DEVELOPMENT ACT 1993: SECTION 48

NOTICE BY THE ADMINISTRATOR

Preamble

1. I have given a provisional development authorisation pursuant to section 48 of the Development Act 1993, for a proposed major development concerning the Ceduna Keys Marina and Community Centre, near Ceduna, proposed by the Ceduna Marina Development Company, which authorisation is published in the *Gazette* of 15 December 2005.

2. It is appropriate to delegate certain of my powers to the Development Assessment Commission.

Delegation

PURSUANT to section 48 (8) of the Development Act 1993 and with the advice and consent of the Executive Council, I delegate to the Development Assessment Commission:

- (a) the power to make a decision on any reserved matters specified within that provisional development authorisation (provided that the essential nature of the development is not changed); and
- (b) the power to grant or permit any variation associated with that provisional development authorisation (provided that the essential nature of the development is not changed); and
- (c) in relation to that provisional development authorisation, or any variation—the power to vary or revoke conditions, or to attach new conditions, under section 48 (7) of the Development Act 1993 (provided that the essential nature of the development is not changed),

for the proposed development, as amended from time to time.

Given under my hand at Adelaide, 15 December 2005.

BRUNO KRUMINS, Administrator

DEVELOPMENT ACT 1993, SECTION 48: DECISION BY HIS EXCELLENCY THE ADMINISTRATOR

Preamble

1. A proposal from the Ceduna Marina Development Company (hereafter 'the applicant') to develop a multi-component residential marina and community centre near Ceduna, on the West Coast, has been under consideration as a Major Development under Division 2 of Part 4 of the Development Act 1993.

2. The proposal has been the subject of an Environmental Impact Statement and an Assessment Report under sections 46 and 46B of the Development Act 1993, and is hereafter referred to as the 'proposed Major Development'.

3. The proposed Major Development was the subject of a development application lodged on 28 October 2003 by Connor Holmes Consulting (for the District Council of Ceduna) and a revised application lodged on 9 December 2003 by Connor Holmes Consulting (for the Ceduna Marina Development Company). The said application has been amended and expanded upon by the applicant's Environmental Impact Statement, dated

June 2005; the applicant's Response to Submissions, dated November 2005; and additional correspondence, dated 22 November 2005.

4. I am satisfied that an appropriate Environmental Impact Statement and an Assessment Report have been prepared in relation to the proposed Major Development, in accordance with sections 46 and 46B, Division 2 of Part 4 of the Development Act 1993, and have had regard, when considering the proposed Major Development, to all relevant matters under section 48 (5) of the Development Act 1993.

Decision

PURSUANT to section 48 of the Development Act 1993 and with the advice and consent of the Executive Council, and having due regard to the matters set out in section 48 (5) and all other relevant matters, I:

- (a) grant a provisional development authorisation in relation to the proposed Major Development subject to the Conditions and Notes to the applicant below;
- (b) reserve my decision on the following matters pursuant to section 48 (6) and Regulation 64 (1):
 - (i) compliance with the Building Rules in relation to all aspects of the proposed Major Development relating to building works (refer to Conditions and Notes to Applicant below);
 - (ii) realignment of the Eyre Highway and associated roads and intersections (including the relocation of the PIRSA Quarantine Inspection Station), the applicant's finalised plans, drawings, specifications and financial arrangements for which are to be prepared to the reasonable satisfaction of the Department for Transport, Energy and Infrastructure and the Commonwealth Department for Transport and Regional Services, prior to being submitted to me or my delegate (refer to Conditions and Notes to Applicant below);
 - (iii) the acoustic protection mound (including landscaping), the applicant's finalised plans, drawings and specifications for which are to be prepared to the reasonable satisfaction of the Environment Protection Authority and the Department for Transport, Energy and Infrastructure, prior to their being submitted to me or my delegate (refer to Conditions and Notes to Applicant below);
 - (iv) the provision of an adequate water supply to the development site, the applicant's finalised plans, drawings, specifications and financial arrangements for which are to be prepared to the reasonable satisfaction of SA Water, prior to their being submitted to me or my delegate (refer to Conditions and Notes to Applicant below);
 - (v) the arrangements for the expansion of the town's effluent lagoons to cater for the increased demand from the development, in relation to which the applicant and the Ceduna District Council must enter a binding agreement, to the reasonable satisfaction of the Environment Protection Authority and the Development of Health prior to their being submitted to me or my delegate (refer to Conditions and Notes to Applicant below);
 - (vi) the public boat ramp, slip-way, wash-down, hard stand and associated parking the applicant's finalised plans, drawings and specifications for which are to be prepared to the reasonable satisfaction of the Environment Protection Authority, the Department for Transport, Energy and Infrastructure and the Ceduna District Council, prior to being submitted to me or my delegate (refer to Conditions and Notes to Applicant below);
 - (vii) the Site Contamination Management Plan the applicant's finalised and consolidated version of which is to be prepared to the reasonable satisfaction of an Environmental Auditor (Contaminated Land) and the Environment Protection Authority, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below);

- (viii) the Vegetation Management Plan, the applicant's finalised and consolidated version of which is to be approved by the Native Vegetation Council, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below);
 - (ix) the Management, Maintenance and Monitoring (MMM) Agreement between the Ceduna Marina Development Company and the Ceduna District Council the applicant's finalised and consolidated version of which is to be concluded between the parties prior to being submitted to me or my delegate (refer to Conditions and Notes to Applicant below);
 - (x) the Construction Environmental Management and Monitoring Plan (CEMMP) for the pre-construction and construction phases, the applicant's finalised and consolidated version of which is to be prepared to the reasonable satisfaction of the Environment Protection Authority, other relevant government agencies and the Ceduna District Council, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below);
 - (xi) the Stormwater Management Plan detailing the approach to the collection, storage, treatment and reuse of stormwater run-off for all components of the development during the operational phase of the development, the applicant's finalised and consolidated version of which is to be prepared to the reasonable satisfaction of the Environment Protection Authority, other relevant government agencies and the Ceduna District Council, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below);
 - (xii) the Operational Environmental Management and Monitoring Plan (OEMMP) for the operational phase of the development, the applicant's finalised and consolidated version of which is to be prepared to the reasonable satisfaction of the Environment Protection Authority, other relevant government agencies and the Ceduna District Council, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below);
 - (xiii) the Management Plan for the implementation of the 'Restricted Area' (as identified by Figure 6 in the Response document) to limit public access and activities for the protection of the environment, the applicant's finalised and consolidated version of which is to be prepared to the reasonable satisfaction of the Department for Environment and Heritage, the Department for Water, Land and Biodiversity Conservation and the Department for Primary Industries and Resources, prior to its being submitted to me or my delegate;
 - (xiv) the Site Preparation and Landscaping Plan for the acoustic protection mound and the whole of the site, the applicant's finalised and consolidated version of which is to be prepared to the reasonable satisfaction of the Ceduna District Council, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below);
 - (xv) the Noise Emission Management Plan for mitigating the impacts of noise generated by the Eyre Highway and railway line, the applicant's finalised and consolidated version of which is to be prepared to the reasonable satisfaction of the Environment Protection Authority, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below);
- (c) specify all matters relating to this provisional development authorisation as matters in respect of which conditions of this authorisation may be varied or revoked, or new conditions attached;
- (d) specify, for the purposes of section 48 (11) (b) of the Development Act 1993, the period of two years from the date hereof, as the time within which substantial work must be commenced on site, failing which I may cancel this authorisation.

