OATHS ACT 1936

SECTION 33(1)(B)

Code of Practice in Relation to Affidavits

This Code of Practice is published by the Attorney-General under Section 33 of the *Oaths Act 1936* (SA).

This Code of Practice will **commence on 1 January 2025**.

Introduction—About Affidavits

An **affidavit** is a written statement of fact, sworn on oath or affirmed, which may be used as evidence in court.

The person who makes the affidavit is called the **deponent**. The deponent makes the affidavit by taking an oath or affirmation in the presence of an authorised affidavit witness (an **authorised person**) that:

- they are the person named in the affidavit
- the contents of the affidavit are true
- the signature or mark on the document is theirs

An affidavit is usually set out in the format required by the court in which it is to be lodged.

The **‘jurat’** (also described as the signing clause, witnessing clause or attesting clause) of an affidavit is a certificate on an affidavit showing when, by whom and before whom the affidavit was sworn or affirmed.

The onus is on the person who requires the affidavit to ensure it is in the correct format and all instructions and rules are adhered to.

Before witnessing an affidavit, an authorised affidavit witness should ascertain the jurisdiction in which the affidavit is to be used and ensure that they administer the relevant oath or affirmation in accordance with the applicable requirements for that jurisdiction.

The classes of persons authorised to witness affidavits in South Australia are set out in Clause 2 of Schedule 1 of the *Oaths Act 1936* (SA) and the *Oaths Regulations 2021* [list attached].

Introduction—Difference Between an Oath and an Affirmation

An oath is an attestation to the truth of a statement, which is administered or taken as follows:

- (a) the person taking the oath shall hold a copy of the Bible (being a book that contains the New Testament, the Old Testament or both) in the person’s hand and, after the oath has been tendered to the person, shall say “I swear”;
- (b) in any other manner and form which the person taking the oath declares to be binding on the person’s conscience; or
- (c) in any other manner or form authorised or permitted by law.

An **affirmation** is an alternative to an oath. It is also an oral attestation to the truth of a statement, but it is made without swearing to a God or faith or otherwise as described above. Instead of the person ‘swearing’ a statement, an affirmation is to be administered to a person by asking them ‘Do you solemnly and truly affirm’ followed by the words of the appropriate oath (omitting any words of imprecation or calling to witness) after which the person must say ‘I do solemnly and truly affirm’. An affirmation has the same legal force and the same legal effect as an oath. People are free to choose to swear or affirm an affidavit and they do not need to give a reason for this.

These requirements for oaths and affirmations for South Australia are set out in Section 6 of the *Evidence Act 1929* (SA):

6—Oaths, affirmations etc

- (1) An oath shall be administered and taken as follows:
 - (a) the person taking the oath shall hold a copy of the Bible (being a book that contains the New Testament, the Old Testament or both) in his hand and, after the oath has been tendered to him, shall say “I swear”; or
 - (b) in any other manner and form which the person taking the oath declares to be binding on his conscience; or
 - (c) in any other manner or form authorised or permitted by law.
- (2) Where an oath has been lawfully administered and taken, the fact that the person taking the oath had no religious belief, or that the oath was not taken so as to be binding on his conscience, shall not affect, at law, the validity or effect of the oath.
- (3) A person is permitted, and should be offered the choice, to make an affirmation instead of an oath in all circumstances in which, and for all purposes for which, an oath is required or permitted by law.
- (4) An affirmation is to be administered to a person by asking the person “Do you solemnly and truly affirm” followed by the words of the appropriate oath (omitting any words of imprecation or calling to witness) after which the person must say “I do solemnly and truly affirm”.
- (5) Every affirmation has, at law, the same force and effect as an oath.
- (6) No oath or affirmation is invalid by reason of a procedural or formal error or deficiency.

Code of Practice in Relation to Affidavits under (SA) Oaths Act 1936General

1. The deponent must swear or affirm the affidavit in the presence of a person authorised to take affidavits pursuant to the *Oaths Act 1936* (**authorised person**).
2. An affidavit must be sworn or affirmed in accordance with Section 6 of the *Evidence Act 1929* (SA) [set out above].
3. The authorised person must sight photo identification to establish that the person signing and swearing or affirming the affidavit is the deponent named on the affidavit.

