## FISHERIES ACT 1982: SECTION 59

TAKE notice that, pursuant to section 59 of the Fisheries Act 1982, Australian Fishing Enterprises, P.O. Box 1073, Port Lincoln, S.A. 5606 or the nominated replacement approved by the Director of Fisheries (hereinafter referred to as the 'fisher') is exempt from section 41 of the Fisheries Act 1982, subject to the conditions contained in Schedule 1, in that they shall not be guilty of an offence when using a fine mesh purse seine net as described in Schedule 2 for the taking of pilchards (*Sardinops neopilchardus*) and other species within the Families Clupeidae and Engraulididae (hereinafter referred to as the 'permitted species') for the purpose of trade or business in marine waters of South Australia as described in Schedule 3 as Area B (hereinafter referred to as the 'permitted activity').

## SCHEDULE 1

1. The fisher may engage in the permitted activity from the date of gazettal of this notice until 29 February 2000, or until revoked by the Director of Fisheries.

2. This exemption is valid only in respect of the fishing vessel *Maria Luisa* (hereinafter referred to as the 'permitted boat').

3. The fisher must be on board the permitted boat at all times while the boat is being used for the purpose of engaging in the permitted activity.

4. Whilst engaged in the permitted activity the fisher shall not use any other device than that permitted pursuant to Schedule 2.

5. The fisher must not take or be in possession of any other species of fish, other than the permitted species, while engaging in the permitted activity.

6. Any fish, which are not permitted species, taken as by-catch by the fisher during the permitted activity must be immediately returned to the water.

7. The fisher may only engage in the permitted activity for the purpose of supplying food fish for tuna farms.

8. The fisher shall not, during the period 1 January 2000 to 29 February 2000, take a quantity of permitted species which exceeds his quota of 6.67 units at 7.712 tonnes per unit (which is equal to 51.42 tonnes).

9. The fisher may with the prior approval of the Director of Fisheries transfer uncaught units of quota during the period of this notice.

10. Fish taken pursuant to this notice as the result of a transfer of quota must be taken in the area as described (and disposed of as described) in the permit conditions of the holder of the initial allocation.

11. The fisher may transfer catch taken pursuant to this notice to a carrier boat at sea subject to nominating the boats in advance.

12. The fisher may nominate no more than two carrier boats at any one time. Notification of boat name must be provided to the person or agency responsible for conducting quota monitoring operations.

13. Where the fisher transfers all or part of their catch to a carrier boat that portion of the catch must be accompanied by a South Australian Pilchard Fishery Log Book, completed as required by condition 16 of this notice.

14. The fisher must notify the person nominated for quota monitoring, by telephone, of the intended place of any unloading and the estimated weight of the catch at least one hour prior to the unloading taking place.

15. The fisher must provide the person nominated for quota monitoring with reasonable access to boats and vehicles for the purpose of enabling inspection of the catch and any record relating to the South Australian Pilchard Fishery Log Book required to be completed under this notice.

16. The fisher must complete the South Australian Pilchard Fishery Log Book as described below:

**(a) Unloading at a shore based processing plant:**

(i) The fisher shall complete all columns of the South Australian Pilchard Fishery Log Book **up to** but not including the column titled **PILCHARD TONNAGE CAUGHT**.

The fish can then be dispatched to the shore based processing plant. It is the responsibility of the fisher to make certain that all fish are accurately weighed within 24 hours of the consignment to the processor:

(ii) The fisher shall upon being notified by the processor of the total weight of fish unloaded complete the columns headed, **PILCHARD TONNAGE CAUGHT, OTHER SPECIES, TONNAGE CAUGHT (This refers to other species) and REMARKS**.

For any unloading, if fishing has taken place on more than one day then this should be noted and the verified weight split as close as possible to reflect the actual quantities taken on each day of fishing.

**(b) Unloading at sea or direct to a tuna cage:**

The fisher shall complete all columns of the South Australian Pilchard Fishery Log Book immediately after capture and include an **estimated** tonnage in the column marked **PILCHARD TONNAGE CAUGHT**. The estimated tonnage should be based on a recorded number of boxes of a certain capacity (weight) filled.

17. The fisher then shall either by **facsimile or in person** deliver the completed (South Australian Pilchard Fishery Log Book) form to the person nominated for quota monitoring within **48 hours** of the unloading.

18. The fisher must provide regular samples of the permitted species for research analysis and assist in any other South Australian Research and Development Institute (SARDI) sponsored pilchard fishery research program as required by the Chief Scientist, Aquatic Sciences, SARDI.

19. The fisher must complete a monthly return within 14 days of the end of the previous month and forward it to SARDI. This return must be completed regardless of whether the fisher took fish or not, i.e. nil returns are required.

20. While engaged in the permitted activity the fisher must have in his possession the copy of this notice with which the Director of Fisheries has supplied him and produce that notice to a Fisheries Compliance Officer forthwith, if and when a Fisheries Compliance Officer requests him to produce it.

21. The fisher shall not contravene or fail to comply with the Fisheries Act 1982, or any regulations made under that Act, except where specifically exempted by this notice.

## SCHEDULE 2

In waters described as **Area A**: one purse seine net having a maximum length of 600 m, a maximum depth of 100 m and a mesh size of between 16 mm and 20 mm.

In waters described as **Area B**: one purse seine net having a mesh size of between 16 mm and 20 mm.

## SCHEDULE 3

For the purposes of this notice, **Area A** is defined as:

Coastal waters within 3 nautical miles of high water mark or within 3 nautical miles to seaward of the base lines and bay closure lines described in Table 1.

For the purposes of this notice, **Area B** is defined as:

Coastal waters more than 3 nautical miles to seaward of high water mark or more than 3 nautical miles to seaward of the base lines and bay closure lines described in Table 1.

## FISHERIES ACT 1982: SECTION 59

TAKE notice that, pursuant to section 59 of the Fisheries Act 1982, Guiseppina Fishing Company, P.O. Box 1607, Port Lincoln, S.A. 5606, or the nominated replacement approved by the Director of Fisheries (hereinafter referred to as the 'fisher') is exempt from section 41 of the Fisheries Act 1982, subject to the conditions contained in Schedule 1, in that they shall not be guilty of an offence when using a fine mesh purse seine net as described in Schedule 2 for the taking of pilchards (*Sardinops neopilchardus*) and other species within the Families Clupeidae and Engraulididae (hereinafter referred to as the 'permitted species') for the purpose of trade or business in marine waters of South Australia as described in Schedule 3 as Area B (hereinafter referred to as the 'permitted activity').

## SCHEDULE 1

1. The fisher may engage in the permitted activity from the date of gazettal of this notice until 29 February 2000, or until revoked by the Director of Fisheries.
2. This exemption is valid only in respect of the fishing vessel *Sardinops* (hereinafter referred to as the 'permitted boat').
3. The fisher must be on board the permitted boat at all times while the boat is being used for the purpose of engaging in the permitted activity.
4. Whilst engaged in the permitted activity the fisher shall not use any other device than that permitted pursuant to Schedule 2.
5. The fisher must not take or be in possession of any other species of fish, other than the permitted species, while engaging in the permitted activity.
6. Any fish, which are not permitted species, taken as by-catch by the fisher during the permitted activity must be immediately returned to the water.
7. The fisher may only engage in the permitted activity for the purpose of supplying food fish for tuna farms.
8. The fisher shall not, during the period 1 January 2000 to 29 February 2000, take a quantity of permitted species which exceeds his quota of 10.08 units at 7.712 tonnes per unit (which is equal to 77.79 tonnes).

9. The fisher may with the prior approval of the Director of Fisheries transfer uncaught units of quota during the period of this notice.

10. Fish taken pursuant to this notice as the result of a transfer of quota must be taken in the area as described (and disposed of as described) in the permit conditions of the holder of the initial allocation.

11. The fisher may transfer catch taken pursuant to this notice to a carrier boat at sea subject to nominating the boats in advance.