CONDITIONS OF APPROVAL

1. Except where minor amendments may be required by other legislation, or by conditions imposed herein, the proposed Major Development shall be undertaken in strict accordance with:

- (a) the following drawings contained within the Environmental Impact Statement, 'Ceduna Keys Marina and Community Centre Development', lodged by the Ceduna Marina Development Company, dated June 2005:

 - Drawing Titled: 'Construction Staging—Stage B'; Drawing Reference Number: 100026-ST02 C dated July 2004.
- (d) the following documents:
 - Revised development application, 'Major Development—Proposed Ceduna Keys Marina', prepared by Connor Holmes Consulting (for the Ceduna Marina Development Company), dated 9 December 2003 (except to the extent that it may be varied by a subsequent document in this paragraph).
 - Environmental Impact Statement, 'Ceduna Keys Marina and Community Centre Development', lodged by the Ceduna Marina Development Company, dated June 2005 (except to the extent that it may be varied by a subsequent document in this paragraph).

- Response to Submissions, 'Response to Submissions, Ceduna Keys, Ceduna Keys Marina and Community Centre Development, Environmental Impact Statement', lodged by the Ceduna Marina Development Company, dated June 2005 (except to the extent that it may be varied by a subsequent document in this paragraph).
- Correspondence from Connor Holmes Consulting (for the Ceduna Marina Development Company) to Planning SA, dated 30 November 2005, confirming the components of the proposed development and the relevant plans for assessment and consideration by the Administrator.
- Assessment Report prepared by the Minister for Urban Development and Planning dated December 2005.

2. In respect of the matters reserved under paragraph (b) of my decision, the applicant shall as expeditiously as possible:

- (a) prepare such documentation as is therein envisaged, and where necessary shall prepare the same to the satisfaction of, or with the agreement of, any party specified therein in that regard before seeking my (or my delegate's) approval;
- (b) thereafter seek my (or my delegate's) approval.

3. No works on any part of the proposed Major Development shall commence until a favourable decision has been notified to the applicant by me or my delegate in respect of all reserved matters referred to in subparagraph (ii) - (xv) in paragraph (b) of the Decision section above.

4. No construction activities or building works shall commence until a heritage survey has been completed to identify any Aboriginal Sites, Objects or Remains in the site area, and monitoring shall be undertaken during construction to enable the development to proceed without a breach of the Aboriginal Heritage Act 1988. Details of the applicant's Heritage Agreement and consultation with the relevant Aboriginal group shall also be provided to the Development Assessment Commission and the Department of Aboriginal Affairs and Reconciliation prior to construction commencing.

5. No construction activities or building works shall commence until the Environment Protection Authority and an independent Environmental Auditor (Contaminated Land) have certified the approved Site Contamination Management Plan to identify any soil or groundwater contamination that could affect the development. Additional investigations shall have been undertaken to assess the extent of soil and groundwater contamination at the proposed development site, soil investigations of the proposed entrance channel and potential impacts from off-site contamination on the proposed development.

6. Minimum site levels of 2.70 m AHD and minimum floor levels of 2.95 m AHD shall be established for areas within the development that are not subject to wave run-up. Minimum site levels of 3 m AHD and minimum floor levels of 3.25 m AHD shall be established for areas within the development that are subject to wave run-up.

7. Construction activities shall be suitably managed to minimise and/or mitigate impacts on the community (especially noise and dust) and the natural environment as far as practicable.

8. All contamination management or remediation works shall be undertaken in accordance with an approved Site Contamination Management Plan (as amended from time to time) and to the satisfaction of the Environment Protection Authority.

9. The storage capacity for the dredging discharge ponds and the required sediment settling times shall be recalculated following the completion and review of the detailed offshore soil investigations for the entrance channel excavation works.

10. A decision on building rules compliance will only be made after a Building Rules assessment and certification has been undertaken and issued by the Ceduna District Council, or a private certifier, in accordance with the provisions of the Development Act 1993, and after the Minister for Urban Development and Planning receives a copy of all relevant certification documentation, as outlined in Regulation 64 of the Development Regulations 1993 (refer to 'Notes to Applicant' below for further information).

11. Before seeking my or my delegate's decision in respect of the matters reserved at paragraph (b) (x) of the Decision section, the applicant shall finalise and lodge a consolidated 'Construction Environmental Management and Monitoring Plan' (CEMMP). The CEMMP shall cover the pre-construction and construction phases of the proposed Major Development and shall consolidate the applicant's previously submitted draft Construction Environmental Management Plan, Coastal Acid Sulphate Soils Management Plan, Soil Erosion and Drainage Management Plan, Spill Contingency Plan and Waste Management Plan. The matters to be addressed in the consolidated EMMP shall include, but shall not be limited to, the management, mitigation, monitoring, and corrective actions/contingency plans of the following matters during each of these phases:

- (a) dust and sediment control;
- (b) odour emissions;
- (c) surface and ground water management;
- (d) site contamination;
- (e) waste management (for all waste streams) and overall site clean up (including litter);
- (f) chemical, oil, construction-related hazardous substances and fuel use and storage, and other materials that have the potential to contaminate stormwater (including emergency responses);
- (g) noise emissions (including ongoing noise assessment and monitoring to ascertain the effectiveness of noise control measures);
- (h) Aboriginal Heritage requirements in accordance with commitments by the applicant and Heritage Agreement;
- (i) vegetation clearance;
- (j) introduced plants and animals;
- (k) impacts on the marine environment (especially turbidity);
- (l) visual impacts (including lighting);
- (m) traffic management strategies;
- (n) effect on existing infrastructure;
- (o) impacts on adjacent land users;
- (p) site security, fencing and safety and management of impacts on local amenity for residents, traffic and adjacent land users;
- (q) periods and hours of construction and operation in accordance with Environment Protection Authority requirements;
- (r) management of ongoing earthworks and construction (especially residential and commercial buildings);
- (s) community complaints register regarding the above matters.

12. No construction activities or building works shall commence until an Environmental Management Implementation Management Plan (EMIP) has been completed, which shall meet the reasonable satisfaction of the Environment Protection Authority and the Development Assessment Commission.

13. Before seeking my or my delegate's decision in respect of the matters reserved at paragraph (b) (xii) of the Decision section, the applicant shall finalise and lodge a consolidated 'Operational Environmental Management and Monitoring Plan' (OEMMP). The OEMMP shall cover the pre-construction and construction phases of the proposed Major Development and shall consolidate the applicant's previously submitted draft Operational Environmental Management Plan, Coastal Acid Sulphate Soils Management Plan, Soil Erosion and Drainage Management Plan, Spill Contingency Plan and Waste Management Plan. The matters to be addressed in the consolidated EMMP shall include, but shall not be limited to, the management, mitigation, monitoring, and corrective actions/contingency plans of the following matters during each of these phases:

- (a) dust and sediment control;
- (b) surface and ground water management;
- (c) stormwater management;
- (d) waste management (for all waste streams) and overall site clean up (including litter);

- (e) chemical, oil, hazardous substances, fuel use and storage, and management/emergency response plans;
- (f) safe boating navigation;
- (g) water based activities;
- (h) sand accretion and deposition;
- (i) seagrass wrack accumulation;
- (j) coastal hazards (especially flooding);
- (k) impacts on the coastal and marine environment;
- (l) pest plant and animal species (both terrestrial and marine);
- (m) odour emissions;
- (n) noise emissions (including a monitoring program to ascertain the effectiveness of noise control measures);
- (o) visual impacts (including lighting);
- (p) streetscaping, landscaping and revegetation;
- (q) traffic management;
- (r) public access;
- (s) public safety;
- (t) impacts on adjacent land users;
- (u) control of land and water based activities;
- (v) buildings and structures (including private moorings and fencing);
- (w) periods and hours of building construction and operation;
- (x) community complaints register regarding the above matters.

14. All works and site activities shall be undertaken in accordance with the approved Construction Environmental Management and Monitoring Plan, Environmental Management Implementation Management Plan and Operational Environmental Management and Monitoring Plan.

15. Transport routes for the delivery of construction materials shall be selected to the reasonable satisfaction of the Ceduna District Council.

