MENTAL HEALTH ACT 2009

Approved Treatment Centre—Extension of Temporary Conditions

Notice is hereby given in accordance with Section 96 of the *Mental Health Act 2009* that the Chief Psychiatrist's determination of James Nash House, 140 Hilltop Drive, Oakden SA 5086, as an Approved Treatment Centre, will continue to be subject to temporary conditions. The previous conditions issued on 7 August 2025, as set out below, will continue under this determination.

Conditions on the use of Birdwood Ward

James Nash House may continue to admit subacute patients to Birdwood Ward, who are voluntary patients admitted under the *Mental Health Act 2009*, or who are subject to orders under Part 8A of the *Criminal Law Consolidation Act 1935*, subject to the following conditions:

- An assessment of patient needs against the physical condition and capability of the unit must occur before admission. Admissions can only be made with the approval of the Head of Unit and the most Senior Clinical Nurse responsible for Birdwood Ward, Forensic Mental Health Service, Division of Mental Health, Northern Adelaide Local Health Network.
- James Nash House may not admit patients on Inpatient Treatment Orders made under the *Mental Health Act 2009*, to Birdwood Ward, with the following exception:
- Admissions of patients on Inpatient Treatment Orders can be considered when it is not practicable to transfer a patient to another appropriate forensic mental health unit or to another approved treatment centre. This will require the approval of the Clinical Director and the Divisional Nursing Director, Forensic Mental Health Service, Division of Mental Health, Northern Adelaide Local Health Network, and in each instance the Chief Psychiatrist shall be notified.

Conditions on the use of Clare Ward

Admission to dual occupancy rooms in Clare Ward is subject to an additional bed allocation procedure that considers the recognised limitations of dual occupancy rooms in forensic mental health care. The procedure describes clinical and other criteria for allocation of dual occupancy rooms, and how these criteria will be monitored.

Conditions on the Admission of Female Patients, Gender Diverse People and Young People

The purpose of this condition is to enhance gender safety. Female patients, gender diverse people or any person 21 years of age or younger may not be admitted to the Aldgate Ward except under exceptional circumstances approved by the Clinical Director and the Divisional Nursing Director; and reported to the Chief Psychiatrist.

People in these groups may continue to routinely be admitted to the Ken O'Brien Centre in accordance with a local procedure document for that unit established under the Chief Psychiatrists Sexual Safety Standard.

Admissions to Birdwood Ward can also occur in accordance with a local procedure document for that unit, but only when approved by the Clinical Director and the Divisional Nursing Director on the basis that admission to the Ken O'Brien Centre or other alternative location is not practicable.

Admissions of male patients older than 21 years of age to Aldgate Ward can continue without restriction noting that this Ward will also maintain a local procedure document in accordance with the Chief Psychiatrist Sexual Safety Standard.

Conditions Related to the Safety of Patients, Staff and Visitors

Aldgate, Birdwood, Clare and Ken O'Brien share electronic security systems that have had past inconsistent performance. These wards may continue to admit patients providing that a system testing plan and risk mitigation plan approved by the Chief Psychiatrist is in place to provide for the safety of consumers, visitors and staff in the context of past fluctuating performance of the duress system, and associated security systems on site.

The lay out of Aldgate and Birdwood wards lack the contemporary building design features to support safe ward operation and the risk mitigation plan for those areas that include additional risk mitigations related to the design limitations of the physical environment.

Conditions Related to the Prevention of Restrictive Practices and the use of Seclusion

In applying the "Chief Psychiatrist Restraint and Seclusion Standard—A Standard to Reduce and Eliminate where possible the Use of Restraint and Seclusion applied under the *Mental Health Act 2009*", seclusion can only be provided in a seclusion room designated for that purpose.

Aldgate and Birdwood Wards do not have designated seclusion rooms. For this reason, seclusion is permitted in a patient's bedroom but under a condition that the use of a bedroom for this purpose is authorised by the Clinical Director and the Divisional Nursing Director having regard for the safety of using a bedroom for this purpose and the impact on the patient of using their personal space for this purpose.

For instances of prolonged seclusion that is outside of the parameters of the Chief Psychiatrist Standard a report will be made to the Chief Psychiatrist of the indication of the seclusion, the welfare of the patient, and plans to reduce the reliance on seclusion.

These conditions remain in place until 7 August 2026.

Dated: 5 February 2026

SOUTH AUSTRALIAN CIVIL AND ADMINISTRATIVE TRIBUNAL

SACAT REFERENCE NUMBER: 2025/SA003984

Notice of Exemption Before Tribunal Member Alex Reilly

I hereby certify that on the 21st January 2026, the South Australian Civil and Administrative Tribunal, on application of CEA Research and Development Pty Ltd ACN 008 604 779, made the following orders for an exemption:

1. Pursuant to Section 92 of the *Equal Opportunity Act 1984* (SA) (the Act), the Applicants CEA Research and Development Pty Ltd (CEA Research and Development) are exempted from compliance with the provisions of Sections 52, 53, 54 and 103(1) of the Act to the extent that they may:
 - 1.1 Request nationality and citizenship information from any existing and potential employees and contractors of CEA Research and Development requiring access to International Traffic in Arms Regulations (ITAR) and Export Administration Regulations (EAR) Controlled Material within CEA Research and Development;
 - 1.2 Take a person's nationality and place of birth into account in determining who should be offered employment or contract work in areas requiring access to ITAR and EAR Controlled Material when making decisions as to the participation of employees or contractors in such work;
 - 1.3 Maintain records of the nationalities and places of birth of all employees and contractors who have or may have access to ITAR and EAR Controlled Material;
 - 1.4 Consider the nationality-related information pertaining to an employee when determining whether that person may be offered a role or allocated work that involves access to ITAR and EAR Controlled Material;
 - 1.5 Ensure that ITAR and EAR Controlled Material is disclosed only to persons who are authorised by ITAR controls or EAR controls to receive it;
 - 1.6 Impose limitations or prohibitions on access to ITAR and EAR Controlled Material on persons not authorised to access that material;
 - 1.7 Disclose to the Australian Defence Force the nationalities and places of birth of all employees and contractors who will have access to ITAR and EAR Controlled Material in the performance of their work;
 - 1.8 Disclose to US Government and US-based contractors for whom the Applicants perform work under subcontract, the nationality and place of birth of all employees and contractors who have or are likely to have access to ITAR and EAR Controlled Material in the performance of their work;
 - 1.9 Record information relating to security clearances granted to employees of CEA Research and Development and employees of contractors who perform work on CEA Research and Development's premises and who are subject to CEA Research and Development's control and direction; and
 - 1.10 Establish security systems designed to ensure that ITAR and EAR Controlled Material is disclosed only to persons who are authorised by ITAR controls to receive it.
2. This order does not permit the Applicants to terminate any employee's employment on the grounds of nationality or place of birth.
3. The exemption is subject to the following conditions:
 - 3.1 The exemption applies only to CEA Research and Development's conduct where it is necessary to enable it to obtain and manage ITAR and EAR export licensing or to perform contractual obligations which involve access to Controlled Material.

- 3.2 The exemption applies only to CEA Research and Development's conduct where it has taken all steps that are reasonably available to avoid engaging in conduct which would otherwise be in breach of Sections 52, 53, 54 and 103(1) of the Act, including reliance on ITAR exemptions, exceptions or other provisions.
- 3.3 Where, pursuant to this exemption, CEA Research and Development wishes to reserve the right to make a conditional offer of employment or contract for services in relation to a position which will or may involve access to Controlled Material, any advertisement, invitation for expressions of interest, or other promotional information referring to the position must include the information that:
 - (a) the position will or is likely to require access to Controlled Material and that any person occupying the position must be able to satisfy ITAR and EAR controls which may require specific authorisation for that person to access Controlled Material; and
 - (b) if a job candidate is concerned as to whether or not they will satisfy the requirement in (a), they should contact a nominated employee of CEA Research and Development who is able to provide relevant information, including information set out in Condition 4 below.
- 3.4 Where, pursuant to this exemption, an employee or contractor who is not authorised pursuant to ITAR and EAR controls to have access to Controlled Material (including pursuant to any individual approval), is moved from a project involving access to Controlled Material, CEA Research and Development must, through a duly authorised officer, explain to the person why he or she is being transferred or terminated and must otherwise take all reasonable steps to avoid or limit harm or loss to that person.
- 3.5 CEA Research and Development must specifically communicate to job candidates for roles requiring access to Controlled Material:
 - (a) that they may be adversely affected by the ITAR and EAR limitations if they are not an Australian national, if they hold dual nationality and/or citizenship from proscribed countries, or if they are not of Australian national origin;
 - (b) that CEA Research and Development has an exemption under the Act to enable it to take steps to prevent access to Controlled Material;
 - (c) that specific authorisation for a person to access Controlled Material would be made by CEA Research and Development, in appropriate cases;
 - (d) their rights under Australian Federal, State and Territory discrimination laws.
- 3.6 Where CEA Research and Development uses a system of security passes to reflect the fact of access to Controlled Material or levels of access to material subject to Australian security restrictions, the passes may be coded but not in such a manner that the nationality can obviously be identified from the coding.
- 3.7 All information relating to security passes, security clearance levels and access to Controlled Material shall be restricted to:
 - (a) relevant personnel of CEA Research and Development; and
 - (b) relevant personnel of United States Government agencies and Australian Government agencies pursuant to which CEA Research and Development has an obligation, and to their properly appointed nominees on a "need to know" basis.
- 3.8 CEA Research and Development's employment or other relevant policies shall be amended as soon as reasonably possible so as to refer to the terms of this exemption, including all conditions attaching to it, and to make clear that the purpose of CEA Research and Development's request for nationality information is made solely for the purposes of compliance with legal and regulatory obligations imposed pursuant to the defence export control laws of Australia and the United States.
4. CEA Research and Development is required to provide a written report to the Equal Opportunity Commission by 31 January and 31 July each year, over the period of the exemption, detailing:
 - (a) The steps it has taken to comply with the above conditions;
 - (b) The number of persons affected by this exemption, the nature of the effects, and the steps taken to address any adverse effects;
 - (c) The training and education provided to new and existing employees on these Orders and their implementation; and
 - (d) The steps taken to minimise the impact of these orders on current and future employees and to address any adverse effects on existing employees.
5. The exemption expires in 3 years from the date of this order, namely; 19 January 2029.

In this Exemption Order:

"Controlled Material" means defence articles, technical data and defence services regulated by the International Traffic in Arms Regulations or Export Administration Regulations.

Dated: 27 January 2026
