I, PATRICK CONLON, the Minister for Transport, pursuant to Section 41 of the Rail Safety Act 2007, fix the following fees for 2011-2012.

SCHEDULE OF FEES 2011-2012

Fees Payable by Accredited Rail Infrastructure Managers and Rolling Stock Operators and Rail Infrastructure Managers of Registered Private Sidings

Annual Fee—Commercial Rail Infrastructure Managers and Rolling Stock Operators

An accredited person shall pay an annual accreditation fee determined according to the Kilometre Based Charging Regime.

All persons accredited at the beginning of the financial year shall pay a minimum annual fee of \$13 941. A person accredited at the beginning of the financial year as a rail infrastructure manager or a rolling stock operator, or both, shall pay additional fees equal to the sum of the Kilometre Based fees applicable to the rail infrastructure manager or rolling stock operator or both, as the case may be.

For an accreditation granted during the financial year, the amount shall be payable at the time of accreditation and the fee shall be based on the sum of the minimum annual fee adjusted on a *pro rata* basis to reflect the actual number of calendar days, or part thereof, that the accreditation will remain in force for the balance of the financial year, and the Kilometre Based fee applicable to the accreditation granted.

For an accreditation that is granted for a portion of the financial year, the amount payable shall be based on the sum of the minimum annual fee adjusted on a *pro rata* basis to reflect the actual number of calendar days, or part thereof, that the accreditation will remain in force, and the Kilometre Based fee applicable to the accreditation granted. An adjusted minimum fee of \$6 970 applies for an accreditation granted for a fixed period less than six months.

For all the above calculations historical information for the preceding financial year, where available, will be used for the purpose of the Kilometre Based fee in determining the track or train kilometres operated. Where historical information is not available, a projected assessment will be used.

NOTE: Train kilometres operated by a Rolling Stock Operator providing a hook-and-pull service are attributable to the accredited Rolling Stock Operator who has engaged the services of the hook-and-pull Rolling Stock Operator.
