Part 1—Preliminary

1—Short title

These regulations may be cited as the *Rail Safety National Law National Regulations (Reporting Requirements) Amendment Regulations 2022*.

2—Commencement

These regulations come into operation on 1 July 2022.

3—Amendment provisions

In these regulations, a provision under a heading referring to the amendment of specified regulations amends the regulations so specified.

Part 2—Amendment of *Rail Safety National Law National Regulations 2012*

4—Amendment of regulation 3—Interpretation

Regulation 3—after the definition of *Category B notifiable occurrence* insert:

Category C notifiable occurrence—see regulation 57;

5—Amendment of regulation 6—Meaning of prescribed notifiable occurrence

Regulation 6—delete "(other than a Category A notifiable occurrence referred to in regulation 57(1)(a)(v))"

6—Amendment of regulation 28—Drug and alcohol management program

(1) Regulation 28(1)(d)—delete "a prescribed incident" and substitute:

an incident of a kind specified in subregulation (1b) or a prescribed incident (as the case requires)

- (2) Regulation 28(1a)—delete subregulation (1a) and substitute:
- (1a) For the purposes of subregulation (1)(d), the drug and alcohol testing regime of a rail transport operator required to be accredited in respect of railway operations carried out outside New South Wales must include a requirement that if a rail safety worker is involved, or is reasonably suspected of having been involved, in an incident of a kind specified in subregulation (1b) while carrying out rail safety work outside New South Wales in respect of the operator's railway operations, the operator must require the worker to undergo drug and alcohol testing, in accordance with the requirements of the operator's drug and alcohol management program, unless—
- (a) the drug and alcohol testing has been conducted by a police officer or the Regulator; or
- (b) the operator is notified by the Regulator that the drug or alcohol testing is not required; or
- (c) there is a reasonable excuse for not doing so.
- (3) Regulation 28—after subregulation (1a) insert:
- (1b) For the purposes of subregulation (1a), an incident of the following kind is specified:
- (a) a Category A notifiable occurrence specified in Schedule 1A Part 1 clause 1, other than an incident that involves self-harm or suspected self-harm;
- (b) a Category A notifiable occurrence specified in Schedule 1A Part 1 clause 2;
- (c) a Category A notifiable occurrence specified in Schedule 1A Part 1 clause 4;
- (d) a Category A notifiable occurrence specified in Schedule 1A Part 1 clause 5;
- (e) a Category A notifiable occurrence specified in Schedule 1A Part 1 clause 7;
- (f) a Category A notifiable occurrence specified in Schedule 1A Part 1 clause 13.
- (4) Regulation 28(2)(b)—after "Regulator," first occurring insert:
within 7 days, or such longer period as may be specified by the Regulator, and
- (5) Regulation 28(4)—delete "(1a)(a)" and substitute:
(1a)
- (6) Regulation 28(7), definitions of *prescribed incident* and *road-rail vehicle*—delete the definitions and substitute:
- prescribed incident*, in relation to a rail transport operator required to be accredited in respect of railway operations carried out within New South Wales, means any of the following that occurs on railway premises (being premises used in connection with the carrying out of railway operations by the operator in New South Wales):
- (a) a collision between rolling stock;

- (b) a collision between rolling stock and a person;
- (c) a collision between rolling stock and a road vehicle or plant equipment;
- (d) the derailment of rolling stock;
- (e) a breach of the rail infrastructure manager's network rules;
- (f) any other incident that the Regulator may, by notice in writing to a rail transport operator, declare to be a type of prescribed incident in respect of the operator's railway operations.

7—Amendment of regulation 56—Periodic information to be supplied monthly

Regulation 56(1)—delete subregulation (1) and substitute:

- (1) For the purposes of section 120(3) (Power of Regulator to obtain information from rail transport operators) of the Law, a rail transport operator must provide the Regulator with a monthly return that sets out the following information in respect of the whole of the month:
 - (a) in relation to drug and alcohol testing conducted by the rail transport operator—
 - (i) the number and type of tests conducted; and
 - (ii) whether the tests were conducted before or after the rail safety worker had signed on for duty; and
 - (iii) the class of rail safety work undertaken by rail safety workers who were tested; and
 - (iv) the employment relationship with the operator of rail safety workers who were tested; and
 - (v) the outcomes of the tests;
 - (b) in the case of a rail transport operator who is a rail infrastructure manager—
 - (i) the number of kilometres travelled by trains of a kind, as required by the Regulator, on tracks over which the rail infrastructure manager has effective management and control; and
 - (ii) the total number of rolling stock operators (not being the rail infrastructure manager) who operated rolling stock on the tracks over which the rail infrastructure manager has effective management and control;
 - (c) in the case of a rail transport operator who is a rolling stock operator—
 - (i) the number of kilometres travelled by trains or other rail vehicles of a kind, as required by the Regulator, over which the rolling stock operator has effective management and control; and
 - (ii) the number of journeys (either estimated or actual) made by passengers on passenger trains over which the rolling stock operator has effective management and control; and

