BUILDING WORK CONTRACTORS ACT 1995

Exemption

TAKE notice that, pursuant to section 45 of the *Building Work Contractors Act 1995*, I, John Doran as a delegate for the Attorney-General, do hereby exempt the licensee named in Schedule 1 from the application of Division 3 of Part 5 of the above Act in relation to domestic building work described in Schedule 2 and subject to the conditions specified in Schedule 3.

SCHEDULE 1

Mr Paul Nicholas (BLD 279725)

SCHEDULE 2

Construction of a swimming pool and a safety pool fence at Allotment 65, Deposited Plan 9881, in the area named West Lakes Shore, Hundred of Yatala being a portion of the land described in Certificate of Title Volume 5248 Folio 881, more commonly known as 3 Noosa Place, West Lakes Shore SA 5020.

SCHEDULE 3

1. This exemption is limited to domestic building work personally performed by the licensee in relation to the building work described in Schedule 2.
2. This exemption does not apply to any domestic building work the licensee contracts to another building work contractor, for which that contractor is required by law to hold building indemnity insurance.
3. That the licensee does not transfer his interest in the land prior to five years from the date of completion of the building work the subject of this exemption, without the prior authorisation of Consumer and Business Services (CBS). Before giving such authorisation, CBS may require the licensee to take any reasonable steps to protect the future purchaser(s) of the property, including but not limited to:
 - Providing evidence that an adequate policy of building indemnity insurance is in force to cover the balance of the five-year period from the date of completion of the building work the subject of this exemption;
 - Providing evidence of an independent expert inspection of the building work the subject of this exemption;
 - Making an independent expert report available to prospective purchasers of the property;
 - Giving prospective purchasers of the property notice of the absence of a policy of building indemnity insurance.

DEVELOPMENT ACT 1993

SECTION 48

Decision by the Delegate of the Minister for Planning

Preamble

1. On 23 December 2013 notice of the Governor’s decision to grant a development authorisation under section 48 of the Development Act 1993, in respect of an upgrade to the Port Pirie Smelter by Nyrstar Port Pirie Pty Ltd, was published in the *South Australian Government Gazette* at p 5268.
2. Simultaneously, the Governor delegated his power to grant a variation to the Port Pirie Smelter upgrade development authorisation to the Minister for Planning pursuant to section 48 (8) of the Development Act 1993.
3. Variations to the authorisation were notified in the *South Australian Government Gazette* on 2 April 2015 at p 1351 (related to the relocation of the new oxygen plant) and 6 August 2015 at p 3715 (related to modifications to the design of the TSL furnace building).
4. By letter dated 16 November 2018, Nyrstar Port Pirie Pty Ltd, being the beneficiary of the development authorisation, sought a variation to the authorisation so as to permit the construction of a new Paragoethite and Lead Sulphate Leach Concentrate Storage Pad.

5. I am satisfied that the Public Environmental Report and Assessment Report prepared in relation to the Major Development are appropriate and have had regard, when considering the proposed Major Development variation, to all relevant matters under section 48 (5).
6. For ease of reference the delegate of the Minister for Planning has decided to revoke all conditions and substitute therefore the conditions contained herein. Conditions that pertain to the variation have been added to Condition 1 and additional Conditions 14 and 15.

Decision

Pursuant to Section 48 (7) (b) (ii) of the Development Act 1993, and having due regard to the matters set out in Section 48 (5) and all other relevant matters, the Minister for Planning exercising the power of the Governor delegated by notice in the South Australian Government Gazette dated 23 December 2013 pursuant to section 48 (8), varies the Nyrstar Port Pirie Pty Ltd Port Pirie Smelter upgrade development authorisation dated 6 August 2015, in accordance with the following conditions:

CONSOLIDATED VERSION OF CONDITIONS OF AUTHORISATION

1. The proponent shall carry out the development generally in accordance with the:
 - (a) Development Application, prepared by Parsons Brinkerhoff Australia Pty Ltd on behalf of Nyrstar, dated March 2013, except as varied by the conditions listed below or to the extent that they are varied by the plans and drawings described in paragraphs 1 (d - f);
 - (b) Public Environmental Report, prepared by COOE Pty Ltd (and Associates) on behalf of Nyrstar Port Pirie, dated August 2013, except as varied by the conditions listed below or to the extent that they are varied by the plans and drawings described in paragraphs 1 (d - f);
 - (c) Response Document prepared by COOE Pty Ltd (and Associates) on behalf of Nyrstar Port Pirie Pty Ltd, dated October 2013, except as varied by the conditions listed below or to the extent that they are varied by the plans and drawings described in paragraphs 1 (d - f);
 - (d) The drawing contained in the letter from Nyrstar dated 24 November 2014, except as varied by the conditions listed below or to the extent that they are varied by the plan and drawing described in paragraphs 1 (e - f);
 - (e) The plan and drawing contained in the letter from Nyrstar dated 8 April 2015, except as varied by the conditions listed below or to the extent that they are varied by the plan and drawing described in paragraph 1 (f); and
 - (f) The plans and drawings contained in the letter from Nyrstar titled 'Application for Development Authorisation Variation – Lined pad for storing Paragoethite and Lead Sulphate Leach Concentrate', dated 16 November 2018.
2. The proponent shall prepare final engineering designs for the cooling water intake structure (and associated infrastructure) and the cooling water discharge pipeline and diffuser structure (and associated infrastructure) for approval by the Minister for Planning, prior to construction commencing. These designs shall demonstrate predicted dilution to meet EPA temperature criteria and shall be prepared in consultation with the Department for Environment, Water and Natural Resources and to the satisfaction of the Environment Protection Authority.
3. Once the cooling water discharge diffuser structure has been constructed and is operating, the achieved discharge dilution rate shall be field validated to test achievement of modelled predictions, including under worst case scenarios (such as a summer dodge tide with no wind).
4. The proponent shall undertake further air quality modelling and monitoring to validate modelled predictions, to the satisfaction of the Environment Protection Authority (EPA), as follows (unless modified by the EPA through future EPA licence conditions):
 - (a) Additions to the current air quality monitoring network (together with the existing network) shall collect data for a minimum period of 12 months before start-up of new equipment, during commissioning of new equipment and for 12 months after new equipment is fully operational, including:
 - (i) Continuing to operate High Volume Air Samplers in the sector of dominant wind (i.e. to the north-west of the smelter);
 - (ii) Establishment of a sulphur dioxide (SO₂) monitor on the western side of Port Pirie (such as a location at the Pirie West Primary School); and
 - (iii) Establishment of one continuous (i.e. 'real-time'), mobile lead monitor, together with relevant meteorological monitoring, to be used on a campaign basis at locations determined in consultation with the EPA, to aid in event recognition, source reconciliation and for process management (i.e. for site performance improvement).
 - (b) The proponent shall quantify the reduction in PM₁₀ levels by developing and implementing a monitoring plan for PM₁₀ before, during and after construction.
5. The proponent shall prepare final detailed plans for the development (drawings, cross-sections and elevations), to the satisfaction of the EPA, for approval by the Minister for Planning, prior to construction commencing.
6. For the purposes of Section 48 (11) (b) of the Development Act 1993, the proponent shall commence the development by substantial work on the site of the development by 23 December 2015, which represents two years from the date of the original authorisation.
7. The proponent shall have completed the development by 23 December 2018 which represents five years from the date of the original authorisation, failing which this authorisation may be cancelled.
8. No building work shall be undertaken unless the work has been certified by a private certifier, the Port Pirie Regional Council or by some person determined by the Minister for Planning, as complying with the provisions of the Building Rules (or the Building Rules as modified according to criteria prescribed by the Regulation). For the purposes of this condition 'building work' does not include plant and equipment or temporary buildings that are not permanently attached to the land.
9. Final engineering designs structures and equipment not covered by the provisions of the Building Rules shall be prepared and independently certified by a registered engineer, to the satisfaction of the Department of Planning, Transport and Infrastructure (Planning Division). A certificate as to the structural soundness of the proposed structures shall be submitted to the Department of Planning, Transport and Infrastructure (Planning Division), prior to the commencement of construction.
10. The oxygen plant must be designed and constructed to ensure that the predicted noise from all plant, equipment and processes does not exceed:
 - (a) 35dB(A) L_{eq} between 10pm and 7am; and
 - (b) 60dB(A) L_{max} between 10pm and 7am at the nearest noise sensitive receivers in the Residential Zone when measured and adjusted (where relevant) in accordance with the Environment Protection (Noise) Policy 2007.

