protection Act 1993.

3. This provisional authorisation does not include the function centre land use.

4. The proponent is advised of the General Environmental Duty under section 25 of the Environment Protection Act 1993, which provides that a person must not undertake any activity, which pollutes, or may pollute; without taking all reasonable and practical measures to prevent or minimise harm to the environment.

5. The proponent is advised of the requirement to comply with the Environment Protection Authority's (EPA) 'Stormwater Pollution Prevention Code of Practice for the Building and Construction Industry' during demolition and construction of the development.

6. The proponent is advised that the Development Act 1993, outlines the roles and responsibilities of the applicant and the Adelaide City Council for matters relating to building works during and after construction of the shopping centre and apartment complex development and associated works.

7. The provisions of the Food Act 2001 and associated food regulations apply.

8. The Minister has a specific power to require testing, monitoring and auditing under section 48C of the Development Act 1993.

9. In addition to the Building Code of Australia, the proponent must comply with the Commonwealth Disability Discrimination Act 1992, in planning access for the disabled.

10. The main standard for traffic control devices is the Manual of Uniform Traffic Control Devices—AS 1742. There are many standards under AS 1742 covering the various traffic control devices that may need to be referred to. They are as follows:

- AS 1742 Manual of uniform traffic control devices;
- General introduction and index of signs—Australian Road Rules supplement;
- Supp.1(Int);

- 1742.11 Part 11: Parking controls;
- 1742.13 Part 13: Local area traffic management.

*Part D: Conditions of Stage (1) Demolition*

1. The demolition must take place in accordance with:

## COMMONWEALTH OF AUSTRALIA

## OFFSHORE PETROLEUM AND GREENHOUSE GAS STORAGE ACT 2006

*Notice of Invitation of Applications for Exploration Permit*

I, JOSEF STEFAN ZABROWARNY, acting Director Petroleum and Geothermal, Primary Industries and Resources SA, as the Delegate of the Designated Authority in respect of the offshore area in respect of South Australia and on behalf of the Commonwealth-South Australia Offshore Petroleum Joint Authority, acting pursuant to delegated powers dated 11 March 2009, *Gazetted* 19 March 2009, page 1044 and pursuant to section 104 (1) of the Offshore Petroleum and Greenhouse Gas Storage Act 2006 of the Commonwealth of Australia, hereby invite applications for the grant of an exploration permit in respect of the following area as scheduled below:

## SCHEDULE

(The references hereunder are to the names of the map sheet of the 1:1 000 000 series and to the numbers of graticular sections shown thereon).

The Commonwealth/State/Territory jurisdictional boundary in coastal waters is determined by the Australian Maritime Boundaries Information System Dataset of 2001, released in January 2001 by the Australian Surveying and Land Information Group (now Geoscience Australia National Mapping Division).

Section 283 of the Offshore Petroleum and Greenhouse Gas Storage Act 2006 provides that, where a change to the baseline of Australia's territorial sea would impact on the boundary of an existing petroleum title (in Commonwealth or State or Territory waters), there is in fact no such impact. The Commonwealth, State or Territory Act (as the case may be) under which the title has been granted, continues to apply to the title and the whole title area for as long as the title remains in force. Therefore, this Instrument does not apply to any such area that is already under title.