16. Compaction specifications (certified by a registered engineer), shall be prepared to the reasonable satisfaction of the Ceduna District Council, for the areas for residential allotments, commercial development, retail development, tourist development, carparks, public boat ramp and hardstand shall be submitted to the Development Assessment Commission.

17. Stockpiled soils shall be suitably managed to control dust emissions, erosion and weed infestation.

18. Armour rock used for breakwaters and revetments shall not be contaminated by fine sediment.

19. No construction activities or building works shall commence until designs for the proposed effluent disposal system for the development site and connection to the town's STED scheme are finalised and implemented.

20. Arrangements for the expansion of the town's effluent lagoons to cater for the increased demand from the development shall ensure suitable standards and facilities (with adequate capacities) are adopted and located for effluent disposal, including the potential long-term demand from the possible residential, commercial, retail and tourist related uses of the site.

21. The wastewater collection and treatment system shall be designed to ensure that the general obligations of the Environment Protection (Water Quality) Policy 2004 are met, and to ensure that effluent does not overflow or escape from drains, pipes, sumps, tanks, storage/treatment basins into any watercourse, or into stormwater drains which do not drain into the effluent collection, treatment and disposal system, except where the effluent complies with criteria in the above Policy.

22. The proponent shall provide undergrounded public lighting, power supply, water supply, television antenna and telephone supply to each allotment in accordance with, and to engineering design standard plans approved by the electricity, mains water and telephone public utility authorities.

23. The applicant shall ensure that there is no direct discharge of stormwater into the marina basins, waterways or marine environment for rainfall less than, and including, 1:20 year ARI events.

24. The land to be used for land-based allotments shall be formed to prevent stormwater flows entering into the waterways.

25. Water-sensitive urban design measures and practices shall be adopted for the management of run-off, including stormwater capture and reuse.

26. Undeveloped allotments shall be left in a neat and tidy condition, with soil surfaces stabilised to minimise erosion.

27. Road, drainage, footpath and intersection designs (i.e. engineering construction plans) shall be finalised in accordance with the requirements of the Department for Transport, Energy and Infrastructure and the Ceduna District Council, prior to construction commencing. Drainage arrangements for existing roads and the railway line easement must not be altered unless agreed by the owner of the road. Road and drainage designs shall include water table levels, drainage inverts and pavement details. The roads and drainage works shall be built in accordance with these designs.

28. Road and associated kerbing shall be designed and constructed to avoid stormwater flows entering into the waterways by directing flows to inland disposal areas.

29. Road designs shall not affect existing natural drainage lines in such a way as to cause flooding.

30. A set-back distance of 2 m from the top of waterway edge treatments shall be provided for the construction of further coastal protection works if required in the future.

31. The design of the Eyre Highway realignment shall avoid spills of toxic materials from entering the marina basins, waterways or marine environment.

32. Appropriate navigational aids shall be erected in prominent locations, in consultation with the Department for Transport, Energy and Infrastructure, prior to use of the facility for boating purposes.

33. Further engineering designs for breakwaters, edge treatments and other waterway related structures, commercial and recreational moorings, public boat ramp (including associated car parking and access), hardstand, wash-down, travel lift, boat refuelling facility and marine toilet pump-out/treatment facility shall be prepared and independently certified by a registered engineer, to the reasonable satisfaction of the Department for Transport, Energy and Infrastructure. A certificate as to the structural soundness of the proposed structures shall be submitted to the Development Assessment Commission, prior to the commencement of their construction.

34. Access systems for all floating boat moorings shall be capable of adjustment or be readily adaptable to projected long-term sea level rise and all marina mooring structures shall be designed in accordance with the Australian Standard AS3962—1991 Guidelines for Design of Marinas.

35. The public boat ramp facility shall be generally designed in accordance with the South Australian Boating Advisory Committee's Guidelines for Planning, Design and Construction of Boat Launching Facilities.

36. The boat refuelling dock and marine toilet pump-out facility shall be designed to meet the requirements of the Environment Protection Authority, the Department for Transport, Energy and Infrastructure and the Department of Health respectively.

37. The proponent shall ensure satisfactory oil spill and fire fighting facilities and contingencies, determined in consultation with the Department for Transport, Energy and Infrastructure and the Metropolitan Fire Service (MFS) and/or the Country Fire Service (CFS) respectively, are in place prior to commencement of operation of the marina.

38. The water contained in the marina basin shall be kept to a quality appropriate for secondary contact recreation, public amenity and the maintenance of marine aquatic ecosystems, as stipulated from time to time by the ANZECC Australian Water Quality Guidelines for Fresh and Marine Waters.

39. The acoustic protection mound shall be designed and maintained to ensure stormwater run-off is suitably managed to minimize soil erosion and flooding, to provide public access and to result in noise levels from the Eyre Highway and railway that do not exceed:

- (a) 52 dB(A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994;

- (b) 45 dB(A) between the hours of 10 p.m. and 7 a.m. measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (c) a short term typical maximum noise level of 60 dB(A) when measured at the nearest existing residential property.

40. The acoustic protection mound shall be planted with indigenous species and be constructed using suitable materials that are of a quality that would sustain the long-term growth of vegetation.

41. Landscaping and streetscaping of the site shall commence prior to the issuing of Certificates of Title for each stage of the land division, and when established must be maintained in good health and condition at all times. A plant must be replaced if or when it dies or becomes seriously diseased within the first growing season after the plant dies or becomes seriously diseased. A weed control program shall also be implemented.

42. The Ceduna District Council shall be given seven days notice, prior to the commencement of works, and be provided with the name and contact facilities for the person responsible for coordinating site works covered by this approval.

NOTES TO APPLICANT

- Approvals will be required for all components of the development not hereby approved, including:
 - (a) the land division;
 - (b) the marina moorings and other marina facilities;
 - (c) the public boat ramp, travel lift, hardstand, boat repair/maintenance facility and carpark areas;
 - (d) the boat refuelling and boat effluent disposal facility;
 - (e) the installation of navigational aids;
 - (f) the community/cultural centre;
 - (g) all residential, commercial, retail, tourist related and other buildings.
- Further design and infrastructure/service plans (i.e. subject to separate applications to Council in the future) would be required should further development approval be sought for the community/cultural centre and for commercial, retail and tourist related buildings.
- Pursuant to Development Regulation 64, the applicant is advised that the Ceduna District Council or private certifier conducting a Building Rules assessment must:
 - (a) provide to the Minister a certification in the form set out in Schedule 12A of the Development Regulations 1993 in relation to the building works in question;
 - (b) to the extent that may be relevant and appropriate:
 - (i) issue a Schedule of Essential Safety Provisions under Division 4 of Part 12;
 - (ii) assign a classification of the building under these regulations;
 - (iii) ensure that the appropriate levy has been paid under the Construction Industry Training Fund 1993.

Regulation 64 of the Development Regulations 1993 provides further information about the type and quantity of all Building Rules certification documentation for Major Developments required for referral to the Minister for Urban Development and Planning.

- The Ceduna District Council or private certifier undertaking Building Rules assessments must ensure that the assessment and certification are consistent with this provisional development authorisation (including any Conditions or Notes that apply in relation to this provisional development authorisation).
- Should the applicant wish to vary the Major Development or any of the components of the Major Development, an application may be submitted, provided that the development application variation remains within the ambit of the Environmental Impact Statement and Assessment Report referred to in this provisional development authorisation. If an application variation involves substantial changes to the proposal, pursuant to section 47 of the Development Act

1993, the applicant may be required to prepare an amended Environmental Impact Statement for public inspection and purchase. An amended Assessment Report may also be required to assess any new issues not covered by the original Assessment Report and a decision made by the Administrator pursuant to section 48 of the Development Act 1993.

