DEVELOPMENT ACT 1993: SECTION 48

Decision by Her Excellency the Governor

Preamble

1. A proposal for a certain major development has been under consideration under Division 2 of Part 4 of the Development Act 1993.

2. The proposal is submitted by Grenfell East Pty Ltd and is for an apartment complex located at 41-51 Hindmarsh Square and 131-139 Grenfell Street (RAA Corner), Adelaide, incorporating environmentally sustainable development features and comprising:

- the construction of a 19 level residential apartment tower and podium (ten storeys high) containing 127 apartments, with ground and part first floor retail and office use;
- renovation of the adjacent two-storey State Heritage listed YWCA building (incorporating a café, gymnasium, function room, lounges and wine storage areas);
- redevelopment of the roadway on the western side of Hindmarsh Square in front of the apartment allotment; and
- a three-level basement car park extending 30 m under the Hindmarsh Square roadway (for the width of the development site only), with provision for 158 car spaces, 27 bicycle spaces, storage, plant rooms and water storage tank,

which proposal is hereafter referred to as 'the proposed major development'.

3. The proposed major development was the subject of an application lodged on 26 May 2003, but has been amended and expanded upon by the applicant's Development Report dated 5 November 2003, the applicant's Response to Submissions dated 18 December 2003 and certain correspondence between 18 March 2004 to 30 April 2004, including the final amended application dated 30 April 2004 (and accompanying plans), which is referred to below in the Conditions.

4. The proposed major development has been the subject of a Development Report and an Assessment Report under Sections 46 and 46D of the Development Act 1993.

5. Application has now been made to the Governor under Section 48 for a development authorisation for the proposed major development.

6. Pursuant to Section 48 (6), it has been decided to grant a provisional development authorisation and to reserve a decision on specified matters.

Decision

PURSUANT to Section 48 of the Development Act 1993 and with the advice and consent of the Executive Council, and having due regard to the matters set out in Section 48 (5) and all other relevant matters, I:

 - (vii) Any external advertising signage.
- (c) specify all matters relating to this provisional development authorisation as matters in respect of which conditions of this authorisation may be varied or revoked, or new conditions attached;

- Correspondence from Jack Hines (for Grenfell East Pty Ltd) to Planning SA dated 30 April 2004, listing final design of the apartment complex roof line and Level 18 of the complex as reserved matters for later decision-making subject to further application.

2. The applicant shall submit further information and application(s) in relation to the matters that have been reserved, to the satisfaction of the Minister for Urban Development and Planning.

3. No building works on any part of the development may commence until a favourable decision has been notified to the applicant by the Governor or the Governor's delegate in respect of those reserved matters referred to in subparagraphs (ii) to (vii) in paragraph (b) of the Decision section (above).

4. No building works on any part of the development may commence until it has been demonstrated to the satisfaction of the Minister for Urban Development and Planning that a 42-year lease by the Adelaide City Council has been secured for use of land for the basement car parking area for community lot owners in the apartment complex.

5. No works on the basement car park shall commence until a detailed survey plan has been submitted to the Minister for Urban Development and Planning, showing the extent of the 42-year lease for a portion of the roadway abutting Hindmarsh Square.

6. Subject to conditions 3, 4, 5 and 9, the applicant may stage building works, and, if so, may commence a stage before receiving the Governor's decision concerning building rules compliance for other stages (refer reserved matter (i) in paragraph (b) of the Decision section (above)). No building works shall commence on a stage of the development, however, until a favourable decision in relation to building rules compliance in respect of that stage has been notified in writing to the applicant by the Governor or the Governor's delegate.

7. A decision on building rules compliance (refer reserved matter (i) in paragraph (b) of the Decision section (above)) will only be made after a Building Rules assessment and certification has been undertaken and issued by the Adelaide City Council, or a private certifier, in accordance with the provisions of the Development Act 1993, and after the Minister for Urban Development and Planning receives a copy of all relevant certification documentation, as outlined in Regulation 64 of the Development Regulations 1993 (refer to 'Notes to Applicant' (below) for further information).

8. Further sustainability modelling, for the selection of materials and finishes and sustainability features of the apartment complex (listed as reserved matters), shall be undertaken in consultation with a group consisting of the Urban Design Unit of Planning SA, the Heritage Branch, Department for Environment and Heritage and the Working Party referred to in the applicant's Development Report, dated 5 November 2003.

9. The colours, materials, textures and finishes of all components of the development shall not clash with the retained and incorporated heritage building and will be compatible with other adjoining buildings to the satisfaction of a group consisting of the Urban Design Unit of Planning SA, the Heritage Branch, Department for Environment and Heritage and the Working Party referred to in the applicant's Development Report, dated 5 November 2003.