Taking of Affidavits by Audio Visual Link

4. If an affidavit is taken in circumstances where the authorised person and the deponent meet remotely by audio visual link (AVL), a requirement that something be done in the presence of or before an authorised person will be taken to be satisfied if the following requirements are complied with:
 - (a) the requirement that the remote meeting between an authorised person and a deponent of an affidavit by AVL be conducted so that the authorised person and the deponent are visible to each other and can hear each other while the deponent swears or affirms the contents of the affidavit and signs the affidavit;
 - (b) the requirement that the authorised person—
 - (i) observe the deponent signing the affidavit in real time; and
 - (ii) attest or otherwise confirm that—
 - A. the affidavit was sworn or affirmed by the deponent; and
 - B. the deponent's signature on the affidavit was witnessed; by signing the affidavit or a copy of the affidavit;
 - (iii) be reasonably satisfied the affidavit the authorised person signs is the same affidavit, or a copy of the affidavit, sworn or affirmed and signed by the deponent;
 - (iv) endorse the affidavit, or the copy of the affidavit, with the statement—

This affidavit was witnessed remotely under the observation of the authorised person through an audio visual link and the requirements under the Oaths Act 1936 for taking affidavits by audio visual link were complied with.
5. For the purposes of this Code and the *Oaths Regulations 2021*, and without limiting the ways an authorised person may confirm the witnessing of an affidavit, if the deponent sends a copy of the affidavit signed by the deponent electronically to the authorised person or the authorised person has an electronic copy of the affidavit signed by the deponent, the authorised person may countersign the affidavit as soon as practicable after witnessing the signing of the affidavit.

Electronic Execution of Affidavits

Notes: (from the *Oaths Regulations 2021*)

The *Oaths Regulations 2021* provide that a requirement for a deponent or an authorised person to sign or initial an affidavit, annexure, exhibit, certificate or other document attached to an affidavit is satisfied if the deponent or authorised person signs or initials the affidavit, annexure, exhibit, certificate or other document by electronic means.

An initial or a signature is executed by electronic means if:

- (a) a method is used to identify the person and indicate the person's intention in respect of the information recorded in the affidavit; and
- (b) the method used was either—
 - (i) as reliable as appropriate for the purpose for which the affidavit was recorded, in light of all the circumstances; or
 - (ii) proven in fact to have fulfilled the functions described in (a), by itself or together with further evidence.

An affidavit that is signed or initialled by electronic means must include a statement on it that the declaration was signed or initialled by electronic means.

Reasonable Modifications

Notes: (from the *Oaths Regulations 2021*)

The authorised person may make or permit reasonable modifications to the process of taking an affidavit if the deponent has a disability or is a child and requires assistance with the process.

If reasonable modifications are made, the authorised person must certify on the affidavit what modifications were made.

Example: if the affidavit was read to the deponent by the authorised person and the deponent nodded in agreement, this must be stated in writing by the authorised person on the affidavit.

If a person provided assistance to the deponent, the authorised person must write on the affidavit the name and address of the person who provided the assistance and what type of assistance was provided (Example: translation assistance or assistance with writing or reading). This does not apply to assistance by a person who, in a professional capacity, prepared or wrote the affidavit for the deponent on the deponent client's instructions, including a legal practitioner or conveyancer.

OATHS ACT 1936

SECTION 33(1)(A)

Code of Practice in Relation to Statutory Declarations

This Code of Practice is published by the Attorney-General under Section 33 of the *Oaths Act 1936* (SA).

This Code of Practice will **commence on 1 January 2025**.

Introduction—About Statutory Declarations

A **statutory declaration** is a legally binding written statement of fact made for official or legal purposes.

The person who makes a statutory declaration (the **declarant**) must sign the document in the presence of an **authorised witness** in accordance with the requirements of the particular Act that governs the making of the statutory declaration. Except where a more specific legislative provision applies to govern the making of a statutory declaration for a particular purpose, statutory declarations for use in a South Australian jurisdiction are to be made in accordance with Section 25 of the *Oaths Act 1936* (SA) (Oaths Act).