11. The proponent shall prepare a Construction Environmental Management Plan 'CEMP', to the satisfaction of the Environment Protection Authority and in consultation with an EPA accredited Site Contamination Auditor, the Department of Planning, Transport and Infrastructure (Transport Services) and the Port Pirie Regional Council, for approval by the Minister for Planning prior to the commencement of any construction or demolition works. The CEMP must include an Earth Moving Plan (including dust suppression), a Demolition Plan, a Dredging Management Plan, a Soil Erosion and Drainage Management Plan 'SEDMP', a Material Handling Procedures, a Waste Management and Recycling Plan, a Groundwater Management and Monitoring Plan and a Traffic Management Plan. The matters to be addressed in the CEMP shall generally include, but shall not be limited to, the management, mitigation, and monitoring of, and corrective actions/contingency plans in relation to the following matters:
 - dust and sediment control;
 - odour emissions;
 - surface and ground water management;
 - site contamination;
 - waste management (for all waste streams) and overall site clean-up (including litter);
 - use and storage of chemicals, oil, construction-related hazardous substances and of other materials that have the potential to contaminate stormwater, groundwater or the marine environment (including emergency responses);
 - noise emissions (including ongoing noise assessment and monitoring to ascertain the effectiveness of noise control measures);
 - Aboriginal heritage requirements in accordance with the Aboriginal Heritage Act 1988;
 - vegetation clearance;
 - introduced plants and animals (including marine species);
 - impacts on seagrass and marine flora;
 - impacts on the marine environment (especially noise, erosion and turbidity);
 - traffic management strategies;
 - effect on existing infrastructure;
 - impacts on adjacent land users;
 - site security, fencing and safety and management of impacts on local amenity for residents, traffic and adjacent land users;
 - periods and hours of construction and operation in accordance with the requirements of the Environment Protection (Noise) Policy 2007; and
 - community complaints register regarding the above matters.
12. The proponent shall prepare an Operations Environmental Management Plan 'OEMP' for the operational phase of the development, to the satisfaction of the Environment Protection Authority and in consultation with the Department of Planning, Transport and Infrastructure (Transport Services) and the Port Pirie Regional Council, for approval by the Minister for Planning prior to the operation of new plant. The OEMP must include an Air Quality Management Strategy, a Community Health Management Strategy, a Community Amenity Management Strategy, a Natural Resources Management Strategy, an Odour Management Strategy, a Sub-surface Quality Management Strategy, a Surface Water Quality Management Strategy, a Groundwater Management Strategy, a Visual Amenity Management Strategy and a Traffic Management Plan. The matters to be addressed in the consolidated OEMP shall generally include the management, mitigation, and monitoring of, and corrective actions/contingency plans in relation to impacts related to the operation of the upgraded smelter facility.
13. All works and site activities shall be undertaken in accordance with the approved Construction Environmental Management Plan 'CEMP' and Operations Environmental Management Plan 'OEMP'.
14. The Operations Environmental Management Plan (OEMP) must be amended, or a new OEMP prepared, to include the operation of the Paragoethite and/or Lead Sulphate Leach Concentrate lined storage pad.
15. Paragoethite and/or Lead Sulphate Leach Concentrate must not be stored or stockpiled on the lined storage pad until an 'As Constructed Report' has been prepared to the reasonable satisfaction of the EPA.

NOTES TO PROPONENT

1. In respect of Condition (2), the cooling water intake structure should be designed to have an intake velocity as close as possible to 0.2 metres/second, but no greater than 0.6 metres/second in order to minimise entrainment and entrapment of marine organisms as far as practicable. Where 0.2 metres/second cannot be achieved, the proponent should provide the rationale for the engineering designs.
2. Pursuant to Development regulation 64 of the Development Regulations 2008, the proponent is advised that the Port Pirie Regional Council or private certifier conducting a Building Rules assessment must-
 - (a) provide to the Minister a certification in the form set out in Schedule 12A of the Development Regulations 2008 in relation to the building works in question; and
 - (b) to the extent that may be relevant and appropriate:
 - (i) issue a Schedule of Essential Safety Provisions under Division 4 of Part 12;
 - (ii) assign a classification of the building under these regulations; and
 - (iii) ensure that the appropriate levy has been paid under the *Construction Industry Training Fund 1993*.