- Pursuant to the Harbours and Navigation Act 1993, the Council will need to enter into a licence agreement with the Minister for Transport over adjacent and subjacent land on terms acceptable to the Minister prior to the commencement of construction. Such agreement will require completion of the works to the satisfaction of the Minister, at which time the responsibility and control of the area will be transferred so as to minimise the Minister's ongoing responsibilities. It is currently anticipated that the transfers will be via a sales agreement pertaining to the reclaimed residential, tourist and commercial portions of the land, and undertakings by the Council to accept the groynes/breakwaters as reserve and the remaining area under long term lease.
- The applicant's CEMMP and OEMMP should be prepared taking into consideration, and with explicit reference to, relevant EPA policies and guideline documents, including, but not limited to: the Environment Protection (Air Quality) Policy 1994, the Environment Protection (Water Quality) Policy 2003, the Occupational Health and Safety Regulations, EPA Guidelines on Odour Assessment, using odour source modelling 2003, EPA Handbook for Pollution Avoidance on Commercial and Residential Building Sites 2004, EPA Bunding and Spill Management Guidelines 2004 and the EPA Stormwater Pollution Prevention Codes of Practice, in addition to other legislative requirements and Guidelines/Australian Standards requiring compliance.
- The following activities in relation to the components of the development hereby approved and/or requiring future approval will require licences under the Environment Protection Act 1993:
 - (a) Earthworks Drainage: the conduct of earthworks operations in the course of which more than 100 kilolitres of waste water containing suspended solids in a concentration exceeding 25 milligrams per litre is discharged directly or indirectly to marine waters or inland waters.
 - (b) Marinas and Boating Facilities: the conduct of:
 - (i) facilities comprising pontoons, jetties, piers or other structures (whether on water or land) designed or used to provide moorings or dry storage for 50 or more powered vessels at any one time; or
 - (ii) works for the repair or maintenance of vessels with the capacity to handle five or more vessels at any one time or vessels 12 m or more in length.
 - (c) Dredging: removing solid matter from the bed of any marine waters by any digging or suction apparatus, but excluding works carried out for the establishment of a visual aid to navigation and any lawful fishing or recreational activity.
- It is likely that as a condition of such licences the Environment Protection Authority will require the licensee to carry out specified environmental monitoring of water quality and to make reports of the results of such monitoring to it.
- It is also likely that the Environment Protection Authority will require the identification to it of any vessels that visit the marina from international ports or from ports beyond Adelaide and the surrounding area, together with details of the routes travelled by such vessels (for the purpose of identifying the potential introduction of harmful marine species).
- All works associated with the rehabilitation and remediation of the site must be undertaken in accordance with the General Environmental Duty as defined in Part 4, section 25 (1) of the Environment Protection Act 1993, the Environment Protection (Water Quality) Policy 2004, and other relevant Environment Protection Policies made under Part 5 of the Environment Protection Act 1993, the ANZECC Best Practice Guidelines for Waste Reception Facilities at Ports, Marinas and Boat Harbours in Australia and New Zealand, draft guideline Environmental Management of On-Site Remediation and other relevant EPA publications and guidelines.

- The proponent is advised of the General Environmental Duty under section 25 of the Environment Protection Act 1993, which requires that a person must not undertake any activity, which pollutes, or may pollute; without taking all reasonable and practical measures to prevent or minimise harm to the environment.
- The management plan for acid sulphate soils should comply with Guidelines issued by the Coast Protection Board.
- The applicant is reminded of its obligations under the Aboriginal Heritage Act 1988 whereby any 'clearance' work, which may require permission to disturb damage or destroy Aboriginal Sites, must be undertaken with the full authorisation of the Minister for Aboriginal Affairs and Reconciliation, according to section 23 of the Aboriginal Heritage Act 1988.
- The applicant, and all agents, employees and contractors, such as construction crews, must be conversant with the provisions of the Aboriginal Heritage Act 1988, particularly the requirement to immediately contact the Department of Aboriginal Affairs and Reconciliation in the event that archaeological items (especially skeletal material) are uncovered during earthmoving.
- The applicant, and Council after hand-over of infrastructure, must comply with the Public and Environmental Health Act 1987 in regard to the maintenance of suitable water quality within the marina basin (and any stormwater holding ponds) to protect public health and amenity.
- The expression 'secondary contact recreation' includes activities such as wading, boating and fishing in which some human contact with the water may occur, but in which the probability of bodily immersion or the intake of significant amounts of water is minimal.
- If foreign vessels are allowed to berth in the marina the proponent would need to consult with Transport SA (Marine Safety Section) to address any requirements of the Australian Quarantine Inspection Service (AQIS) and Australian Customs Service.
- It is recommended that the applicant approach the Ceduna District Council with a view to the Council enacting of by-laws to manage activities associated with:
 - (a) the entrance channel and waterways to ensure safe navigation and to protect water quality;
 - (b) the boat ramp, wash-down, slip-way and hardstand;
 - (c) the refueling facility and marine toilet pump-out facility;
 - (d) the residential development and reserves (including stormwater management devices).
- The Ceduna District Council will need to review and amend the zoning and policies in the relevant Development Plan to reflect any development approved by the Administrator and for future assessment and decision-making for buildings and structures not part of this development authorization.
- Noise generated from the non-residential components of the development should not exceed:
 - (a) 52 dB(A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994;
 - (b) 45 dB(A) between the hours of 10 p.m. and 7 a.m. measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994;
 - (c) a short term typical maximum noise level of 60 dB(A) when measured at the nearest existing residential property.
- When preparing development plan policies for the marina site, the Ceduna District Council will need to adopt the following EPA recommended noise criteria for the design of buildings used for residential or tourist accommodation that are potentially affected by noise impacts from the Eyre Highway and railway:
 - (a) internal noise levels ranging from 30-40 dB(A) and 35-45 dB(A) for bedrooms and living areas respectively;
 - (b) indoor noise levels between 30-45 dB(A) for sleep disturbance.
- When preparing development plan policies for the marina site, the Ceduna District Council will need to consider the following design requirements for buildings used for residential or tourist accommodation that are affected by noise impacts from the Eyre Highway and railway:
 - (a) Use of separation, building orientation, sheds, continuous fencing and mounding to reduce noise levels outside of the residence.
 - (b) Locating noise sensitive spaces of the proposed residence away from the highway and railway (with the windows and openings directed away from the noise source) and less sensitive areas such as the kitchen, storage areas and laundry towards the noise source.
 - (c) Minimising the size and numbers of windows oriented towards the traffic noise source.
 - (d) Windows to noise sensitive spaces be closed during the night time.
 - (e) Replacing conventional pitched roof/eaves designs with flat roof/parapet designs.
 - (f) Using construction techniques that seal air gaps around doors and windows.
 - (g) Relocate conventional wall air vents to areas not facing the traffic noise source.
 - (h) Using solid core doors in conjunction with rubber seals and internal doors with rubber seals into habitable rooms to provide an 'acoustic air lock' arrangement.
 - (i) Using thicker window glass or double-glazing to noise sensitive spaces, such as bedrooms.
 - (j) Providing alternative means of ventilation for rooms where elements such as windows in the dwelling facade are to be closed to provide a minimum acoustic performance.
- Land division creating allotments extending into the water over the sea bed need to negotiate tenure arrangements with the Minister for Transport. Current policy is that Freehold Title would not be granted if the seabed is alienated. Leasing arrangements are the standard form of tenure for private moorings.
- It is unlikely that a land division will be approved unless provision is made for a set back distance of 2 m from the top of the edge treatments (for the construction of coastal protection works if required in the future).
- A common building scheme encumbrance or equivalent device for the purpose of ensuring compliance with design standards for residential and other buildings will be required at the land division stage.
- Binding legal arrangements (e.g. easements, encumbrances, charge-back arrangements etc. as appropriate) as between the proponent and allotment owners must be put in place, prior to application to the Registrar-General for the issue of new Certificates of Title, to ensure financial and management responsibilities related to the maintenance of edge treatments, the design and appearance of structures and the installation of future coast protection works are clearly allocated. These arrangements must be to the reasonable satisfaction of the Development Assessment Commission.
- A site audit report will be required to be completed by an Environmental Auditor (Contaminated Land) and submitted to the relevant planning authority, prior to the issue of Certificates of Title. The site audit report should be presented to purchasers of allotments.
- The Minister has a specific power to require testing, monitoring and auditing under section 48C of the Development Act 1993.