12. The fisher may nominate no more than two carrier boats at any one time. Notification of boat name must be provided to the person or agency responsible for conducting quota monitoring operations.

13. Where the fisher transfers all or part of their catch to a carrier boat that portion of the catch must be accompanied by a South Australian Pilchard Fishery Log Book, completed as required by condition 16 of this notice.

14. The fisher must notify the person nominated for quota monitoring, by telephone, of the intended place of any unloading and the estimated weight of the catch at least one hour prior to the unloading taking place.

15. The fisher must provide the person nominated for quota monitoring with reasonable access to boats and vehicles for the purpose of enabling inspection of the catch and any record relating to the South Australian Pilchard Fishery Log Book required to be completed under this notice.

16. The fisher must complete the South Australian Pilchard Fishery Log Book as described below:

**(a) Unloading to a shore based processing plant:**

(i) The fisher shall complete all columns of the South Australian Pilchard Fishery Log Book **up to** but not including the column titled **PILCHARD TONNAGE CAUGHT**.

The fish can then be dispatched to the shore based processing plant. It is the responsibility of the fisher to make certain that all fish are accurately weighed within 24 hours of the consignment to the processor:

## FISHERIES ACT 1982: SECTION 59

TAKE notice that, pursuant to section 59 of the Fisheries Act 1982, Sea Marine Holdings Pty Ltd, P.O. Box 1829, Port Lincoln, S.A. 5606 or the nominated replacement approved by the Director of Fisheries (hereinafter referred to as the 'fisher') is exempt from section 41 of the Fisheries Act 1982, subject to the conditions contained in Schedule 1, in that they shall not be guilty of an offence when using a fine mesh purse seine net as described in Schedule 2 for the taking of pilchards (*Sardinops neopilchardus*) and other species within the Families Clupeidae and Engraulididae (hereinafter referred to as the 'permitted species') for the purpose of trade or business in marine waters of South Australia as described in Schedule 3 as Area B (hereinafter referred to as the 'permitted activity').

## SCHEDULE 1

1. The fisher may engage in the permitted activity from the date of gazettal of this notice until 29 February 2000, or until revoked by the Director of Fisheries.

2. This exemption is valid only in respect of the fishing vessel *Pinta 3* (hereinafter referred to as the 'permitted boat').

3. The fisher must be on board the permitted boat at all times while the boat is being used for the purpose of engaging in the permitted activity.

4. Whilst engaged in the permitted activity the fisher shall not use any other device than that permitted pursuant to Schedule 2.

5. The fisher must not take or be in possession of any other species of fish, other than the permitted species, while engaging in the permitted activity.

6. Any fish, which are not permitted species, taken as by-catch by the fisher during the permitted activity must be immediately returned to the water.

7. The fisher may only engage in the permitted activity for the purpose of supplying food fish for tuna farms.

8. The fisher shall not, during the period 1 January 2000 to 29 February 2000, take a quantity of permitted species which exceeds his quota of 0.57 units at 7.712 tonnes per unit (which is equal to 4.42 tonnes).

9. The fisher may with the prior approval of the Director of Fisheries transfer uncaught units of quota during the period of this notice.

10. Fish taken pursuant to this notice as the result of a transfer of quota must be taken in the area as described (and disposed of as described) in the permit conditions of the holder of the initial allocation.

11. The fisher may transfer catch taken pursuant to this notice to a carrier boat at sea subject to nominating the boats in advance.

12. The fisher may nominate no more than two carrier boats at any one time. Notification of boat name must be provided to the person or agency responsible for conducting quota monitoring operations.

13. Where the fisher transfers all or part of their catch to a carrier boat that portion of the catch must be accompanied by a South Australian Pilchard Fishery Log Book, completed as required by condition 16 of this notice.

14. The fisher must notify the person nominated for quota monitoring, by telephone, of the intended place of any unloading and the estimated weight of the catch at least one hour prior to the unloading taking place.

15. The fisher must provide the person nominated for quota monitoring with reasonable access to boats and vehicles for the purpose of enabling inspection of the catch and any record relating to the South Australian Pilchard Fishery Log Book required to be completed under this notice.

