PUBLIC AND FINANCE AUDIT ACT 1987

TREASURER'S QUARTERLY STATEMENT

*Commentary to the Statement of the Amounts Credited to and Issued from the Consolidated Account for the Quarters ended 31 March 2020 and 31 March 2019***Receipts***Taxation*

Payroll tax receipts in the March quarter 2020 were higher compared to the corresponding prior year period, but the nine months ended March 2020 were lower due to a change in timing associated with the presentation of cash in the Consolidated Account. On an underlying basis, payroll tax receipts in both the March quarter 2020 and the nine months ended March 2020 were higher than the corresponding prior year period, reflecting growth in taxable payrolls, partially offset by the introduction of policy measures including the removal of payroll tax for businesses with total annual payrolls below \$1.5 million from 1 January 2019.

Stamp duty receipts in the March quarter 2020 were higher compared to the corresponding prior year period, but the nine months ended March 2020 were lower due to a change in timing associated with the presentation of cash in the Consolidated Account. On an underlying basis, stamp duty receipts in the March quarter 2020 and nine months ended March 2020 were higher compared to the corresponding prior year period. This was mainly due to higher receipts from conveyance duty on residential property transactions, insurance duty and the foreign ownership surcharge.

Gambling tax receipts in the March quarter 2020 were higher compared to the corresponding prior year period, but the nine months ended March 2020 were lower due to a change in timing associated with the presentation of cash in the Consolidated Account. On an underlying basis, gambling tax receipts in the March quarter 2020 and nine months ended March 2020 were higher compared to the corresponding prior year period. This was mainly due to higher receipts associated with gaming machine taxation from hotels/clubs.

Land tax receipts in both the March quarter 2020 and the nine months ended March 2020 were higher compared to the corresponding prior year periods primarily due to the timing of land tax payments.

Royalties

Royalty receipts in the March quarter 2020 were higher compared to the corresponding prior year period mainly due to higher petroleum production. In the nine months ended March 2020, royalty receipts were higher due to higher production volumes for minerals, and to a lesser extent, for petroleum.

Fees and charges

Fees and charges in the March quarter 2020 were higher compared to the corresponding period in the prior year mainly due to higher guarantee fee and regulatory fees.

Commonwealth – General Purpose Payments

Growth in general purpose grant in 2019-20 compared to 2018-19 is not indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government rather than actual emerging monthly GST collections.

In its 2019-20 Mid-Year Economic and Fiscal Outlook, the Commonwealth Government estimated that the GST pool available for distribution to jurisdictions would grow by 0.4 per cent in 2019-20.

Commonwealth – Specific Purpose Payments

Specific Purpose Payments in the March quarter 2020 were higher compared to the corresponding prior year period due to a change in timing associated with the presentation of cash in the Consolidated Account (broadly in line with prior year period on an underlying basis). In the nine months ended March 2020, payments were broadly in line with the corresponding prior year period.

Commonwealth – National Partnership Payments

National Partnership Payments in the March quarter and nine months ended March 2020 were lower than the corresponding prior year period mainly due to changes in the scope of National Partnership Payments that are paid into the Consolidated Account. From 2019/20, the payments relating to the Disability Care Australia Fund are on-passed to the Department of Human Services instead of being paid into the Consolidated Account.

Other receipts

Other receipts in the March quarter 2020 were lower compared to the corresponding period in the prior year due to the deferral of loans repayments for COVID-19 and the timing of asset sales.

Payments

Payments were made pursuant to the Appropriation Act 2019 and also in accordance with other Acts for which specific appropriation has been authorised. The timing of the payments is based on agreed agency drawdown schedules and may change from period to period on specific agency requirements.

Note

The following points should be considered when reviewing the quarterly statement of Consolidated Account transactions.

Unlike the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions.

The Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts).

The timing of receipts and payments could be volatile within a particular year. As a result, large movements between years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.

Treasurer of South Australia
