DEVELOPMENT ACT 1993, SECTION 29 (2) (b) (ii): AMENDMENT TO THE BURNSIDE (CITY) DEVELOPMENT PLAN

Preamble

It is necessary to amend the Burnside (City) Development Plan dated 26 June 2003.

NOTICE

PURSUANT to section 29 (2) (b) (ii) of the Development Act 1993, I, Trish White, being the Minister administering the Act, amend The Burnside (City) Development Plan dated 26 June 2003, as follows:

1. *Delete* Council Wide Objective 29;
2. *Insert* the contents of Attachment A;
3. Renumber the following Council Wide Objectives accordingly.
4. *Delete* Council Wide Principles of Development Control numbered 72 and 73;
5. *Insert* the contents of Attachment B; and
6. Renumber the following Council Wide Principles of Development Control accordingly.

ATTACHMENT A

Objective 29: Development which maximises the use of stormwater.

Objective 30: Development designed and located to protect stormwater from pollution sources.

Surface water (inland, marine, estuarine) and ground water has the potential to be detrimentally affected by water run-off from development containing solid and liquid wastes. Minimising and possibly eliminating sources of pollution will reduce the potential for degrading water quality and enable increased use of stormwater for a range of applications with environmental, economic and social benefits.

Objective 31: Development designed and located to protect or enhance the environmental values of receiving waters.

Objective 32: Development designed and located to prevent or minimise the risk of downstream flooding.

Objective 33: Development designed and located to prevent erosion.

Development involving soil disturbance may result in erosion and subsequently sedimentation and pollutants entering receiving waters. Design techniques should be incorporated during both the construction and operation phases of development to minimise the transportation of sediment and pollutants off-site.

ATTACHMENT B

72. Development of stormwater management systems should be designed and located to improve the quality of stormwater, minimise pollutant transfer to receiving waters, and protect downstream receiving waters from high levels of flow.

Design Techniques (Design Techniques illustrate ONE WAY of satisfying the above principle).

72.1 The integrated use of open space for appropriate recreation and stormwater management through the installation of water treatment devices such as, wetlands, aquifer storage and recovery, detention and retention basins, gross pollutant traps and trash racks.

72.2 The reservation, through land division, of drainage channels, drainage easements, watercourses and land within the 1 in 100 year flood event.

73. Development affecting existing stormwater management systems should be designed and located to improve the quality of stormwater, minimise pollutant transfer to receiving waters, and protect downstream receiving waters from high levels of flow.

Design Techniques (Design Techniques illustrate ONE WAY of satisfying the above principle).

- 73.1 The retention of natural watercourses through:

- (a) the control of development and activities within the 1 in 100 year flood event, including the placement of fill, excavation, building work, the placement of structures and fences, the storage of materials, the keeping of animals, the piping of watercourses;
- (b) the planting of local native flora along watercourses and the replacement of exotic plants.

- 73.2 The restoration of lined watercourses.

- 73.3 Maximise the road frontage onto open space areas in subdivision design.

74. Development should incorporate appropriate measures to minimise any concentrated stormwater discharge from the site.

Design Techniques (Design Techniques illustrate ONE WAY of satisfying the above principle).

- 74.1 For residential and non-residential development rainfall run-off should be retained and used as much as possible through the application of an appropriate range of the following techniques:

- (a) the collection and use of roof run-off in rain saver gutters and rainwater tanks for irrigation and internal purposes (drinking when considered safe to do so, flushing toilets, washing, and bathing);
- (b) the use of on-site detention tank/s with an appropriately sized orifice;
- (c) the direction of rainfall run-off onto landscaped areas;
- (d) the installation of appropriate soakage devices (soakage trenches or wells) having regard to the availability of unbuilt upon or unsealed areas, the ability of soils to absorb and drain water, the potential impact on building foundations and footings on or adjacent to the site, and the ability to safely direct surplus flows to a public street without causing nuisance to adjoining properties; and

- (e) the use of permeable forms of paving for public and private parking areas, open storage, display, and work areas, driveways, vehicle and pedestrian carriageways.

75. Development should incorporate appropriate measures to minimise the discharge of sediment, suspended solids, organic matter, nutrients, bacteria and litter and other contaminants to the stormwater system and may incorporate systems for treatment or use on site.

Design Techniques (Design Techniques illustrate ONE WAY of satisfying the above principle).

- 75.1 For residential and non-residential development:

- (a) rainfall run-off from the roof of any building, where not to be retained on site, is discharged directly to the street water table or to the council stormwater system and not mixed with rainfall run-off originating from surfaces such as car parks, outdoor storage areas and display areas;
- (b) rainfall run-off from ground surfaces is directed to a stormwater treatment system capable of removing litter, sediment, grease, oil and other substances capable of contaminating stormwater. Also, a high flow bypass is provided to enable water from extreme rainfall events to discharge direct to stormwater swales or to council stormwater systems. The stormwater treatment system is to discharge on site to storage; grassed swales; stone filled trenches; small infiltration basins; a constructed water feature; bores approved for aquifer recharge; or off site to the council stormwater system.