10. Before any works commence, a Construction Environmental Management Plan (CEMP) shall be prepared in consultation with and approved by the Environment Protection Authority, Planning SA and the Adelaide City Council, to address management issues during construction and to be lodged with the Minister for Urban Development and Planning. An Environmental Auditor shall be engaged to audit the management plan in accordance with commitments made by the applicant in the Response to Submissions dated 18 December 2003. Matters to be addressed in the CEMP must include (but shall not be limited to):

- Reference to, and methods of adherence to, all relevant Environment Protection Authority (EPA) policies and codes of practice for construction sites, including the inclusion of a copy of Schedule 1 of the Environment Protection Act 1993 as an Appendix to the Construction Environmental Management Plan to ensure contractors are aware of EPA requirements, in accordance with commitments made in the applicant's Response to Submissions, dated 18 December 2003;
- timing, staging and methodology of the construction process and working hours (refer also to condition outlining working hours);
- a Risk Assessment relating to the potential impacts of construction activities;

- stormwater and groundwater management during construction;
- identification and management of contaminated soils and groundwater, should these be encountered;
- site security, fencing and safety and management of impacts on local amenity for residents, traffic and pedestrians;
- disposal of construction waste and refuse in an appropriate manner according to the nature of the waste;
- protection and cleaning of roads and pathways;
- overall site clean up.

11. The applicant will conduct monitoring of the effectiveness of attaining the agreed post-construction sustainability targets and regularly lodge documented outcomes, where the information is available, with Planning SA, the Department for Environment and Heritage (Office of Sustainability) and the Working Party, in accordance with commitments made in the letter from the applicant dated 30 April 2004. The applicant shall also report in person to the working party to verify the attainment of the sustainability goals of the development on a regular basis, to be agreed between the applicant and the working party.

12. Operating hours for construction activities and truck movements to and from the site shall be from 7 a.m. to 7 p.m., Monday to Saturday inclusive. If it is considered necessary for construction works to also be undertaken on Sundays, construction hours shall be from 9 a.m. to 6 p.m. on Sundays (refer 'Notes to Applicant' relating to EPA noise emission policies).

13. Any collected groundwater or stormwater shall only be discharged to the stormwater system if it meets quality control criteria specified in Environment Protection Authority requirements to avoid sedimentation of local pipes and pollution of the Torrens Lake (refer 'Notes to the Applicant' for relevant requirements).

14. All drainage, finished floor levels, construction of the basement car park, landscaping, and public works associated with the development, including the disposal of stormwater and earthworks, are to be carried out in accordance with accepted engineering standards and to the reasonable satisfaction of the Adelaide City Council.

15. Any hazardous substances (e.g. fuels, compressed gases, solvents, paints, asbestos, polychlorinated biphenyls (PCB's) and other construction-related substances), shall be removed and disposed of in accordance with Environment Protection Authority requirements.

16. Any landscaping associated with the redevelopment of the roadway on the western side of Hindmarsh Square following construction of the basement car park, shall be effected in accordance with plans approved by the Adelaide City Council and vegetation shall be maintained and nurtured, with any diseased or dying plants being replaced.

17. The basement car park shall not encroach along the front of the adjacent building to the south of the development.

18. The basement car parking areas shall be designed in accordance with Australian Standards 2890.1-1993 and line markings shall be maintained in good and substantial condition at all times.

19. Provision shall be made for 27 bicycle parking spaces in the basement car park of the apartment complex, in addition to the provision of bicycle racks for use by RAA staff (the location of which is to be determined in consultation with Planning SA and the Adelaide City Council).

20. The apartment complex and basement car park shall be maintained in a serviceable condition and operated in an orderly, tidy, safe and healthy manner at all times.

21. The waste and general storage and service/operational areas of the apartment complex building and basement car parking area shall be kept in a neat, tidy, safe and healthy condition at all times and the service area access door shall remain closed at all times other than when loading or unloading is taking place.

22. Any machinery, plant operating equipment, lighting, building façade designs, or sound devices associated with the apartment complex development shall not impair or impinge upon the enjoyment or safety of residents of the apartment complex, adjoining properties (or occupiers thereof), or the local traffic and pedestrian environment.

NOTES TO APPLICANT

- Pursuant to Development Regulation 64, the applicant is advised that the Adelaide City Council or private certifier conducting a Building Rules assessment must:
 - (a) provide to the Minister for Urban Development and Planning a certification in the form set out in Schedule 12A of the Development Regulations 1993 in relation to the building works in question; and
 - (b) to the extent that may be relevant and appropriate:
 - (i) issue a schedule of essential safety provisions under Division 4 of Part 12; and
 - (ii) assign a classification of the building under these regulations; and
 - (iii) ensure that the appropriate levy has been paid under the Construction Industry Training Fund 1993.

Regulation 64 of the Development Regulations 1993 provides further information about the type and quantity of all Building Rules certification documentation for Major Developments required for referral to the Minister for Urban Development and Planning.

- The Adelaide City Council or private certifier undertaking Building Rules assessment and certification must ensure that the assessment and certification are consistent with this provisional development authorisation (including any conditions or notes that apply in relation to this provisional development authorisation).

- While it approves provisionally the land division comprising the 42-year lease for the basement car park adjacent to Hindmarsh Square (subject to the submission of a detailed survey plan), the provisional authorisation does not approve the creation of any allotments for individual apartments or for car parking spaces. Any such division will require a new development application and new development assessment. The applicant's attention is also drawn to the requirements of Section 50 of the Development Act 1993 in regard to the open space contribution system.