If a statutory declaration is being made pursuant to the Commonwealth *Statutory Declarations Act 1959* (Cth) or another legislative provision, the declarant should make the declaration in the form required under the relevant legislation.

A South Australian statutory declaration form can be downloaded from the website www.agd.sa.gov.au in the '[Justice of the Peace Services and authorised witnesses](#)' section.

The classes of persons authorised to witness statutory declarations in South Australia for use in a South Australian jurisdiction are set out in Clause 1 of Schedule 1 of the Oaths Act and the *Oaths Regulations 2021* [list attached].

An authorised witness does not need to be concerned with the accuracy or truthfulness of the statutory declaration as they are simply witnessing the declaration of the declarant.

A statutory declaration may be hand written or typed, including in electronic form.

Section 32 of the Oaths Act provides that a statutory declaration is not invalid merely because of an inadvertent and minor non-compliance with a requirement imposed under the Act (including the *Oaths Regulations 2021* and this Code of Practice) that does not materially affect the nature of the statutory declaration.

Code of Practice in Relation to Statutory Declarations under (SA) *Oaths Act 1936*

A statutory declaration under the *Oaths Act 1936* (SA) is required to be made in accordance with the following procedures and requirements:

1. The declarant named on the statutory declaration must sign the declaration.
2. The authorised witness must sight photo identification to establish that the person signing the statutory declaration is the declarant named on the statutory declaration.
3. At the time of the authorised witness signing the statutory declaration, the statutory declaration must be fully completed. All blank spaces in the statutory declaration must be crossed out with a 'Z' to prevent any information being added to the statutory declaration after it has been witnessed. Both the authorised witness and the declarant must initial and date the start and the end of the 'Z'.
4. Any alterations to the statutory declaration must be initialled and dated by both the declarant and the authorised witness.
5. If it is a multi-page declaration, each page of the declaration must be numbered and signed by the declarant.
6. Any annexures to be attached to the statutory declaration must be referred to in the statutory declaration and clearly marked in a manner that corresponds with the references to that document in the statutory declaration.

Example: annexures are often marked 'Annexure A', 'Annexure B', etc and should then be referred to correspondingly as 'Annexure A', 'Annexure B', etc in the statutory declaration.

If the annexure is not referred to in the statutory declaration, the declarant must make an alteration to the wording in the statutory declaration to refer to the annexure.

7. If a statutory declaration refers to annexures, the annexures must be attached to the statutory declaration document. If they are not attached, the authorised witness must not witness/sign the statutory declaration.
8. The authorised witness must observe the declarant signing the statutory declaration.
9. After the above steps, the authorised witness must ask the declarant the following:

“Did you prepare and write the declaration yourself?”. [If the answer is “no” ask the declarant “have you read the declaration and do you understand the contents?”]

“Do you understand that making a false statutory declaration is an offence that carries serious penalties including possible imprisonment?” [The authorised witness must hear the declarant say: “I understand”, or “I do”].

If the declarant says: “I understand” or “I do”, proceed and ask: “Is that your name at the start of the statutory declaration?”

“Is that your normal signature”?

“Do you make this solemn declaration by virtue of the Oaths Act 1936 and do you solemnly and sincerely declare that the contents of this declaration are true to the best of your knowledge, information and belief? If so, please say ‘I solemnly and sincerely declare’”.

If there are any attachments to the declaration, the authorised witness must ask the declarant: “do you solemnly and sincerely declare that this/these attachment/s is/are the attachment/s referred to in the statutory declaration? If so please say ‘I solemnly and sincerely declare’”.
10. The authorised witness must complete the witnessing/attestation clause by writing the place and date, witness’s signature and writing, typing and/or stamping the witness’s name and the capacity in which the authorised witness has authority to witness the statutory declaration.
 - (a) A Justice of the Peace is required to evidence their capacity/authority by writing their JP ID number and “A justice of the peace for South Australia”.
 - (b) A police officer is required to evidence their capacity/authority by writing their rank and identification number and “South Australia Police”.
11. The authorised witness must also then sign and date all annexures and write or stamp the following wording on the first page of the annexures (if they have not already been marked by the declarant):

This is the annexure marked [eg Annexure “A”] referred to in the statutory declaration of [name of declarant].