Regulation 64 of the Development Regulations 2008 provides further information about the type and quantity of all Building Rules certification documentation for Major Developments required for referral to the Minister for Planning.
3. The Port Pirie Regional Council or private certifier undertaking Building Rules assessments must ensure that the assessment and certification are consistent with this development authorisation (including any Conditions or Notes that apply in relation to this development authorisation).
4. Should the proponent wish to vary the Major Development or any of the components of the Major Development, an application may be submitted, provided that the development application variation remains within the ambit of the Public Environmental Report and Assessment Report referred to in this development authorisation. If an application variation involves substantial changes to the proposal, pursuant to section 47 of the *Development Act 1993*, the proponent may be required to prepare an amended Public Environmental Report for public inspection and purchase. An amended Assessment Report may also be required to assess any new issues not covered by the original Assessment Report and a decision made by the Governor pursuant to Section 48 of the *Development Act 1993*.
5. The proponent's CEMP and OEMP should be prepared taking into consideration, and with explicit reference to, relevant EPA policies and guideline documents, including, but not limited to: the Environment Protection (Air Quality) Policy 1994, the National Environment Protection (Ambient Air Quality) Measure 1998, the Environment Protection (Noise) Policy 2007, the Environment Protection (Water Quality) Policy 2003, the Environment Protection (National Pollutant Inventory) Policy 2008,

the National Environment Protection (Assessment of Site Contamination) Measure 1999, the EPA Code of Practice for Materials Handling on Wharves 2007, EPA Bunding and Spill Management Guidelines 2012, EPA Handbooks for Pollution Avoidance and the EPA Stormwater Pollution Prevention Codes of Practice, in addition to other legislative requirements and Guidelines/Australian Standards requiring compliance.

6. The proponent is reminded of its obligations under the *Environment Protection Act 1993* to seek to vary the current EPA licence that applies to the smelter facility to take into account any relevant changes resulting from the approved development. The EPA has the responsibility of imposing licensing conditions, including the setting of air quality standards that must be met and it may impose more stringent requirements than are detailed in this authorisation.
7. The proponent is reminded of the need to comply with condition S-8 in its current EPA licence (No. 775) at all times. Compliance with such a condition would include the need to update the Dust Management Plan to reflect the stockpiling of Paragoethite and/or Lead Sulphate Leach Concentrate on the lined storage pad.
8. All works and activities must be undertaken in accordance with the General Environmental Duty as defined in Part 4, section 25(1) of the *Environment Protection Act 1993* (which requires that a person must not undertake any activity, which pollutes, or may pollute, without taking all reasonable and practical measures to prevent or minimise harm to the environment), relevant Environment Protection Policies made under Part 5 of the *Environment Protection Act 1993* and other relevant publications and guidelines.
9. In respect of Condition (10), the proponent is advised to seek advice from an acoustic engineer about how to design and operate the oxygen plant to achieve the condition. An acoustic engineer is defined as a person eligible for full Member status of both the Institution of Engineers and the Australian Acoustical Society.
10. The proponent is reminded of its obligations under the Native Vegetation Regulations 2003 whereby any native vegetation clearance must be undertaken in accordance with a management plan that has been approved by the Native Vegetation Council that results in a significant environmental benefit on the property where the development is being undertaken, or a payment is made into the Native Vegetation Fund of an amount considered by the Native Vegetation Council to be sufficient to achieve a significant environmental benefit in the manner contemplated by section 21 (6) of the *Native Vegetation Act 1991*, prior to any clearance occurring. It should be noted the Act also includes within the definition of native vegetation, native plants growing 'in or under waters of the sea' where the 'waters of the sea' includes 'any water that is subject to the ebb and flow of the tide'.
11. The proponent is reminded of its obligations under the *Aboriginal Heritage Act 1988* whereby any 'clearance' work, which may require permission to disturb damage or destroy Aboriginal Sites, must be undertaken with the full authorisation of the Minister for Aboriginal Affairs and Reconciliation, according to section 23 of the *Aboriginal Heritage Act 1988*.
12. The proponent, and all agents, employees and contractors, such as construction crews, must be conversant with the provisions of the *Aboriginal Heritage Act 1988*, particularly the requirement to immediately contact the Department of the Premier and Cabinet (Aboriginal Affairs and Reconciliation) in the event that archaeological items (especially skeletal material) are uncovered during earthmoving.
13. The proponent is reminded of its obligations under the Commonwealth *Environment Protection and Biodiversity Conservation Act 1999*, not to undertake any activity that could have a significant impact on any matter of National Environmental Significance, without first referring it to Commonwealth Minister for the Environment for consideration.
14. As foreign vessels are allowed to berth at the wharf, the proponent would need to consult with the Department of Planning, Transport and Infrastructure (Marine Safety) to address any requirements of the Australian Quarantine Inspection Service and the Australian Customs Service.
15. The Minister has a specific power to require testing, monitoring and auditing under section 48C of the *Development Act 1993*.