Given under my hand at Adelaide, 15 December 2005.

BRUNO KRUMINS, Administrator

ELECTORAL ACT 1985: PART 3, DIVISION 4

District Polling Places

PURSUANT to section 18 of the Electoral Act 1985, I, Kay Marie Mousley, Electoral Commissioner, hereby abolish the polling places described in the notice contained on pages 980 and 981 of the *South Australian Government Gazette*, dated 22 March 2001, and the notice contained on page 5363 of the *South Australian Government Gazette*, dated 13 December 2001, and appoint the following places to be polling places for both the Legislative Council district of South Australia and for the House of Assembly districts as specified:

District of Adelaide

Adelaide, Adelaide Hospital, Adelaide South, Adelaide West, Collinswood (S1), Lower North Adelaide, Nailsworth (S2), North Adelaide East, Prospect, Prospect Estate, Prospect North (S1), Prospect South, Walkerville.

District of Ashford

Black Forest, Clarence Gardens, Clarence Park (S1), Clarence Park West, Cowandilla (S1), Edwardstown (S2), Glandore South, Goodwood (S1), Keswick, Kurralta Park, Plympton, Plympton West (S1), Richmond, South Plympton.

District of Bragg

Beaumont, Beulah Park (S2), Burnside, Glen Osmond, Glenunga (S2), Linden Park, Marryatville, Norwood (S2), Rose Park, Stonyfell, Tusmore.

District of Bright

Brighton, Brighton South, Christie Downs (S3), Hallett Cove, Hallett Cove South, Marino, O'Sullivan Beach, Seacliff, West Brighton (S2).

District of Chaffey

Barmera, Berri, Cobdogla, Glossop, Loxton, Loxton North, Lyrup, Monash, Moorook, Paringa, Ramco, Renmark, Renmark North, Renmark West, Waikerie, Winkie.

District of Cheltenham

Albert Park, Cheltenham, Pennington, Queenstown, Rosewater, Royal Park (S1), Royal Park South (S1), Seaton Park (S2), Woodville (S1), Woodville Gardens (S2), Woodville North, Woodville South, Woodville West.

District of Colton

PETROLEUM ACT 2000

SECTION 25 (5) (b)

Variation of Petroleum Exploration Licences—PEL 86, PEL 87 and PEL 89

NOTICE is hereby given that under the provisions of the Petroleum Act 2000, pursuant to delegated powers dated 28 March 2002, *Gazetted* 11 April 2002, page 1573, the conditions of the abovementioned Exploration Licences have been varied, as follows:

Condition 1 of the licences is omitted and the following substituted:

'1. During the term of the licences, the Licensees shall carry out or cause to be carried out exploratory operations on the area comprised in the licences in accordance with such work programs as are approved by the Minister from time to time. Years one to three exploratory operations are guaranteed, and any subsequent licence year work program becomes guaranteed upon entry into any such licence year. These exploratory operations shall include but not necessarily be limited to:

Year of Term of Licence	Minimum Work Requirements
One	Begin interpretation of existing data and reprocess certain lines. Review geologic and regional well data.
Two	Finalise interpretation of existing seismic data and seismic reprocessing.
Three	Geophysical and geological studies and determine location for additional seismic lines.
Four and Five	200 km 2D seismic or airborne geophysical/geochemical survey. To be undertaken anywhere within the area covered by PELs 86, 87 and 89.

This variation provides for the work program in years four and five to be carried out in the area covered by any of the three licences. The revised work requirements as a result of this variation would not have altered the outcome of the original competitive tender process.

Dated 12 December 2005.

Part 1—Preliminary

1—Short title

This policy may be cited as the *Aquaculture (Zones—Eastern Spencer Gulf) Policy 2005*.

2—Interpretation

In this policy—

Act means the *Aquaculture Act 2001*;

filter-feeding molluscs includes cockles, mussels, oysters and scallops;

leased area means an area subject to an aquaculture lease;

licence means an aquaculture licence.

Note—

Unless the contrary intention appears, terms used in this policy that are defined in the Act have the respective meanings assigned to those terms by the Act.

3—Zones

- (1) Pursuant to section 11 of the Act, this policy—
 - (a) identifies aquaculture zones, prospective aquaculture zones and aquaculture exclusion zones; and
 - (b) specifies—
 - (i) for an aquaculture zone—the classes of aquaculture permitted in the zone; and
 - (ii) for a prospective aquaculture zone—the period for which the zone has effect; and
 - (c) specifies prescribed criteria to be taken into account in the determination of applications for licences or in the making of other decisions under the Act in relation to particular zones.
- (2) This policy does not limit the matters that may be taken into account in the determination of applications for licences or in the making of other decisions under the Act.

4—Prescribed criteria for all aquaculture zones

In the determination of applications for licences and in the making of other decisions under the Act in relation to the aquaculture zones in this policy, it must be taken into account that, of the aggregated area leased or available for lease in those zones, 5 hectares must be reserved for the farming of aquatic organisms for the purposes of research.

5—Map of all zones

The map in Schedule 1 indicates all the aquaculture, prospective aquaculture and aquaculture exclusion zones in Eastern Spencer Gulf and is provided for information purposes only.

Part 2—Hardwicke Bay aquaculture zones

Division 1—Hardwicke Bay (inner) subtidal aquaculture zone

6—Identification of aquaculture zone

The Hardwicke Bay (inner) subtidal aquaculture zone is comprised of the waters delineated in the map in Schedule 2 as the Hardwicke Bay (inner) subtidal aquaculture zone.

7—Class of permitted aquaculture

The class of aquaculture permitted in the Hardwicke Bay (inner) subtidal aquaculture zone is the farming of molluscs.

8—Prescribed criteria

- (1) In the determination of applications for licences and in the making of other decisions under the Act in relation to the Hardwicke Bay (inner) subtidal aquaculture zone, the following prescribed criteria must be taken into account:
 - (a) the zone must not contain more than 60 hectares of leased area;
 - (b) aquaculture should be successfully and substantially developed in the Hardwicke Bay (inner) subtidal aquaculture zone before aquaculture is developed in the Hardwicke Bay (middle) subtidal aquaculture zone;
 - (c) aquaculture should be successfully and substantially developed in the Hardwicke Bay (middle) subtidal aquaculture zone before aquaculture is developed in the Hardwicke Bay (outer) subtidal aquaculture zone.
- (2) However—
 - (a) subclause (1)(b) may be disregarded if the type of aquaculture proposed is more suited to the conditions in the Hardwicke Bay (middle) subtidal aquaculture zone; and
 - (b) subclause (1)(b) and (c) may be disregarded if the type of aquaculture proposed is more suited to the conditions in the Hardwicke Bay (outer) subtidal aquaculture zone.

Division 2—Hardwicke Bay (middle) subtidal aquaculture zone

9—Identification of aquaculture zone

The Hardwicke Bay (middle) subtidal aquaculture zone is comprised of the waters delineated in Schedule 2 as the Hardwicke Bay (middle) subtidal aquaculture zone.

10—Class of permitted aquaculture

The class of aquaculture permitted in the Hardwicke Bay (middle) subtidal aquaculture zone is the farming of molluscs.