- 75.2 Wastewater from air conditioning units, cooling towers and compressors not to be discharged into any stormwater drainage system.

76. Development should not cause deleterious effect on the quality or hydrology of groundwater.

Dated 11 March 2004.

TRISH WHITE, Minister for Urban Development and Planning

ELECTRICITY ACT 1996

TXU ELECTRICITY LIMITED

Default Contract Terms and Conditions Applicable from 11 March 2004

PREAMBLE

Please note: This contract is about the sale of electricity to you as a customer at your current supply address (but only if this contract is expressed to apply to you in relation to that supply address). It does not deal with how that electricity is supplied to your supply address. You have a separate contract with your distributor dealing with the connection of your supply address to the distribution network and the supply of electricity to your supply address.

These standard terms and conditions are published in accordance with section 36 of the South Australian *Electricity Act 1996* and will come into force on 11 March 2004. When in force these standard terms and conditions will by law be binding on us and any customer to whom they are expressed to apply without the need for us or that customer to sign a document containing these terms and conditions.

1. THE PARTIES

This contract is between:

TXU Electricity Limited (ABN 91 064 651 118) of Level 33, 385 Bourke Street, Melbourne, Victoria 3000 (in this *customer sale contract* referred to as “we”, “our” or “us”); and

You, the *customer* to whom this *customer sale contract* is expressed to apply (in this *customer sale contract* referred to as “you” or “your”).

2. DEFINITIONS

Words appearing in bold type like *this* are defined in Schedule 1 to this contract.

3. DO THESE TERMS AND CONDITIONS APPLY TO YOU?

3.1 These are our terms and conditions

This document sets out our current *default contract* terms and conditions for the purposes the *Electricity Act*.

3.2 Default contracts

These terms and conditions apply to you (and as a consequence you will be deemed by section 36 of the *Electricity Act* to have a *default contract* with us) if:

- (a) you are a *small customer* in relation to your *supply address*;
- (b) you commence taking a *supply* of electricity at that *supply address* after 1 January 2003 without first entering into a *standing contract* or a *market contract* for that *supply address* with us or another *retailer*; and
- (c) we were the last *retailer* to have a contract with a *customer* for the sale of electricity for that *supply address*.

4. WHAT IS THE TERM OF THIS CONTRACT?

4.1 When does this contract start?

Your contract with us for your *supply address* will start when you first start using electricity at that *supply address*.

4.2 When does this contract end?

Subject to clause 4.3, your contract will end:

- (a) if you enter into a different *customer sale contract* with us or another *retailer* for your *supply address*;
- (b) if another *customer* enters into a *customer sale contract* with us or another *retailer* for that *supply address*;
- (c) if you have vacated or intend to vacate your *supply address*, on the day you cease to be responsible to pay for electricity supplied to that *supply address* under clause 16; or
- (d) on the day after you cease to have the right under the *Energy Retail Code* to have your *supply address* reconnected following disconnection in accordance with clause 15.

4.3 **Rights on the contract ending**

The ending of this contract does not affect any rights or obligations which have accrued under this contract prior to that time.

5. **SCOPE OF THIS CONTRACT**

5.1 **What is covered by this contract?**

This contract applies only to the sale of electricity to you at your *supply address*. We agree to sell to you electricity supplied to your *supply address* (by your *distributor*) and perform the other obligations set out in this contract.

In return, you are required to pay the amount billed by us under clause 9 of this contract, and perform your other obligations under this contract.

5.2 **What is not covered by this contract**

We do not operate the electricity network to which your *supply address* is connected. This is the role of your *distributor*.

You have a separate *connection and supply contract* with your *distributor*. Your *distributor* is responsible for:

- (a) the connection of your *supply address* to the electricity network;
- (b) the maintenance of that connection;
- (c) the *supply* of electricity to your *supply address*; and
- (d) the quality and other characteristics of electricity.

Unless you negotiate a different arrangement with your *distributor*, your *connection and supply contract* will automatically come into place by operation of law.

5.3 **Quality of electricity supplied to your supply address**

We cannot regulate the quality or reliability of electricity supplied to your *supply address*. You should also be aware that electricity suffers fluctuations and interruptions from time to time for a number of reasons, including:

- (a) the location of the *supply address*;
- (b) whether your *supply address* is served by underground or overhead mains;
- (c) the weather conditions;
- (d) animals, vegetation, the actions of vandals and other people;
- (e) the existence of emergency or dangerous conditions;
- (f) damage to an electricity network;
- (g) the design and technical limitations of the electricity network; and
- (h) the demand for electricity at any point in time.

You should understand that unexpected fluctuations or interruptions may cause damage to your equipment or cause it to malfunction. We recommend that you give careful consideration to taking out insurance or installing devices to protect your equipment and property when these fluctuations or interruptions do occur.

6. **OUR LIABILITY**

6.1 **How this clause operates with the Trade Practices Act etc.**

The *Trade Practices Act 1974 (Cth)* and other laws imply certain conditions, warranties and rights into contracts that cannot be excluded or limited.

Unless one of these laws requires it, we give no condition, warranty or undertaking, and we make no representation to you about the condition or suitability of electricity, its quality, fitness or safety, other than those set out in this contract.

Any liability we have to you under these laws that cannot be excluded but that can be limited is (at our option) limited to:

- (a) providing equivalent goods or services provided under this contract to your *supply address*; or
- (b) paying you the cost of replacing the goods or services provided under this contract to your *supply address*, or acquiring equivalent goods or services.

6.2 **Not liable**

So far as the law allows, we are not liable for any loss or damage you suffer (whether due to negligence or otherwise), because of the electricity we sell to you under this contract.

In particular, we are not liable for any loss or damage you may suffer because:

- (a) there is a failure of electricity *supply*, or there is a defect in the electricity supplied (however caused); or
- (b) some characteristic of the electricity (for example, voltage or frequency) makes it unsuitable for some purpose.

6.3 **National Electricity Law**

This clause 6 applies in addition to, and does not vary or exclude, the operation of section 78 of the National Electricity Law.

6.4 **Survival of this clause**

This clause 6 survives the termination of this *customer sale contract*.

7. **APPOINTMENTS**

We will do our best to be on time for any appointment with you. Unless due to circumstances beyond our reasonable control, if we are more than 15 minutes late we will credit your next bill with \$20 (including GST) and phone you to apologise.

8. **PRICE FOR ELECTRICITY AND OTHER SERVICES**

8.1 **What are our tariffs and charges?**

Our current tariffs and charges for the electricity and other services are set out in the *price list*. Some of the tariffs and charges are regulated by law.

Other amounts relating to the sale of electricity to you, including special meter readings, street lighting, account application fees and fixed charges for special purpose electricity sales will be separately itemised on your bill.

At your request, we must provide you with reasonable information setting out the components of the charges which appear on a bill.

8.2 **Which tariff applies to you?**

Our *price list* explains the conditions that need to be satisfied for each tariff and charge.

In some cases, you will be able to select a tariff to apply to you. In those cases, if you do not choose a tariff, we will assign one to you.

8.3 **Variations to the customer's tariffs and charges**

We may only vary our tariffs and charges in accordance with the requirements of the *Electricity Act* or other *applicable regulatory instruments* and any variation will be published on our website and in the *South Australian Government Gazette*.

If the conditions applying to our tariffs and charges change so that your previous tariff and charges no longer apply to you at your *supply address*, we can decide which tariffs and charges will apply.

8.4 **Switching tariffs**

You must tell us if your circumstances relating to your eligibility for a tariff or charge change. If you think you satisfy all of the conditions applying to another tariff or charge, you can ask us to review your current circumstances to see whether that tariff or charge can apply to you.

8.5 Changes to the tariff rates and charges during a billing cycle

If a tariff rate or charge applying to you changes during a *billing cycle*, your bill for that *billing cycle* will be calculated on a pro-rata basis using:

- (a) the old tariff or charge up to and including the date of change; and
- (b) the new tariff or charge from that date to the end of the *billing cycle*.

8.6 Changes to the tariff type during a billing cycle

If the type of tariff or charge applying to you changes during a *billing cycle*, your bill for that *billing cycle* will be calculated using:

- (a) the old tariff or charge up to and including the date of change; and
- (b) the new tariff or charge from that date to the end of the *billing cycle*.

8.7 Pass through of taxes and other charges

In some cases we can pass through to you certain taxes and other charges in accordance with *applicable regulatory instruments*. We can do this by either changing the tariffs and charges, or including the amount as a separate item in your bill.

8.8 GST

Certain amounts in this contract are (or will be) stated to be inclusive of GST. These are:

- (a) the amounts specified in our *price list* from time to time; and
- (b) the amount specified in clause 8.

Apart from these amounts, there may be other amounts paid by you or by us under this contract that are payments for “taxable supplies” as defined for GST purposes. To the extent permitted by law, these other payments will be increased so that the GST payable on the taxable supply is passed on to the recipient of that taxable supply.

Any adjustments for GST under this clause will be made in accordance with the requirements of the *Trade Practices Act 1974*.

9. BILLING

9.1 When bills are sent

We will send a bill to you as soon as possible after the end of each *billing cycle*.

If we fail to issue a bill following the end of a *billing cycle*, we will offer you the option of paying for any electricity used during the relevant *billing cycle* under an instalment plan. The maximum period of that instalment plan will be the greater of the period during which we did not bill you or twelve months.

9.2 Payments to the distributor

We will arrange for one bill to be sent to you for each *billing cycle* covering tariffs and charges due to us and those tariffs and charges due to your *distributor* under your *connection and supply contract*. We will arrange for payment to the *distributor*.

9.3 Calculating the bill

We will calculate at the end of each *billing cycle*:

- (a) the bill for electricity sold during that *billing cycle* (using information obtained from reading your meter or using an approved estimating system); and
- (b) the amount for any other services supplied under this contract during the *billing cycle*.

The bill will also include amounts due to the *distributor* under your *connection and supply contract*.

9.4 Estimating the electricity usage

If your meter is unable to be read, or your **metering data** is not obtained, for any reason (for example, if access to the meter cannot be gained, or the meter breaks down or is faulty), the amount of electricity which was purchased from us at your *supply address* may be estimated.

When your meter is subsequently read, the bill will be adjusted for the difference between the estimate and the actual amount of electricity used, based on the reading of the meter. When you have received an estimated bill due to the absence of **metering data** and a subsequent meter reading shows that you have been undercharged, we will offer you option of paying for the amount undercharged under an instalment plan.

If the meter is unable to be read due to your actions, we can bill you any charges we incur in arranging for a meter reader returning to your **supply address** to read the meter.

9.5 **How bills are issued**

We must send a bill:

- (a) to you at the address nominated by you; or
- (b) to a person authorised in writing by you to act on your behalf at the address specified by you.

9.6 **Contents of a bill**

The bill will be in a form and contain such information as is required by the *Energy Retail Code*.

10. **PAYING YOUR BILL**

10.1 **What you have to pay**

You must pay to us the amount shown on each bill by the date shown on the bill as the date for payment.

10.2 **How the bill is paid**

You can pay the bill using any of the payment methods listed on the bill. If a payment you make is dishonoured (e.g. where a cheque or credit card payment is not honoured), and we incur a fee as a result, you must reimburse us the amount of that fee.

10.3 **Late payments**

If you do not pay your bill on time, we may require you to pay our reasonable costs of recovering that amount from you. If you are a **business customer**, you may also be required to pay interest on the outstanding amount as set out in the **price list**.

This clause does not affect our right to arrange for your **supply address** to be disconnected under clause 14 of this contract.

10.4 **Difficulties in paying**

If you have difficulties paying your bill, you should contact us as soon as possible. We will provide you with information about various payment options and, where applicable, payment assistance, in accordance with the *Energy Retail Code*.

We are required by the *Energy Retail Code* to identify situations where you may be experiencing difficulties in paying your bill. In such cases, we will offer you the opportunity to pay your bill under an instalment plan and provide you with information about various payment options and, where applicable, payment assistance, in accordance with the *Energy Retail Code*.

11. **METERS**

You must allow safe and convenient access to your **supply address** for the purposes of reading the relevant meters.

12. **OVERCHARGING AND UNDERCHARGING**

12.1 **Undercharging**

We may recover from you any amount you have been undercharged.

Where you have been undercharged as a result of our error or the **distributor's** error, we can only recover the amount undercharged in the 12 months prior to the meter reading date on the last bill sent to you. We must offer you the opportunity to pay this amount in instalments over the same period of time during which you were undercharged.

12.2 **Overcharging**

Where you have been overcharged, we must tell you and follow the procedures set out in the *Energy Retail Code* for repaying the money. Where the amount overcharged is \$100 or less, and you have

already paid that amount, the amount will be credited to your next bill, or, if you have subsequently ended this contract, we will pay you that amount within 10 *business days*.

Where the amount overcharged is more than \$100, and you have already paid that amount, we must ask you whether the amount should be credited to your account, repaid to you or paid to another person, and pay the amount in accordance with your instructions within 10 *business days*.

12.3 Reviewing your bill

If you disagree with the amount you have been charged, you can ask us to review your bill. The review will be undertaken in accordance with the requirements of the *Energy Retail Code*.

If your bill is being reviewed, you are still required to pay the greater of:

- (a) the portion of the bill which you do not dispute; or
- (b) an amount equal to the average of your bills in the last 12 months.

You must also pay any future bills.

13. SECURITY DEPOSITS

13.1 Interest on security deposits

Where you have paid a security deposit, we must pay you interest on the deposit at a rate and on terms required by the *Energy Retail Code*.

