- is such that the quantity of water available can no longer meet the demand; and
- is such that there is a risk that the available water will not be sufficient to meet future demand; and
- is affecting the quality of water in the watercourse;

hereby restrict the taking of water from the River Murray Prescribed Watercourse in the manner and subject to the conditions specified in Schedule 2.

SCHEDULE 1

The River Murray Prescribed Watercourse established by proclamation under the Water Resources Act 1976 and continued in existence as if it had been proclaimed under the Water Resources Act 1990 and continued as a regulation under the Water Resources Act by virtue of clause 2 (1) (a) of Schedule 3 of the Water Resources Act 1997, and described in the General Registry Office Plan No. 926/78, sheets 1 to 13.

2. An authorisation terminates according to its terms, or upon expiry or revocation of this Notice, whichever is the earliest.

3. An authorisation under this Notice may be granted as follows:

- (a) To a person holding a water licence endorsed with a water (taking) allocation to take water from the River Murray Prescribed Watercourse entitling that person to take a quantity of water equivalent to 70% of the water (taking) allocation endorsed on the water licence, excluding water allocations for the purposes specified in clause 7 and subject to the provision of clause 4.

- (d) To a person who during the period of this Notice, receives approval to convert a water (holding) allocation to a water (taking) allocation under the Water Resources Act 1997 entitling that person to take a quantity of water equivalent to 70% of the water (taking) allocation endorsed on the water licence after conversion, excluding water allocations for purposes specified in clause 7 and subject to the provision of clause 4.

4. Where a water allocation is transferred to the State of South Australia for taking purposes from interstate the total volume transferred may be taken by the transferee.

5. The following condition applies to the taking of water in accordance with this Notice:

- The water may only be taken through a meter that accurately measures the quantity of water taken and is at all times in good working condition, unless water is taken to irrigate reclaimed land within the Lower Murray Reclaimed Irrigation Management Zone as defined in the Water Allocation Plan for the River Murray Prescribed Watercourse adopted on 1 July 2002.

6. An authorisation granted under this Notice will terminate if the person to whom the authorisation was granted no longer holds a licence endorsed with a water (taking) allocation.