- This provisional development authorisation does not extend to the provision of any wind turbines, as indicated in the letter from Grenfell East Pty Ltd to the Minister for Urban Development and Planning dated 24 March 2004 or any other such devices. Any such turbines or devices, if subsequently proposed, will require a new application under the appropriate assessment process.

- Should the applicant wish to vary the development or any of the components of the development in relation to which a decision has been reserved, an application may be submitted, pursuant to Section 48B of the Development Act 1993, provided that the development application variation remains within the ambit of the Development Report and Assessment Report referred to in this provisional development authorisation. If an application variation involves substantial changes to the proposal, pursuant to Section 47 of the Development Act 1993, the applicant will be required to prepare an amended Development Report for public inspection and purchase. An amended Assessment Report may also be required to assess any new issues not covered by the original Assessment Report and a decision made by the Governor pursuant to Section 48 of the Development Act 1993.

- If the development is not substantially commenced within two years of the date of the decision on the last of the reserved matters, the Governor may cancel this development authorisation.

- The applicant is reminded that the Heritage Branch of the Department for Environment and Heritage (DEH) shall be consulted in regard to any physical intervention to the structures on the adjacent YWCA State Heritage listed building, which is listed as a reserved matter for further decision-making in this provisional development authorisation. Any such work must be executed in accordance with requirements notified to it by the DEH and must be consistent with the decision by the Governor (or her delegate) on the reserved matter (e.g. materials, finishes and colour schedules).

- The proponent is advised of the General Environmental Duty under Section 25 of the Environment Protection Act 1993, which requires that a person must not undertake any activity, which pollutes, or may pollute; without taking all reasonable and practical measures to prevent or minimise harm to the environment.

- The applicant is advised of the requirement to comply with the Environment Protection Authority's (EPA) 'Stormwater Pollution Prevention Code of Practice for the Building and Construction Industry' during demolition and construction of the development.

- The applicant is advised that noise emissions from the apartment complex development will be subject to the Environment Protection (Industrial Noise) Policy 1994, Environment Protection Authority Guidelines and Information Sheet Number 7 ('Construction Noise', July 2002) and the Environment Protection Act 1993.

- It is recommended that the applicant consult with the Office of Public Transport, an agency within the Department of Transport and Urban Planning, and the Adelaide City Council about any proposed transport initiatives for the apartment complex development on Hindmarsh Square, Adelaide.

- The applicant will consult with the Adelaide City Council about the type, nature and ongoing maintenance of any landscaping undertaken in relation to the apartment complex, including construction of the basement car park, redevelopment of the roadway on the western side of Hindmarsh Square and related works, in accordance with commitments made by the applicant in the Response to Submissions document, dated 18 December 2003.
- The applicant is advised that the Development Act 1993 outlines the roles and responsibilities of the applicant and the Adelaide City Council for matters relating to building works during and after construction of the apartment complex development and associated works.
- It is recommended that the applicant consult with Planning SA when applying to the Adelaide City Council for a 'Certificate of Occupancy', to ascertain that all conditions of this provisional development authorisation and decisions on reserved matters have been complied with in an appropriate manner, including those relating to Building Rules assessment and certification requirements.
- The Minister for Urban Development and Planning has a specific power to require testing, monitoring and auditing under Section 48C of the Development Act 1993.

Given under my hand at Adelaide, 27 May 2004.

MARJORIE JACKSON-NELSON, Governor

DEVELOPMENT ACT 1993, SECTION 48: DECISION BY THE DEVELOPMENT ASSESSMENT COMMISSION AS DELEGATE OF THE GOVERNOR

Preamble

1. The decision by the Governor under section 48 of the Development Act 1993, to approve the development of an Organics Waste Treatment and Recycling Research Facility at Buckland Park was published in the *Gazette* on 5 December 2003.

2. The development was the subject of a Public Environmental Report and an Assessment Report under sections 46 and 46C of the Development Act 1993.

3. Two amendments to the development approval were subsequently considered and approved by the Development Assessment Commission as delegate of the Governor, and published in the *Government Gazette* on 29 April 2004 and 6 May 2004.

4. A further amendment to the development approval has been under consideration by the Development Assessment Commission as delegate of the Governor under Division 2 of Part 4 of the Development Act.

5. The proposed amendment includes delaying the construction of the waste receipt shed from stage 1 to stage 2 of the development.

6. It is proposed that raw waste material be received at the proponent's Cormack Road site for initial processing and the product then transported to the Buckland Park site to be put into windrows.

7. The amendments to the development are contained in a letter dated 4 March 2004 from Lachlan Jeffries of the Jeffries Group.

8. The Development Assessment Commission is satisfied that the amendments do not require the preparation of a further or amended Public Environmental Report.

9. The Development Assessment Commission has, in considering the matter, had regard to all relevant matters under section 48 (5) of the Development Act 1993.

Decision