11—Prescribed criteria

- (1) In the determination of applications for licences and in the making of other decisions under the Act in relation to the Hardwicke Bay (middle) subtidal aquaculture zone, the following prescribed criteria must be taken into account:
 - (a) the zone must not contain more than 60 hectares of leased area;

- (b) aquaculture should be successfully and substantially developed in the Hardwicke Bay (inner) subtidal aquaculture zone before aquaculture is developed in the Hardwicke Bay (middle) subtidal aquaculture zone;
 - (c) aquaculture should be successfully and substantially developed in the Hardwicke Bay (middle) subtidal aquaculture zone before aquaculture is developed in the Hardwicke Bay (outer) subtidal aquaculture zone.
- (2) However—
- (a) subclause (1)(b) may be disregarded if the type of aquaculture proposed is more suited to the conditions in the Hardwicke Bay (middle) subtidal aquaculture zone; and
 - (b) subclause (1)(b) and (c) may be disregarded if the type of aquaculture proposed is more suited to the conditions in the Hardwicke Bay (outer) subtidal aquaculture zone.

Division 3—Hardwicke Bay (outer) subtidal aquaculture zone

12—Identification of aquaculture zone

The Hardwicke Bay (outer) subtidal aquaculture zone is comprised of the waters delineated in Schedule 2 as the Hardwicke Bay (outer) subtidal aquaculture zone.

13—Class of permitted aquaculture

The class of aquaculture permitted in the Hardwicke Bay (outer) subtidal aquaculture zone is the farming of molluscs.

14—Prescribed criteria

- (1) In the determination of applications for licences and in the making of other decisions under the Act in relation to the Hardwicke Bay (outer) subtidal aquaculture zone, the following prescribed criteria must be taken into account:
- (a) the zone must not contain more than 60 hectares of leased area;
 - (b) aquaculture should be successfully and substantially developed in the Hardwicke Bay (inner) subtidal aquaculture zone before aquaculture is developed in the Hardwicke Bay (middle) subtidal aquaculture zone;
 - (c) aquaculture should be successfully and substantially developed in the Hardwicke Bay (middle) subtidal aquaculture zone before aquaculture is developed in the Hardwicke Bay (outer) subtidal aquaculture zone.
- (2) However—
- (a) subclause (1)(b) may be disregarded if the type of aquaculture proposed is more suited to the conditions in the Hardwicke Bay (middle) subtidal aquaculture zone; and
 - (b) subclause (1)(b) and (c) may be disregarded if the type of aquaculture proposed is more suited to the conditions in the Hardwicke Bay (outer) subtidal aquaculture zone.

Part 3—Point Pearce prospective aquaculture zone

15—Identification of prospective aquaculture zone

The Point Pearce prospective aquaculture zone is comprised of the waters delineated in Schedule 3 as the Point Pearce prospective aquaculture zone.

16—Period for which zone has effect

The Point Pearce prospective aquaculture zone has effect for a period of 3 years from the commencement of this policy.

17—Prescribed criteria

In the determination of applications for licences and in the making of other decisions under the Act in relation to the Point Pearce prospective aquaculture zone, it must be taken into account that the zone must not contain more than 22 hectares of leased area.

Part 4—Point Riley aquaculture exclusion zone

18—Identification of aquaculture exclusion zone

The Point Riley aquaculture exclusion zone is comprised of the waters delineated in Schedule 4 as the Point Riley aquaculture exclusion zone.

Part 5—Port Broughton intertidal aquaculture zone and aquaculture exclusion zone

Division 1—Port Broughton intertidal aquaculture zone

19—Identification of aquaculture zone

The Port Broughton intertidal aquaculture zone is comprised of the waters delineated in Schedule 5 as the Port Broughton intertidal aquaculture zone.

20—Class of permitted aquaculture

The class of aquaculture permitted in the Port Broughton intertidal aquaculture zone is the farming of filter-feeding molluscs.

21—Prescribed criteria

In the determination of applications for licences and in the making of other decisions under the Act in relation to the Port Broughton intertidal aquaculture zone, it must be taken into account that the zone must not contain more than 65 hectares of leased area.

Division 2—Port Broughton aquaculture exclusion zone

22—Identification of aquaculture exclusion zone

The Port Broughton aquaculture exclusion zone is comprised of the waters delineated in Schedule 5 as the Port Broughton aquaculture exclusion zone.

Part 6—Port Hughes aquaculture exclusion zone

23—Identification of aquaculture exclusion zone

The Port Hughes aquaculture exclusion zone is comprised of the waters delineated in the map in Schedule 4 as the Port Hughes aquaculture exclusion zone.

Part 7—Tickera aquaculture zones

Division 1—Tickera intertidal aquaculture zone

24—Identification of aquaculture zone

The Tickera intertidal aquaculture zone is comprised of the waters delineated in Schedule 5 as the Tickera intertidal aquaculture zone.

25—Class of permitted aquaculture

The class of aquaculture permitted in the Tickera intertidal aquaculture zone is the farming of filter-feeding molluscs.

26—Prescribed criteria

In the determination of applications for licences and in the making of other decisions under the Act in relation to the Tickera intertidal aquaculture zone, it must be taken into account that the zone must not contain more than 40 hectares of leased area.

Division 2—Tickera subtidal aquaculture zone

27—Identification of aquaculture zone

The Tickera subtidal aquaculture zone is comprised of the waters delineated in the map in Schedule 5 as the Tickera subtidal aquaculture zone.

28—Class of permitted aquaculture

The class of aquaculture permitted in the Tickera subtidal aquaculture zone is the farming of filter-feeding molluscs.

29—Prescribed criteria

In the determination of applications for licences and in the making of other decisions under the Act in relation to the Tickera subtidal aquaculture zone, the following prescribed criteria must be taken into account:

- (a) the zone must not contain more than 60 hectares of leased area;
- (b) the holder of a licence authorising aquaculture in the zone must also hold a licence authorising aquaculture in the Tickera intertidal aquaculture zone or the Port Broughton intertidal aquaculture zone.

Part 8—Wallaroo subtidal aquaculture zone and Wallaroo aquaculture exclusion zone

Division 1—Wallaroo subtidal aquaculture zone

30—Identification of aquaculture zone

The Wallaroo subtidal aquaculture zone is comprised of the waters delineated in the map in Schedule 4 as the Wallaroo subtidal aquaculture zone.

31—Class of permitted aquaculture

The class of aquaculture permitted in the Wallaroo subtidal aquaculture zone is the farming of molluscs.

32—Prescribed criteria

In the determination of applications for licences and in the making of other decisions under the Act in relation to the Wallaroo subtidal aquaculture zone, it must be taken into account that the zone must not contain more than 320 hectares of leased area.

Division 2—Wallaroo aquaculture exclusion zone

33—Identification of aquaculture exclusion zone

The Wallaroo aquaculture exclusion zone is comprised of the waters delineated in the map in Schedule 4 as the Wallaroo aquaculture exclusion zone.

Part 9—Woods Point prospective aquaculture zone

34—Identification of prospective aquaculture zone

The Woods Point prospective aquaculture zone is comprised of the waters delineated in the map in Schedule 6 as the Woods Point prospective aquaculture zone.

35—Period for which zone has effect

The Woods Point prospective aquaculture zone has effect for a period of 3 years from the commencement of this policy.

