TO NATASHA JESSICA STOTT DESPOJA AO

Greeting:

I, the Governor, with the advice and consent of the Executive Council and under the *Royal Commissions Act 1917*, DO HEREBY APPOINT YOU to be a Commissioner and require and authorise you to inquire into:

- a. How South Australia can facilitate widespread change in the underlying social drivers of domestic, family and sexual violence by addressing the attitudes and systems that drive all forms of domestic, family and sexual violence, and particularly violence against women and children, to stop it before it starts (**prevention**).
- b. How South Australia can improve effective early intervention through identification and support of individuals who are at high risk of experiencing or perpetrating domestic, family and sexual violence and preventing the reoccurrence of such violence (**early intervention**).
- c. How South Australia can ensure best practice response to family, domestic and sexual violence in South Australia through the provision of services and supports, such as crisis support, health services, police intervention and a trauma-informed justice system that will hold people who use violence to account, to intervene in and address existing violence, and support victim-survivors experiencing violence (**response**).
- d. How South Australia can embed an approach that supports recovery and healing within South Australia through reducing the risk of re-traumatisation, and supporting victim-survivors of family, domestic and sexual violence (including children) to be safe and healthy to be able to recover from trauma and the physical, mental, emotional, and economic impacts of violence (**recovery and healing**).
- e. How government agencies, non-government organisations and communities can better integrate and coordinate efforts across the spectrum of prevention, early intervention, response and recovery, including through whole of system approaches and information and data sharing systems.

AND I direct you to make any recommendations arising out of your inquiry that you consider appropriate, including recommendations about policy, legislative, administrative or structural reforms to be made, having regard to the need for practical, immediate and/or medium-term actions, as well as a longer-term blueprint for ending family, domestic and sexual violence in South Australia.

AND, without limiting the scope of your inquiry or the scope of any recommendations arising out of your inquiry that you may consider appropriate, I direct you, for the purposes of your inquiry and recommendations, to have regard to the following matters:

- g. The provision of services across rural, regional, and remote South Australia
