LIQUOR LICENSING ACT 1997

SECTION 53B

*Community Impact Assessment Guidelines***General Information**

The following guidelines have been published by the Liquor and Gambling Commissioner under section 53B of the *Liquor Licensing Act 1997*.

Introduction

Under section 53A of the *Liquor Licensing Act 1997* (the Act), the licensing authority may only grant a *designated application* if satisfied that to grant the application is in the **community interest**. Applications which are classified as designated applications are set out in Schedule 1.

Whether or not a designated application is in the community interest is determined on a case by case basis by the licensing authority. The licensing authority takes the unique circumstances of each case into account when making a decision and will inform itself on whether a designated application is in the community interest, relying in part on the Community Impact Submission prepared by the applicant.

Community Impact Assessment*Considerations*

The onus is on the applicant to satisfy the licensing authority that the grant of the application is in the community interest and to provide relevant evidence and submissions to discharge this onus.

When determining whether or not a designated application is in the community interest the licensing authority will have regard to:

- a) the harm that might be caused (whether to a community as a whole or a group within a community) due to the excessive or inappropriate consumption of liquor;
- b) the cultural, recreational, employment or tourism impacts;
- c) the social impact in, and the impact on the amenity of, the locality of the premises or proposed premises (see Schedule 2 for description of locality); and
- d) the nature of the business conducted or to be conducted under the licence.

When determining an application, the licensing authority will have regard to:

- the application;
- the Community Impact Submission; and
- any other information that the licensing authority considers appropriate.

What do each of the considerations mean?

To assist applicants in forming their submissions, a brief explanation of each of the considerations is set out below.

- a) The ***harm that might be caused (whether to a community as a whole or a group within a community) due to the excessive or inappropriate consumption of liquor*** is quite broad and may include a consideration of the following:
 - o whether there are any 'at-risk' groups or sub-communities within the locality (see Schedule 2);
 - o whether there are any community buildings, facilities and areas within the locality which may include: schools and educational institutions; hospitals, drug and alcohol treatment centres; accommodation or refuges for young or disadvantaged people; child care centres; recreational areas; dry areas; and, any other areas where young people may congregate or be attracted to; and
 - o any policies and procedures that the applicant intends to implement to minimise any potential harm or health impacts to 'at-risk' groups and sub-communities in the locality.

Harm caused by the excessive or inappropriate consumption of liquor includes:

- o the risk of harm to children, vulnerable people and communities (whether to a community as a whole or a group within a community);
 - o the adverse economic, social and cultural effects on communities (whether to a community as a whole or a group within a community);
 - o the adverse effects on a person's health;
 - o alcohol abuse or misuse; and
 - o domestic violence or anti-social behaviour, including causing personal injury and property damage.
- b) The ***cultural, recreational, employment or tourism impacts*** may include a consideration of whether the licensed premises/proposed licensed premises will provide economic benefits or any additional employment opportunities to the local community area.
 - c) The ***social impact in, and the impact on the amenity of, the locality*** (see Schedule 2) ***of the premises or proposed premises*** may include a consideration of relevant crime statistics, social profile information such as population, unemployment and the location of existing licensed premises within the locality.
 - d) The ***nature of the business conducted or to be conducted under the licence*** may include a consideration of the business to be conducted under the licence/proposed licence.

Completing a Community Impact Submission

Designated applications, at the time of lodgement, must be accompanied by a submission addressing how the application is in the community interest (except where otherwise indicated in Schedule 1). Consumer and Business Services has developed a form to help guide applicants as to the type of information they need to provide in support of their application. Applicants may complete the form, or may choose to instead prepare a submission in support of the application.

There is no requirement for a Community Impact Submission to be prepared by legal counsel or industry consultants. Applicants can complete their own Community Impact Submissions after liaising with the relevant key stakeholders and interest groups in the community and obtaining all other required information. Applicants are required to show, as part of their application, that they have engaged with members of the community and any relevant stakeholders. Evidence of this may include petitions, survey results and/or letters of support.

In addition to addressing the criteria set out under 'Considerations', applicants, in their Community Impact Submission, are also asked to address the following, where applicable:

- the applicants products/services in terms of key features and potential customers;
- business/professional experience, in particular relevant knowledge, experience and competency in relation to the service of liquor;
- general description of facilities and services;
- construction details (e.g. materials, finishes, acoustic treatment, etc.);
- details of any food, including menu;
- liquor services (e.g. bar) and range of liquor;
- types of entertainment;
- types of accommodation;
- a statement as to whether the community supports the proposed business, including providing evidence of such support; and
- a statement as to why the granting of the application is *in* the community interest.

Applicants are also required to provide, where applicable:

- a map and report regarding the locality generated through the Community Impact Portal;¹
- a business plan/plan of management; and
- a site or property plan, floor plan and/or photographs/artists impressions of site/building.

When providing information, applicants should keep in mind that Community Impact Submissions will be made public. Any information that an applicant does not wish to be made public should be redacted or omitted from the Community Impact Submission.

As each application is different, the level of detail required in a Community Impact Submission may differ depending on the complexity of the application and the impact the premises/proposed premises will have on the surrounding community. If a Community Impact Submission does not adequately address all necessary issues, the licensing authority may require additional information to be provided prior to determining an application.

When is a Community Impact Submission not required?

Unless exceptional circumstances exist, or where otherwise stated in Schedule 1, all designated applications must be accompanied by a Community Impact Submission at the time of lodgement.

Can the requirement for a Community Impact Submission be waived?

The licensing authority may vary or waive the requirement for a Community Impact Submission if:

- the application does not propose a significant change to the licensed premises or the nature or extent of the business carried on from the licensed premises;
- the purpose of the Community Impact Submission can be achieved by other means; or
- other special circumstances exist.

The application will remain a designated application for the purposes of the Act.

¹ The Community Impact Portal can be found at www.cbs.sa.gov.au/ciportal.

SCHEDULE 1

 - the trading hours or proposed trading hours under the licence; and

² A public conveyance means an aeroplane, vessel, bus, train, tram or other vehicle used for public transport or available for hire by members of the public, but does not include a conveyance hired on a self-drive basis if all passengers (if any) are to be transported free of charge or other consideration.

³ The licensing authority will inform an applicant if their application is a designated application. Unless the conditions set out under (i) are satisfied and/or unless and until the licensing authority informs an applicant otherwise, applicants are to lodge and proceed with their applications as if they were *not* designated applications.

⁴ A bottle shop is a specific area of a licensed premises which is dedicated primarily to the selling of packaged liquor. This includes facilities commonly known as bottle shops, drive-ins or drive through bottle shops, but does not include the sale of packaged liquor across the bar.

⁵ See footnote 3.