16. The fisher must complete the South Australian Pilchard Fishery Log Book as described below:

**(a) Unloading at a shore based processing plant:**

(i) The fisher shall complete all columns of the South Australian Pilchard Fishery Log Book **up to** but not including the column titled **PILCHARD TONNAGE CAUGHT**.

The fish can then be dispatched to the shore based processing plant. It is the responsibility of the fisher to make certain that all fish are accurately weighed within 24 hours of the consignment to the processor:

(ii) The fisher shall upon being notified by the processor of the total weight of fish unloaded complete the columns headed, **PILCHARD TONNAGE CAUGHT, OTHER SPECIES, TONNAGE CAUGHT (This refers to other species) and REMARKS**.

For any unloading, if fishing has taken place on more than one day then this should be noted and the verified weight split as close as possible to reflect the actual quantities taken on each day of fishing.

**(b) Unloading at sea or direct to a tuna cage:**

The fisher shall complete all columns of the South Australian Pilchard Fishery Log Book immediately after capture and include an **estimated** tonnage in the column marked **PILCHARD TONNAGE CAUGHT**. The estimated tonnage should be based on a recorded number of boxes of a certain capacity (weight) filled.

17. The fisher then shall either by **facsimile or in person** deliver the completed (South Australian Pilchard Fishery Log Book) form to the person nominated for quota monitoring within **48 hours** of the unloading.

18. The fisher must provide regular samples of the permitted species for research analysis and assist in any other South Australian Research and Development Institute (SARDI) sponsored pilchard fishery research program as required by the Chief Scientist, Aquatic Sciences, SARDI.

19. The fisher must complete a monthly return within 14 days of the end of the previous month and forward it to SARDI. This return must be completed regardless of whether the fisher took fish or not, i.e. nil returns are required.

20. While engaged in the permitted activity the fisher must have in his possession the copy of this notice with which the Director of Fisheries has supplied him and produce that notice to a Fisheries Compliance Officer forthwith, if and when a Fisheries Compliance Officer requests him to produce it.

21. The fisher shall not contravene or fail to comply with the Fisheries Act 1982, or any regulations made under that Act, except where specifically exempted by this notice.

## SCHEDULE 2

In waters described as **Area A**: one purse seine net having a maximum length of 600 m, a maximum depth of 100 m and a mesh size of between 16 mm and 20 mm.

In waters described as **Area B**: one purse seine net having a mesh size of between 16 mm and 20 mm.

## SCHEDULE 3

For the purposes of this notice, **Area A** is defined as:

Coastal waters within 3 nautical miles of high water mark or within 3 nautical miles to seaward of the base lines and bay closure lines described in Table 1.

For the purposes of this notice, **Area B** is defined as:

Coastal waters more than 3 nautical miles to seaward of high water mark or more than 3 nautical miles to seaward of the base lines and bay closure lines described in Table 1.

Dated 14 January 2000.

Certificate Number..... Expiry Date ..... Signed: .....

PART C Check Test herds

- C.1 I have no reason to suspect that Johne's disease is present in the herd of origin or on any land on which the animals have grazed. The property is not in quarantine or under movement restrictions on account of Johne's disease; AND
C.2 Within the last 12 months, at least 50 cattle/goats in the herd of origin being from the older age groups bred in the herd and/or introduced in the past 4 years, have been tested by a veterinarian approved for JD investigations, with negative results for Johne's disease.

Date of test:...../...../..... Previous negative tests 19.... 20.... 20.... Signed: .....

Part D Individually tested animals from Non-Assessed herds

- D.1 I have no reason to suspect that Johne's disease is present in the herd of origin or on any land on which the animals have grazed. The property is not in quarantine or under movement restrictions on account of Johne's disease; AND
D.2 The cattle/goats described in Part A above were each individually tested by a veterinarian approved for JD investigations, with negative results for Johne's disease, by either:

- [ ] faecal culture test within the previous 12 months, OR
[ ] blood test within the previous 70 days.

For cattle less than 2 years old and goats less than 1 year old, the dam must be tested.