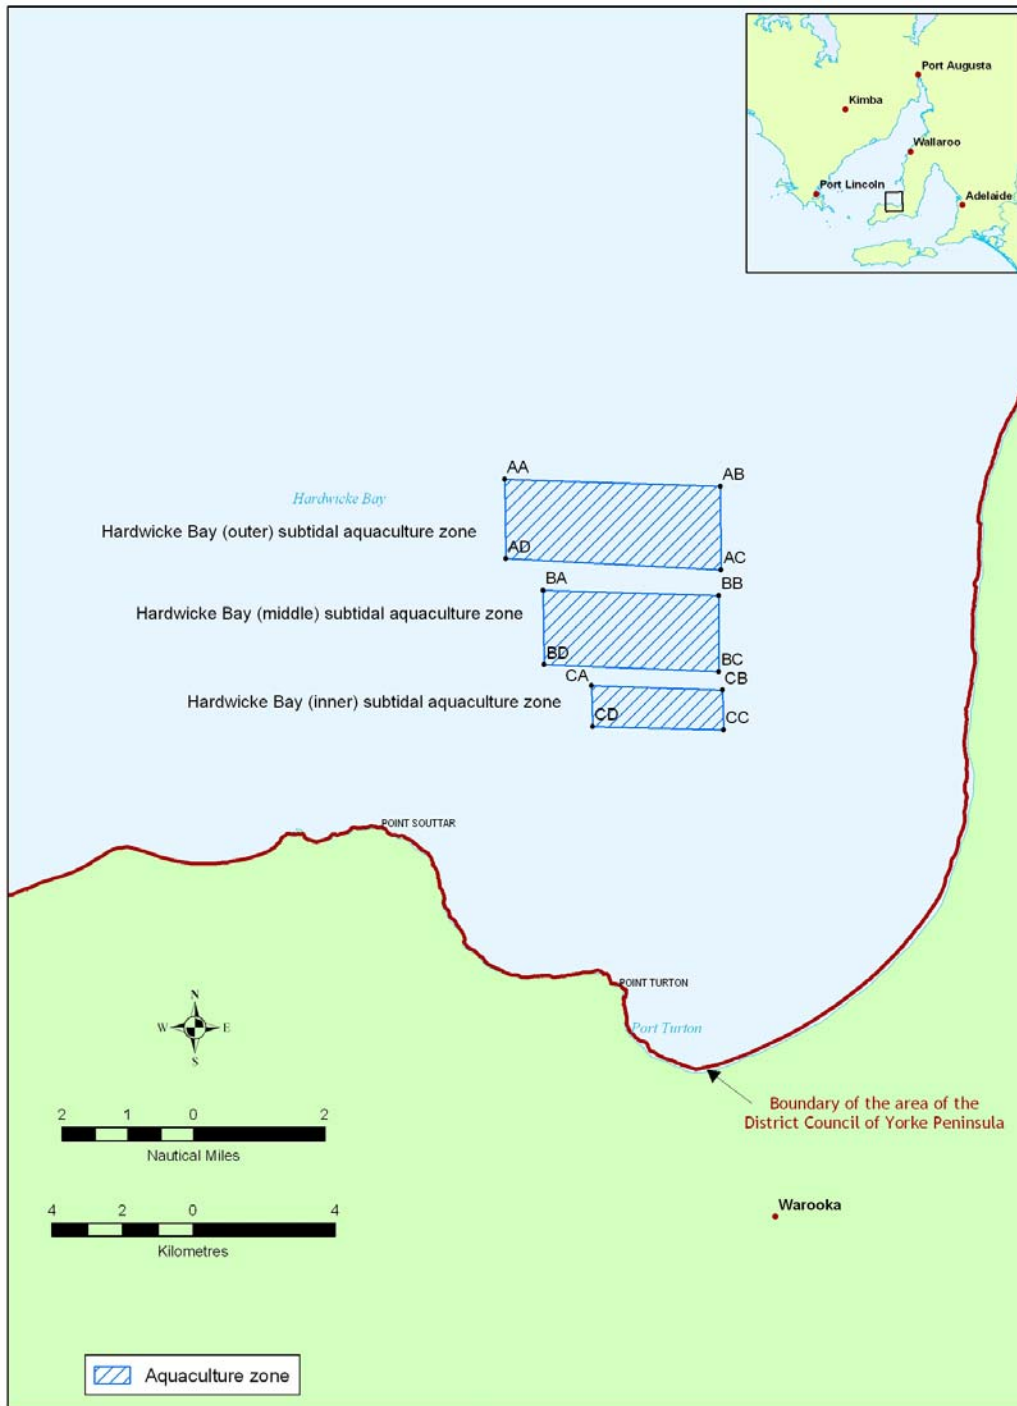

36—Prescribed criteria

In the determination of applications for licences and in the making of other decisions under the Act in relation to the Woods Point prospective aquaculture zone, it must be taken into account that the zone must not contain more than 10 hectares of leased area.

Preamble

- 1 Gammon Ranges National Park was constituted as a national park by statute on 27 April 1972.
 - 2 The name of the national park was altered to Vulkathunha-Gammon Ranges National Park by proclamation on 29 May 2003.
 - 3 The Adnyamathanha people have a traditional association with the land constituting the national park.
 - 4 It is now intended that the national park be co-managed pursuant to a co-management agreement under the *National Parks and Wildlife Act 1972* between the Minister and the Adnyamathanha Traditional Lands Association (Aboriginal Corporation) representing the Adnyamathanha people.
-

Part 1—Preliminary

1—Short title

These regulations may be cited as the *National Parks and Wildlife (Vulkathunha—Gammon Ranges National Park) Regulations 2005*.

2—Commencement

These regulations will come into operation on 15 December 2005.

3—Interpretation

In these regulations, unless the contrary intention appears—

Act means the *National Parks and Wildlife Act 1972*;

Adnyamathanha genealogy means the Adnyamathanha genealogy prepared in September 1985 by Christine Davis and Pearl McKenzie;

Adnyamathanha person means an Aboriginal person who is named in the Adnyamathanha genealogy, or a descendant (whether biological or adopted) of such a person;

ATLA means the Adnyamathanha Traditional Lands Association (Aboriginal Corporation) incorporated under the *Aboriginal Councils and Associations Act 1976* of the Commonwealth;

Board means the *Vulkathunha-Gammon Ranges National Park Co-management Board* established by regulation 4;

co-management agreement means the co-management agreement for the Vulkathunha-Gammon Ranges National Park;

Department means the administrative unit that is responsible for the administration of the *National Parks and Wildlife Act 1972*;

Minister means the Minister to whom the administration of the *National Parks and Wildlife Act 1972* is committed;

Park means the Vulkathunha-Gammon Ranges National Park.

Part 2—Vulkathunha-Gammon Ranges National Park Co-management Board

4—Establishment of co-management board

The *Vulkathunha-Gammon Ranges National Park Co-management Board* is established as the co-management board for the Park.

5—Composition of Board

- (1) Subject to subregulation (2), the Board consists of 8 members appointed by the Minister of whom—
 - (a) 4 must be Adnyamathanha people appointed on the nomination of ATLA; and
 - (b) 3 must be officers of the Department, of whom—
 - (i) 1 must be the person for the time being holding the office of Regional Conservator for the region in which the Park is located (or the person for the time being performing the functions of the Regional Conservator for that region); and
 - (ii) 1 must be a person with qualifications or substantial experience in the field of ecology or a related field; and
 - (c) 1 must be a person nominated by the Minister who has qualifications or experience that may, in the opinion of the Minister, be of benefit to the Board.
- (2) If ATLA refuses or fails to nominate an Adnyamathanha person in relation to a particular office under subregulation (1)(a), the Minister may appoint a suitable Adnyamathanha person to fill the office.
- (3) At least 1 member of the Board must be a woman and 1 a man.
- (4) The Minister may appoint a person to be a deputy of a member appointed under subregulation (1) and a person so appointed may act as a member of the Board in the absence of the member.
- (5) The requirements of qualification made by this regulation in relation to an appointment of a member extend to an appointment of a deputy of that member.

