Bids will be assessed using the philosophies expressed in Selecting the Winning Bid. The specific scoring scheme is detailed in OT 2004 Bid Assessment Policy. Both documents are available on the OT 2004 Acreage Release CD. In general, it is important to note that the timing of well drilling and seismic or other data acquisition will be taken into account.

Key assessment criteria include.

- The number of exploration wells to be drilled in the PEL, their timing and anticipated targets.
- The number of years the applicant is prepared to guarantee the program.
- The extent to which proposed wells are supported by seismic data.