Date of test:...../...../..... Signed: .....

Part E Declaration

I declare that all of the information I have provided in this form is true and correct.

Declared at: ..... Date...../...../..... Signed: .....

## EXPLANATORY NOTES

### **Part A - Completion of this part is required for the declaration to be valid**

Only the vendor or a person responsible for the husbandry of the cattle/goats may complete and sign this declaration. If space is insufficient to identify all cattle, attach a signed list.

Making a false or misleading statement about the disease status of cattle/goats for sale is an offence under the Trade Practices Act 1974 and relevant State legislation.

Non-assessed herd means no testing has been done on the herd to determine its JD infection status.

### **Part B CattleMAP/ GoatMAP herds Optional Completion if Applicable**

Complete this part only if all cattle/ goats described in Part A are from a herd enrolled in the Australian Johne's Disease Market Assurance Program for Cattle (CattleMAP) or Goats (GoatMAP). The herd status, certificate number and date of expiry *must* be provided.

The MN status of the herd must be indicated on the declaration, and the year in which this status was obtained must be inserted in the appropriate box.

The best assurance for purchasers concerned about Johne's disease is provided by buying cattle/ goats from herds which are participating in the CattleMAP. The higher the MN number, the better this assurance becomes.

### **Part C Check Tested herds Optional Completion if Applicable**

The following is the approved method of herd testing to obtain a Check Tested status for Johne's disease:

- The herd assessment is to be conducted by an Approved Veterinarian and is valid for a period of 12 months from the date of the testing.
- The assessment is only applicable to herds/properties where the owner/veterinarian has no reason to suspect that Johne's disease is present.
- At least 50 adult cattle/goats in the herd are to be selected for testing, following an inspection of the herd by the Approved Veterinarian. The cattle/goats tested must represent the older age groups bred in the herd, and cattle introduced into the herd. Blood samples are to be tested at an approved laboratory using the absorbed ELISA test (cattle) or the ELISA or AGID test (goats). A negative test is one where no reactors are detected, or where all reactors have been subject to two faecal cultures 3-6 months apart, or slaughtered with specimens taken and examined by histopathology and culture at an approved laboratory, with negative results for Johne's disease.

Vendor declarations based on this assessment must only be provided for the sale of cattle/goats which:

- were born and reared on the property; or
- were purchased/introduced with a Declaration of Johne's disease Status for Cattle/Goats.

Note: The negative blood testing of 50 cattle/goats in a particular herd does not ensure that the herd is JD free. Annual testing of 50 different animals in the herd increases the level of confidence that JD is not present in that herd provided negative results are always obtained. Herds allocated *Monitored Negative* status under the CattleMAP or GoatMAP have a higher level of assurance that JD is not present than do herds which are only *Check Tested*.

### **Part D Individually tested animals from Non-Assessed herds Optional Completion if Applicable**

The following criteria must be met for a herd owner to be eligible to complete Part D:

1. The cattle/goats have not, for any period during their lifetime, been in a herd or on a property where Johne's disease was known or suspected to exist.
  - If the BJD status of the property of birth or any subsequent property movements cannot be defined, Part D of the Declaration cannot be certified.
  - Johne's disease may be suspected where it has not been ruled out as a cause of chronic wasting, diarrhoea, or production loss in the herd, or where cattle/goats have been introduced from an Infected herd.
2. The cattle/goats to which the declaration applies have each been assessed for Johne's disease by an approved veterinarian, with negative results, by:
  - ELISA test (cattle) or the ELISA or AGID test (goats) on blood sampled within 70 days of the declaration, OR
  - Culture of faeces sampled within 12 months of the declaration, OR
  - In the case of cattle younger than 2 years or goats younger than 12 months, either of the above tests performed on its dam.

**Approval of assessment under Part D for movement of cattle between Zones will cease on 30 June 2000.**

### **Part E DECLARATION**

Only the vendor or a person responsible for the husbandry of the cattle/goats may complete and sign this Declaration. Stock agents cannot make this declaration on behalf of clients