6—Terms and conditions

- (1) A member of the Board will be appointed on conditions determined by the Minister and for a term, not exceeding 4 years, specified in the instrument of appointment and, at the expiration of a term of appointment, is eligible for reappointment.
- (2) The Minister may remove a member of the Board from office—
 - (a) for breach of, or non-compliance with, a condition of appointment; or
 - (b) for misconduct; or
 - (c) for failure or incapacity to carry out official duties satisfactorily.
- (3) However, the Minister may only remove a member of the Board who is an Adnyamathanha person after consultation with ATLA.
- (4) The office of a member of the Board becomes vacant if the member—
 - (a) dies; or
 - (b) completes a term of office and is not reappointed; or

- (c) resigns by written notice to the Minister; or
 - (d) ceases to satisfy the qualification by virtue of which the member was eligible for appointment to the Board; or
 - (e) is removed from office under subregulation (2).
- (5) If a casual vacancy occurs in the office of a member, the Minister may appoint a suitable person to fill the vacancy, and that person will hold office for the balance of the term of his or her predecessor.

7—Chairperson and Deputy Chairperson

The Minister must appoint 2 of the members of the Board as Chairperson and Deputy Chairperson of the Board respectively.

8—Vacancies or defects in appointment of members

An act or proceeding of the Board is not invalid by reason only of a vacancy in its membership or a defect in the appointment of a member.

9—Remuneration

A member of the Board (other than a member appointed under regulation 5(1)(b) or a member appointed under regulation 5(1)(c) who is a member of the Public Service) is entitled to remuneration, allowances and expenses determined by the Minister.

10—Functions and powers of Board

- (1) The functions of the Board are—
- (a) to carry out the functions assigned to the Board by or under the *National Parks and Wildlife Act 1972*; and
 - (b) to carry out the functions assigned to the Board by the co-management agreement; and
 - (c) to carry out other functions assigned to the Board by the Minister.
- (2) The Board has the power to do anything necessary, expedient or incidental to the performance of its functions.
- (3) Without limiting the generality of subsection (2), the Board may enter into any form of contract, agreement or arrangement.
- (4) The Board must perform its functions, or exercise a power, in a manner that is consistent with the co-management agreement.

11—Delegations

- (1) The Board may delegate any of its functions or powers (other than this power of delegation)—
- (a) to a member of the Board; or
 - (b) to an officer of the Department.
- (2) A delegation—
- (a) must be in writing; and
 - (b) may be made subject to conditions and limitations specified in the instrument of delegation; and

- (c) is revocable at will and does not derogate from the power of the Board to act in a matter.

12—Board's procedures

- (1) Subject to these regulations, 6 members (of whom at least 3 must be Adnyamathanha people and at least 3 must be members appointed under regulation 5(1)(b) or (c)) constitute a quorum of the Board.
- (2) The Board must meet at least once in each quarter.
- (3) A meeting of the Board will be chaired by the Chairperson or, in the absence of the Chairperson, by the Deputy Chairperson or, in the absence of both, the members present at a meeting of the Board must choose 1 of their number to preside at the meeting.
- (4) Subject to this regulation, a decision carried by a majority of the votes cast by members of the Board at a meeting is a decision of the Board.
- (5) Each member present at a meeting of the Board has 1 vote on any question arising for decision.
- (6) If the Board is unable to decide a question arising for decision, the question must be referred to the Minister for decision (and the decision of the Minister will be taken to be a decision of the Board).
- (7) In making a decision under subregulation (6), the Minister—
 - (a) must have regard to any written submission made by ATLA that is received by the Minister not more than 30 days after the date of the meeting at which the Board was unable to decide the question; and
 - (b) may have regard to any other matter the Minister thinks fit.
- (8) The Minister may direct the Board to implement, or cause to be implemented, a decision of the Minister under subregulation (6).
- (9) A conference by telephone or other electronic means between the members of the Board will, for the purposes of this regulation, be taken to be a meeting of the Board at which the participating members are present if—
 - (a) notice of the conference is given to all members in the manner determined by the Board for the purpose; and
 - (b) each participating member is capable of communicating with every other participating member during the conference.
- (10) A proposed resolution of the Board becomes a valid decision of the Board despite the fact that it is not voted on at a meeting of the Board if—
 - (a) notice of the proposed resolution is given to all members of the Board in accordance with procedures determined by the Board; and
 - (b) a majority comprised of not less than 6 members (of whom at least 3 must be Adnyamathanha people and at least 3 must be members appointed under regulation 5(1)(b) or (c)) express concurrence in the proposed resolution by letter, telegram, telex, facsimile transmission, electronic mail or other written communication setting out the terms of the resolution.
- (11) The Board must have accurate minutes kept of its meetings.
- (12) Subject to these regulations, the Board may determine its own procedures.

- (13) In this regulation, *quarter* means a period of 3 months commencing on 1 January, 1 April, 1 July or 1 October of any year.

13—Minister may call meetings

- (1) If—
- (a) the Chairperson refuses or fails to call a meeting of the Board within 4 months after the previous meeting; or
 - (b) 2 or more successive meetings are inquorate,
- then the Minister may call a meeting of the Board.
- (2) The Minister may direct the members of the Board to attend a meeting called under subregulation (1).

14—Suspension of Board (section 43I of the Act)

- (1) Subject to this regulation, during the period of any suspension of the Board under section 43I, the Park—
- (a) is under the control of the Minister; and
 - (b) is under the management of the Director.
- (2) The Minister and the Director must, during any period of suspension of the Board, endeavour, where appropriate, to give effect to the objects set out in section 43E of the Act.

15—Conflict of interest

- (1) A member of the Board who has a direct or indirect personal or pecuniary interest in a matter decided or under consideration by the Board—
- (a) must, as soon as reasonably practicable, disclose in writing to the Board full and accurate details of the interest; and
 - (b) must not take part in any discussion by the Board relating to that matter; and
 - (c) must not vote in relation to that matter; and
 - (d) must be absent from the meeting room when any such discussion or voting is taking place.

Maximum penalty: \$2 000.

- (2) This regulation does not apply to a member of the Board—
- (a) in respect of an interest that is shared in common with Adnyamathanha people generally, or a substantial section of Adnyamathanha people; and
 - (b) in relation to a matter in which the member has an interest while the member remains unaware that he or she has an interest in the matter (but in any proceedings against the member the burden will lie on the member to prove that he or she was not, at the material time, aware of his or her interest).
- (3) The Minister may, by notice published in the Gazette, exempt a member (conditionally or unconditionally) from the application of a provision of this regulation, and may, by further notice published in the Gazette, vary or revoke such an exemption.
- (4) Non-compliance by a member with a duty imposed by this regulation constitutes a ground for removal of the member from office.

- (5) If a member or former member is convicted of an offence for a contravention of this regulation, the court by which the person is convicted may, in addition to imposing a penalty, order the convicted person to pay to the Minister—
- (a) if the court is satisfied that the person or any other person made a profit as a result of the contravention—an amount equal to the profit; and
 - (b) if the court is satisfied that any loss or damage has been suffered as a result of the contravention—compensation for the loss or damage.
- (6) If a member or former member is guilty of a contravention of this regulation, the Minister may (whether or not proceedings have been brought for the offence) recover from the person by action in a court of competent jurisdiction—
- (a) if the person or any other person made a profit as a result of the contravention—an amount equal to the profit; and
 - (b) if any loss or damage has been suffered as a result of the contravention—compensation for the loss or damage.

16—Annual report (section 43L of the Act)

For the purposes of section 43L of the Act, the annual report of the Board must include the following:

- (a) information relating to traditional hunting activities in the Park carried out in accordance with section 68D of the *National Parks and Wildlife Act 1972*;
- (b) information relating to the effect of traditional hunting activities in the Park carried out in accordance with section 68D of the *National Parks and Wildlife Act 1972* on native plants and protected animals, or the eggs of protected animals (and in particular those species that are scheduled as rare, endangered or vulnerable under the *National Parks and Wildlife Act 1972*);
- (c) information relating to the operations and work programs undertaken by or on behalf of the Board;
- (d) information relating to Park infrastructure;
- (e) any other information required by the Minister.
