WATER CONSERVATION ACT 1936

Rates for Supply by Agreement

IN relation to agreements for the supply of water pursuant to Section 19 of the Water Conservation Act 1936, I fix the rates payable in respect of the 2011-2012 financial year under agreements to which that section applies as set out in the Schedule.

For the purposes of determining, levying or collecting the water rates to be paid in any case, any component of the water rates that relate to the volume of water supplied to land over any particular period may, depending on:

- (a) when meters are read; or
- (b) the form or nature of the component of any of the rates,
be calculated on a *pro rata* basis.

Any determination, calculation or adjustment of any amount (whether in the nature of a water rate or in relation to the supply of water) over or in respect of any period or on a *pro rata* basis may assume that water has been supplied at a uniform daily rate over any relevant period.

SCHEDULE

Quarterly rate payable \$117.30

and

Additional water rates payable for water supplied to or in relation to land and standpipes during a relevant period in the financial year commencing on 1 July 2011 and ending on 30 June 2012, as determined by the timing of quarterly meter readings:
