Five	Drill 2 exploration or appraisal wells to basement'

There is no net reduction of the original guaranteed work program commitments. The variation provides for the substitution of 2 non-guaranteed wells with guaranteed additional 2D seismic acquisition and reprocessing of seismic data. The variation would not have altered the outcome of the original competitive tender process.

PEL 94

Condition 2 has been omitted and the following substituted:

'2. During the term of the licence, the Licensee shall carry out or cause to be carried out exploratory operations on the area comprised in the licence in accordance with such work programs as are approved by the Minister from time to time. Years one to three exploratory operations are guaranteed. These exploratory operations shall include but not necessarily be limited to:

Year of Term of Licence	Minimum Work Requirements
One to Three	Geological and Geophysical Studies; Drill 3 wells to pre-Permian basement; Acquire 360 km 2D seismic data; Reprocess 133 km seismic data
Four	Acquire 50 km 2D seismic data; Geological and Geophysical Studies
Five	Drill 1 well to pre-Permian basement; Geological and Geophysical Studies'

The variation provides some flexibility in the timing of the exploration work and an option to substitute new 2D seismic for reprocessing of seismic data. There is no net reduction of the original guaranteed work program commitments.

3. The rate at which surface water is taken from the designated area is such that the surface water available in the designated area can no longer meet the demand,

hereby restrict the taking of, surface water, water from watercourses and water from the Wells, in the designated area subject to the exceptions specified in Schedule 2.

5. Where land has been transferred from a person authorised under any of the notices referred to in clauses 1 or 2 of Schedule 2 the Minister may authorise the transferee to take water on the same terms as the transferor pursuant to the Guidelines or such varied terms as the Minister or delegate may specify in writing to the transferee.

6. This restriction does not apply to the taking of water pursuant to section 7 (5) of the Act for domestic purposes or watering stock (other than stock subject to intensive farming) or to taking water for fire fighting or public road making in the area as indicated in Schedule 1.