13.2 Use of a security deposit

We may use your *security deposit*, and any interest earned on the *security deposit*, to offset any amount you owe under this contract or under your *connection and supply contract* with your *distributor*:

- (a) if you fail to pay a bill and, as a result, we arrange for the disconnection of your *supply address*; or
- (b) in relation to a final bill (i.e., the bill we issue when you stop buying electricity from us at your *supply address*).

13.3 Business customers

If you are purchasing electricity for business use, we may request that you increase the amount of your *security deposit* in accordance with the *Energy Retail Code*.

14. DISCONNECTION OF SUPPLY

14.1 When can we arrange for disconnection?

Subject to us satisfying the requirements in the *Energy Retail Code*, we can arrange for the disconnection of your *supply address* if:

- (a) you do not pay your bill by the last day for payment and, in the case of *residential customers*, you refuse to agree to an instalment plan or payment option offered by us;
- (b) you fail to comply with the terms of an agreed instalment plan or payment option;
- (c) you use electricity illegally or breach clause 17 of this contract;
- (d) we are otherwise entitled or required to do so under the *Energy Retail Code* or by law.

You should be aware that there are other circumstances in which your *distributor* can arrange for disconnection under your *connection and supply contract*, such as in cases of emergency or for safety reasons. These are detailed in your *connection and supply contract*.

14.2 Comply with the Energy Retail Code

We must comply with the provisions of the *Energy Retail Code* (such as giving you the required notices and warnings) before arranging for the disconnection of your *supply address*.

15. RECONNECTION AFTER DISCONNECTION

If you request us to arrange reconnection of your *supply address* and you pay to us all of our and the *distributor's* reconnection charges in advance, we will arrange for the reconnection of your *supply address*.

We may refuse to arrange reconnection and terminate your *customer sale contract* if we are allowed to do so under the *Energy Retail Code* (such as where the circumstances leading to your disconnection have not been fixed within a period of 10 *business days* after the date on which you were disconnected).

16. VACATING A SUPPLY ADDRESS

You must give us at least 3 *business days*' notice of your intention to vacate your *supply address*, together with a forwarding address for your final bill.

When we receive the notice, we must use our *best endeavours* to arrange that the relevant meters are read on the date specified in your notice (or as soon as possible after that date if you do not provide access to your meter on that date) and send a final bill to you at the forwarding address stated in your notice.

If you do not provide the required notice, or if you do not provide access to your meter, you will be responsible for all electricity purchased at the *supply address* until:

- (a) we become aware that you have vacated your *supply address* and the relevant meters have been read; or
- (b) you give us the required notice; or
- (c) someone else commences purchasing electricity from us or another *retailer* for that *supply address*.

17. USE OF ELECTRICITY AND ILLEGAL USE

17.1 Use of electricity

You must not:

- (a) allow electricity purchased from us to be used other than in accordance with this contract or the *Energy Retail Code*; or
- (b) tamper with, or permit tampering with, any meters or associated equipment.

17.2 Illegal use

If you have breached clause 17.1 of this contract, we may, in accordance with the *Energy Retail Code*:

- (a) estimate the amount of the electricity so obtained and bill you or take debt recovery action against you for that amount; and
- (b) arrange for the immediate disconnection of your *supply address*.

18. INFORMATION WE NEED

You must provide us with all information we reasonably require for the purposes of this contract. All information must be correct. We have rights under the *Electricity Act* and the *Energy Retail Code* if information you provide is incorrect. You must tell us if information you have provided to us changes (for example, if your address changes, or the purpose for which you are buying electricity changes).

19. WE CAN AMEND THIS CONTRACT

We can only amend our contract with you in accordance with the *Electricity Act* and the requirements of the *Energy Retail Code*. Any amendment will take effect from the date referred to in the *South Australian Government Gazette*.

20. NOTICES

Unless this document or the *Energy Retail Code* says otherwise (for example, where phone calls are allowed), all notices must be sent in writing. We can send to you notices at the address at which you buy electricity from us or the most recent address that we have for you. If a notice is sent by post, we can assume that you have received the notice on the second *business day* after it was sent.

21. PRIVACY AND CONFIDENTIALITY

21.1 Privacy of information

Subject to clauses 21.2 and 25 of this contract we must keep your information about you confidential.

21.2 Disclosure

We may, however, disclose information about you:

- (a) if required or permitted by law to do so;
- (b) if we are required or permitted by our licence to do so, such as to a law enforcement agency;
- (c) where you give us written consent; or
- (d) to your *distributor* or a metering provider to the extent that information is for the purposes of arranging connection, disconnection, reconnection, testing of a meter and billing.

