QUARTERLY STATEMENT**

**for the**

**THREE MONTHS ended on  
30 SEPTEMBER 2012 and 30 SEPTEMBER 2011**

**GOVERNMENT OF SOUTH AUSTRALIA****COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO  
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS ENDED  
30 SEPTEMBER 2012 AND 30 SEPTEMBER 2011*****Receipts******Taxation***

September quarter land tax receipts are typically low compared to the full year estimate as they mainly comprise the final instalment of the previous year's land tax assessment for taxpayers that chose to pay in quarterly instalments. Land tax collections for the September quarter 2012 are broadly consistent with budget expectations.

Higher payroll tax receipts for the September quarter 2012 compared with the same period a year ago mainly reflects the impact of the abolition of the exemption from payroll tax for the wages of eligible trainees and apprentices from 1 July 2012.

Stamp duty receipts for the September quarter 2012 were lower than the same period a year ago reflecting the timing of receipts relating to stamp duty on motor vehicle registrations and transfers and renewal certificates for Compulsory Third Party insurance from the Department of Transport, Planning and Infrastructure (which relate to the 2010-2011 financial year) and the impact of a softer property market on conveyance duty receipts.

***Contributions from State Undertakings***

Contributions from State Undertakings were lower in the September quarter 2012 than in the September quarter mainly due to timing variances in the receipt of income tax equivalents from SA Water.

***Royalties***

Royalty receipts were higher in the September quarter 2012 than in the September quarter 2011 mainly due to timing variances in the receipt of some mineral related royalties and higher production of petroleum. Petroleum production was affected by restrictions in the Cooper Basin during 2010 and 2011, caused by flooding.

***Fees and charges***

Fees and Charges were lower in the September quarter 2012 than in the September 2011 quarter due to the timing of receipt of guarantee fees earned.

***Commonwealth—General Purpose Grants***

Growth in general purpose grants between the first quarter of 2012-2013 and the corresponding quarter for 2011-2012 is not indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government at the commencement of a financial year rather than in accordance with the actual emerging monthly GST collections.

In its 2012-2013 Mid-Year Economic and Fiscal Outlook, the Commonwealth Government estimates that the GST pool available for distribution to the states will grow by 4.8 per cent in 2012-2013.

### *Commonwealth—National Partnership Payments*

National Partnership (NP) payments were lower in the September quarter 2012 than in the September quarter 2011 mainly due to a new NP Agreement being negotiated for the concessions for pensioners. This new NP Agreement is expected to be finalised by the Commonwealth shortly which will result in payments being made in the last half of the 2012-2013 financial year.

### *Commonwealth—Specific Purpose Grants*

Specific Purpose Payments (SPP) for the September quarter 2012 were lower than the same period last year due mainly to the National Healthcare SPP which is now being paid directly to the Department of Health, rather than into the Consolidated Account.

### **Payments**

Payments were made pursuant to the *Appropriation Act 2012* and also in accordance with other Acts for which specific appropriation has been authorized. The timing of payments is based on agreed drawdown schedules, and may change from period to period depending on specific agency requirements.

Payments made from the Consolidated Account, for the September quarter, were lower than the same period in 2011-2012 due mainly to the timing of the past service superannuation payment.

### **Note**

Caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. Also, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, the timing of receipts and payments could be volatile within a particular year. As a result, apparently large movements between years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.

**GOVERNMENT OF SOUTH AUSTRALIA****COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO  
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS ENDED  
30 DECEMBER 2012 AND 30 DECEMBER 2011*****Receipts******Taxation***

Gambling tax receipts in the first six months of 2012-2013 are lower than the same period a year ago reflecting lower receipts from the casino, partially offset by higher receipts from gaming machines in hotels and clubs.

Land tax receipts for the December quarter 2012 are higher than the same period a year ago reflecting the timing of land tax payments made by the private sector. Some land tax payers pay their land tax in one instalment (usually the December or March quarter) while others make quarterly payments. Land tax receipts for 2012-13 are expected to be broadly in line with 2011-2012.

Higher payroll tax receipts for the December quarter 2012 compared with the same period a year ago reflect growth in taxable payrolls.

Stamp duty receipts were higher in the December quarter 2012 compared to the same period a year ago reflecting the timing of several large transactions, including duty on the sale of the SA Lotteries sub-licence and the forward sale of the forest rotations in the South East.

***Royalties***

Royalties were higher in the December quarter 2012 compared to the December quarter 2011 mainly due to higher petroleum royalty receipts from higher production in the Cooper Basin.

***Fees and charges***

Fees and charges were higher in the December quarter 2012 compared to the December quarter 2011 due to higher regulator fees from Land Services Group.

***Commonwealth—General Purpose Grants***

Growth in general purpose grants between the first quarter of 2012-2013 and the corresponding quarter for 2011-2012 is not indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government at the commencement of a financial year rather than in accordance with the actual emerging monthly GST collections.

In its 2012-2013 Mid-Year Economic and Fiscal Outlook, the Commonwealth Government estimated that the GST pool available for distribution to the states will grow by 4.8 per cent in 2012-2013.

***Commonwealth—Specific Purpose Grants***

Specific Purpose Payments (SPP) for the December quarter 2012 were lower than the same period in 2011 due mainly to the National Healthcare SPP which is now being paid directly to the Department of Health, rather than into the Consolidated Account.

*Commonwealth—National Partnership Payments*

National Partnership (NP) payments were lower in the December quarter 2012 than in the December quarter 2011 mainly due to a new NP Agreement being negotiated for the concessions of pensioners. This new NP agreement is expected to be finalised by the Commonwealth shortly which will result in payments being made in the last half of the 2012-2013 financial year.

*Commonwealth—Specific Purpose Payments*

Specific Purpose Payments (SPP) for the December quarter 2012 were lower than the same period last year due mainly to the National Healthcare SPP which is now being paid directly to the Department of Health rather than into the Consolidated Account.

*Other receipts*

Other receipts were higher in the December quarter 2012 compared to the December quarter 2011 due to the proceeds from the sale of Forestry SA and SA Lotteries.

**Payments**

Payments were made pursuant to the *Appropriation Act 2012* and also in accordance with other Acts for which specific appropriation has been authorized. The timing of payments is based on agreed drawdown schedules, and may change from period to period depending on specific agency requirements.

Payments made from the Consolidated Account, for the December quarter, were lower than the same period in 2011-2012 due mainly to the timing of the past service superannuation payment.

**Note**

Caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. Also, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, the timing of receipts and payments could be volatile within a particular year. As a result, apparently large movements between years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.