Declared before me on [full date eg dd/mm/yyyy]

[Witness signature]

[Witness full name and capacity in which the witness is authorised to witness statutory declarations]

Example: Jane Smith, Veterinary Surgeon

Witnessing of Statutory Declaration by Audio Visual Link (AVL)

12. For the purposes of this Code and the *Oaths Regulations 2021*, and without limiting the ways an authorised witness may confirm the witnessing of the signing of a statutory declaration, if the declarant sends a copy of the statutory declaration signed by the declarant electronically to the authorised witness, or the witness has an electronic copy of the statutory declaration signed by the declarant, the authorised witness may countersign the statutory declaration as soon as practicable after witnessing the signing of the statutory declaration.

Notes: (from the *Oaths Regulations 2021*)

The *Oaths Regulations 2021* provide that if a statutory declaration is made in circumstances where the authorised witness and the declarant meet remotely by audio visual link (AVL), a requirement that the witness observe the declarant, or that something be done in the presence of or before an authorised witness, will be taken to be satisfied if the following requirements are complied with:

- A. the requirement that the remote meeting between an authorised witness and a declarant by AVL be conducted so that the authorised witness and the declarant are visible to each other and can hear each other while the declarant signs the statutory declaration and while the witnessing process is undertaken;
- B. the requirement that the authorised witness—
 - (i) observe the declarant signing the statutory declaration in real time; and
 - (ii) attest or otherwise confirm that—
 - the statutory declaration was signed by the declarant; and
 - the declarant’s signature on the statutory declaration was witnessed,
 by signing the statutory declaration or a copy of the statutory declaration;
 - (iii) be reasonably satisfied the statutory declaration the authorised witness signs is the same statutory declaration, or a copy of the statutory declaration, signed by the declarant;
 - (iv) endorse the statutory declaration, or the copy of the statutory declaration, with the statement—

This declaration was taken remotely under the observation of the authorised witness through an audio visual link and the requirements under the Oaths Act 1936 for taking declarations by audio visual link were complied with.

Electronic Execution of Statutory Declaration

Notes: (from the *Oaths Regulations 2021*)

The *Oaths Regulations 2021* provide that a requirement for a declarant or an authorised witness to sign or initial a statutory declaration, annexure or other document attached to a statutory declaration is satisfied if the declarant or the authorised witness signs or initials the statutory declaration, annexure or other document by electronic means.

An initial or a signature is executed by electronic means if:

- (a) a method is used to identify the person and indicate the person’s intention in respect of the information recorded in the statutory declaration; and
- (b) the method used was either—
 - (i) as reliable as appropriate for the purpose for which the statutory declaration was recorded, in light of all the circumstances; or
 - (ii) proven in fact to have fulfilled the functions described in (a), by itself or together with further evidence.

A statutory declaration that is signed or initialled by electronic means must include a statement on it that the declaration was signed or initialled by electronic means.

Reasonable Modifications

Notes: (from the *Oaths Regulations 2021*)

Reasonable modifications may be made to the above steps if the declarant has a disability, or is a child and requires assistance with making the declaration.

Example: a hearing impaired person may read and sign the oral declaration instead of saying it aloud; a person who is unable to speak may be able to listen to a statutory declaration being read and nod assent; a child may require the assistance of an adult to make the declaration.

If reasonable modifications are made, the authorised witness must certify on the statutory declaration what modifications were made.

Example: if the statutory declaration was read to the declarant by the authorised witness and the declarant nodded in agreement, this must be stated in writing by the authorised witness on the face of the statutory declaration.

If a person provided assistance to the declarant to make the statutory declaration, the authorised witness must write on the statutory declaration the name and address of the person who provided the assistance and what type of assistance was provided. This does not apply to assistance by a person who prepared or wrote the statutory declaration for the declarant in a professional capacity on the declarant client's instructions, including a legal practitioner or conveyancer.