22. QUERIES AND COMPLAINTS

If you have a query or a complaint relating to the sale of electricity by us to you, or this contract generally, you may contact us as follows (as updated and notified to you from time to time):

TXU Retail	Telephone
Customer service and account enquiries	133 466
Supply and maintenance (24 hours)	131 366
Telephone interpreter service	131 450

23. FORCE MAJEURE

23.1 Effect of force majeure event

If, but for this clause 23, either party would breach this contract due to the occurrence of a *force majeure event*:

- (a) the obligations of the party under this contract, other than any obligation to pay money, are suspended to the extent to which they are affected by the *force majeure event* for so long as the *force majeure event* continues; and
- (b) the affected party must use its *best endeavours* to give the other prompt notice of that fact including full particulars of the *force majeure event*, an estimate of its likely duration, the obligations affected by it and the extent of its effects on those obligations and the steps taken to remove, overcome or minimise those effects.

23.2 Deemed prompt notice

For the purposes of this clause 23, if the effects of a *force majeure event* are widespread we will be deemed to have given you prompt notice if we make the necessary information available by way of a 24 hour telephone service within 30 minutes of being advised of the *force majeure event* or otherwise as soon as practicable.

23.3 Obligation to overcome or minimise effects of force majeure event

Either party relying on this clause 23 by claiming a *force majeure event* must use its *best endeavours* to remove, overcome or minimize the effects of that *force majeure event* as quickly as practicable.

23.4 Settlement of industrial disputes

Nothing in this clause 23 will require either party to settle an industrial dispute which constitutes a *force majeure event* in any manner other than the manner preferred by that party.

23.5 Non-exclusion of National Electricity Law

Nothing in this clause 23 varies or excludes the operation of section 78 of the National Electricity Law.

24. APPLICABLE LAW

We, as your *retailer*, and you, as our customer, agree to comply with any applicable requirements of any codes or guidelines issued by the *Commission* from time to time.

The laws of South Australia govern this contract.

25. LAST RESORT EVENT

If we are no longer entitled under the *Electricity Act* to sell electricity to you due to a *last resort event* occurring in relation to us, we are required by the *Energy Retail Code* to provide your name, billing address and *NMI* to the electricity entity appointed as the retailer of last resort under the *Electricity Act* and this contract will come to an end.

NOTE:

A person served with this subpoena is entitled to receive, a reasonable time before the day on which that person is to attend Court, payment of a sufficient sum to meet the reasonable expenses of the attendance. Disobedience of the subpoena may result in conviction for contempt of court and liability to imprisonment or other punishment. An explanation of how to comply with the subpoena is attached.

EXPLANATORY NOTES

1. This document is called a subpoena. It requires you to attend at court to give evidence (and/or to produce documents) to the Court.
2. If you do not understand what you must do, or if you do not wish to, or cannot, comply with it, you should consult a lawyer about it as soon as possible. The subpoena is only valid if it is served within 12 weeks of the date of its issue.
3. If this subpoena only requires the production of documents or things, you may comply with it by delivering all of the documents or things to the Registrar of the Court at [address] not less than 24 hours before the time and date referred to in the subpoena. If you do that, you do not have to attend at the time shown in the subpoena. You should only so deliver the documents or things to the Registrar if you have all the documents and things referred to in the subpoena and if you have no objection to producing them to the Court and to them being inspected by the parties to the action. If you do deliver documents or things to the Registrar, they should be securely packaged and **CLEARLY MARKED WITH THE ACTION NUMBER AND THE NAMES OF THE PARTIES AS APPEARING ON THE HEADING TO THE SUBPOENA AND WITH YOUR NAME AND ADDRESS.**
4. If the subpoena requires you to attend to give evidence, the progress of the hearing may be such that you will not be called to give your evidence until after the time shown on the subpoena. If you do not wish to wait outside the courtroom until it is your turn to give evidence, you can contact the solicitor who issued this subpoena (whose name, address and telephone number appear on the front sheet). That solicitor may be able to arrange a later time for you to attend. Otherwise you *must* attend at the date and time shown.
5. When you attend at Court, you will need to locate the room in the Court building where the hearing is taking place and how to get to that room. That room may not be known until shortly before you have to attend. You can find this out either by contacting the solicitor who issued this subpoena, or by inquiry at the Registry Office of the Court, or the reception desk of the Court building. You may be able to obtain some information by telephoning the Court Registry on [telephone number].
6. **PURSUANT TO THE RULES OF COURT, YOU WILL BE TAKEN TO HAVE WAIVED ANY OBJECTION TO THE PRODUCTION OF ANY DOCUMENT OR THING WHETHER ON THE GROUND OF LEGAL PROFESSIONAL PRIVILEGE OR ANY OTHER GROUND, IF YOU DELIVER THE DOCUMENT OR THING TO THE REGISTRAR, RATHER THAN TO THE COURT ON THE DATE SPECIFIED ABOVE (THE RETURN DATE). IF YOU CLAIM TO BE ENTITLED TO RESIST, ON ANY GROUND, PRODUCTION OF ANY DOCUMENT OR THING, OR ITS INSPECTION BY ANY PARTY TO THE PROCEEDINGS, YOU MUST ATTEND BEFORE THE COURT ON THE RETURN DATE, WHEN YOU WILL BE GIVEN AN OPPORTUNITY TO EXPLAIN YOUR OBJECTION.**
7. In addition to your reasonable expenses of attending at Court you are also entitled to be paid by the party issuing the subpoena your reasonable expenses incurred in complying with the subpoena, including an appropriate witness fee. If you need all, or some, of these expenses to be paid *before* you comply with this subpoena, you should contact the solicitor issuing it about the matter.

WATER RESOURCES ACT 1997

Notice of Intent to Prescribe additional areas in the Mallee by varying the Regulation declaring the Mallee Prescribed Wells Area, pursuant to section 8 of the Water Resources Act 1997

I, JOHN DAVID HILL, Minister for Environment and Conservation in the State of South Australia, hereby give notice that I propose to recommend to the Governor that she vary the proclamation, made under section 41 of the Water Resources Act 1976 on 28 July 1983, which came into effect on 1 August 1983, and as varied on 9 January 1986 (page 19), by deleting clause 1 and replacing it with the following clause 1:

1. Declare the area of the State delineated in GRO Plan No. 531/2003 shall be a Prescribed Wells Area for the purpose of the said Act, such area to be known as the 'Mallee Prescribed Wells Area'.

I propose that in all other respects the proclamation remain the same.

The proposed area delineated in GRO Plan No. 531/2003 is illustrated in the following map.

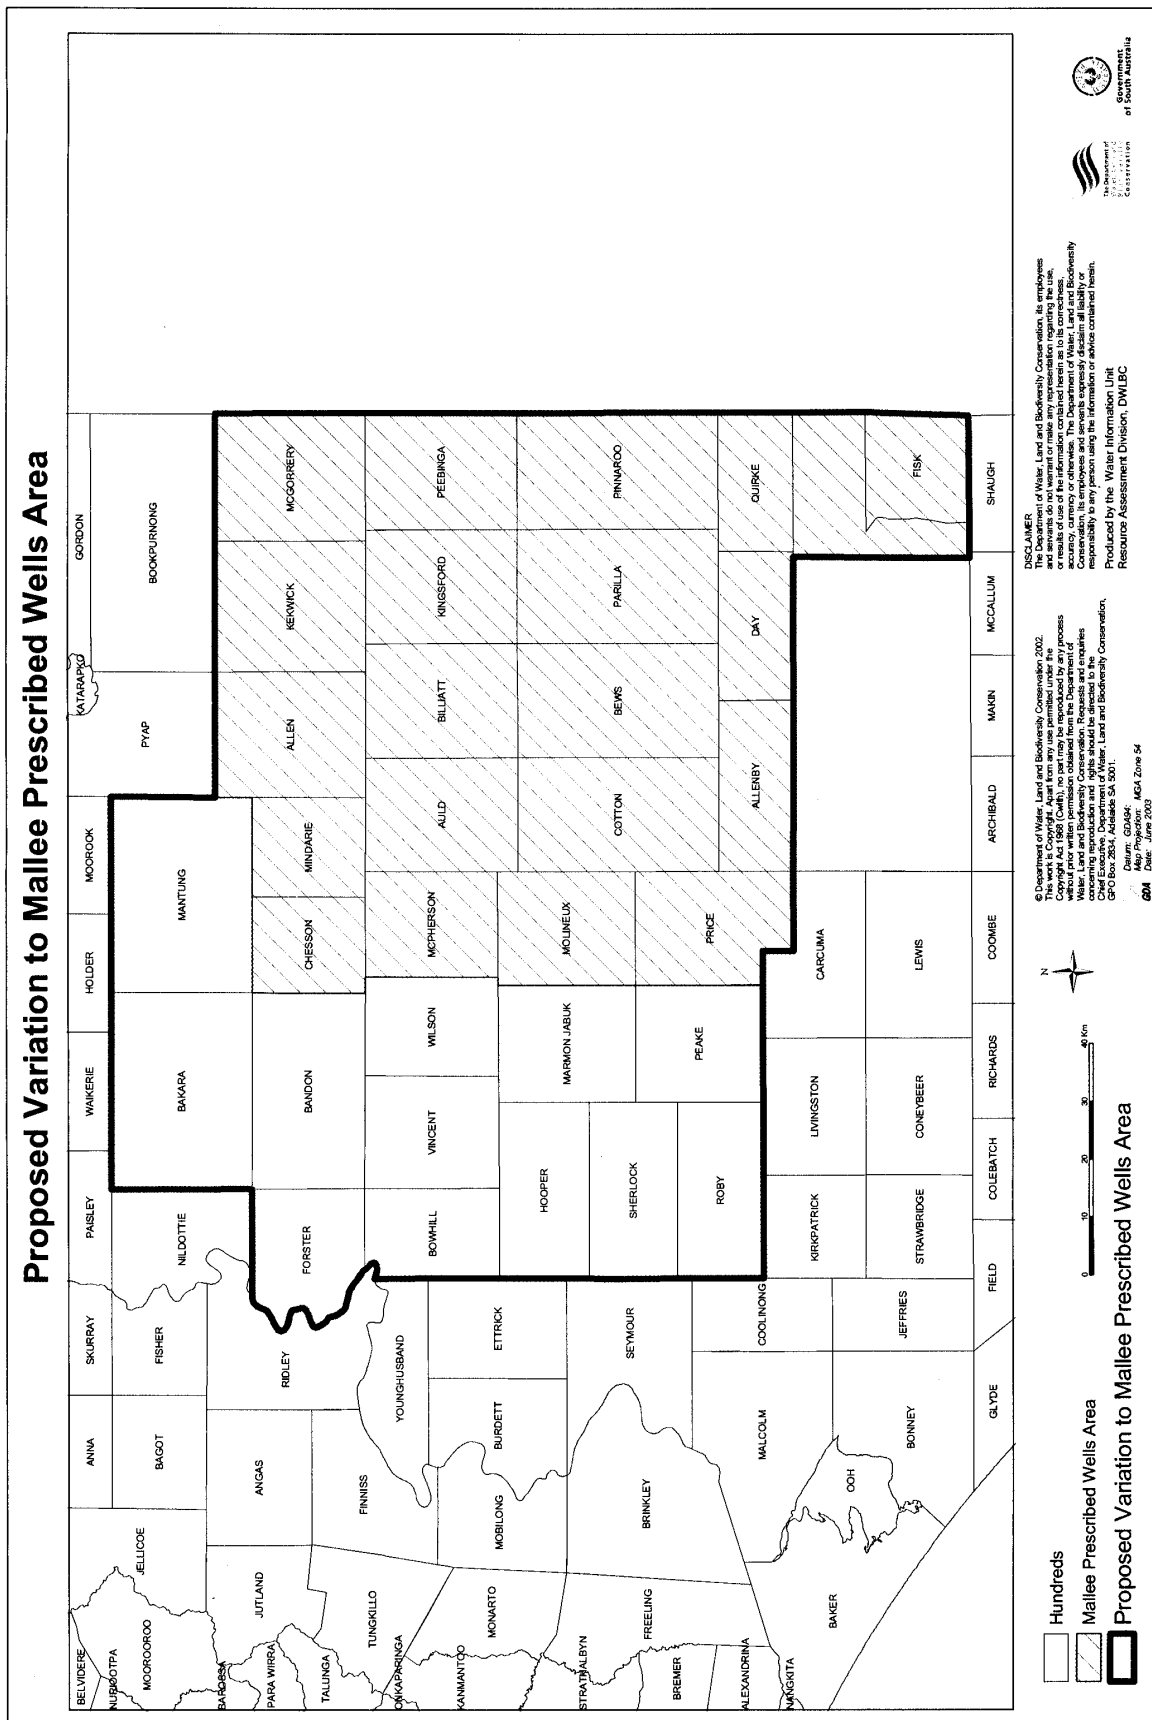

The variation of the proclamation will incorporate the Hundreds of Peake, Roby, Sherlock, Bandon, Wilson, Marmon Jabuk, Vincent, Hooper, Mantung, Bakara, Forster and Bowhill. The reason for incorporating these Hundreds is due to increasing pressure from irrigation and other development, which may not be sustainable without introduction of controls over water resource use. The inclusion of these Hundreds within the Mallee Prescribed Wells Area will ensure that all extraction from the aquifer systems are subjected to the same conditions of use as will be set out in a water allocation plan and enable the underground water resources of the region to be managed and used in accordance with the Object of the Water Resources Act 1997.

I invite all interested persons to make written submissions to me in relation to this proposal by 18 June 2004.

The submissions should be addressed to:

The Minister for Environment and Conservation
c/o Sharon Wyatt
Catchment Management Officer
NRM Support
Department of Water, Land and Biodiversity Conservation
G.P.O. Box 2834
Adelaide, S.A. 5001
Telephone (08) 8463 6860

A map of the proposed variation to the Mallee Prescribed Wells Area can be obtained from Sharon Wyatt.

Dated 9 March 2004.

JOHN HILL, Minister for Environment and Conservation