- (iii) the number of passenger kilometres travelled on passenger trains (not including light rail passenger vehicles) over which the rolling stock operator has effective management and control (where 1 passenger kilometre represents the transport of 1 passenger by rail over 1 kilometre); and
 - (iv) the total number of other rail networks (being networks managed by other rail infrastructure managers) on which rolling stock over which the rolling stock operator has effective management and control travelled;
- (d) in respect of a railway over which the rail transport operator has effective management and control—
- (i) the total number of full-time equivalent contractors and employees engaged by the rail transport operator to undertake rail safety work; or
 - (ii) the total number of hours of rail safety work undertaken by contractors and employees engaged by the rail transport operator.

8—Insertion of regulation 56A

After regulation 56 insert:

56A—Periodic information to be supplied annually

- (1) For the purposes of section 120(3) (Power of Regulator to obtain information from rail transport operators) of the Law, a rail transport operator must provide the Regulator with an annual return that sets out the following information in respect of the period of 12 months to which it relates:
- (a) in the case of a rail transport operator who is a rail infrastructure manager—
 - (i) the length, in kilometres, of operational and non-operational track over which the rail infrastructure manager has effective management and control; and
 - (ii) a description of the rail network over which the rail infrastructure manager has effective management and control, by line section and segment and its characteristics, as required by the Regulator; and
 - (iii) a description and details of each level crossing that interfaces with the rail network over which the rail infrastructure manager has effective management and control, as required by the Regulator; and
 - (iv) details of the interfacing road manager in respect of each level crossing that interfaces with the rail network over which the rail infrastructure manager has effective management and control, as required by the Regulator; and

- (v) the number of other networks (excluding private sidings) that are connected to, or interface with, a railway under the effective management and control of the infrastructure manager;
 - (b) in the case of a rail transport operator who is a rolling stock operator—the number of stations or stops used in the course of the provision of passenger services by trains over which the rolling stock operator has effective management and control.
- (2) In providing a return under this regulation, the rail transport operator must set out the particulars of the information required under subregulation (1) in relation to this jurisdiction and every other participating jurisdiction in respect of which the rail transport operator is accredited.
 - (3) The rail transport operator must, on or before 21 January in every year, or such other date or period specified by the Regulator, provide the return required under subregulation (1) to the Regulator for the period of 12 months ending on the preceding 31 December.

9—Amendment of regulation 57—Reporting of notifiable occurrences

- (1) Regulation 57(1)—delete subregulation (1) and substitute:
 - (1) For the purposes of the definition of *notifiable occurrence* in section 4 (Interpretation) of the Law and this regulation—
 - (a) a notifiable occurrence specified in Schedule 1A Part 1 is a **Category A notifiable occurrence**; and
 - (b) a notifiable occurrence specified in Schedule 1A Part 2 is a **Category B notifiable occurrence** (unless that occurrence is also a Category A notifiable occurrence); and
 - (c) a notifiable occurrence specified in Schedule 1A Part 3 is a **Category C notifiable occurrence** (unless that occurrence is also a Category A or a Category B notifiable occurrence).
- (2) Regulation 57(2)—delete "If" and substitute:

For the purposes of section 121 (Notification of certain occurrences) of the Law, if
- (3) Regulation 57(2)(b)—delete paragraph (b) and substitute:
 - (b) give the Regulator a written report of the occurrence, within the period, and that contains the particulars, as required in respect of the giving of a written report of an immediately reportable matter under the *Transport Safety Investigation Act 2003* of the Commonwealth, as in force from time to time.

- (4) Regulation 57(3)—delete subregulation (3) and substitute:
- (3) For the purposes of section 121 (Notification of certain occurrences) of the Law, if a Category B notifiable occurrence happens on, or in relation to, a rail transport operator's railway premises or railway operations, the operator must—
- (a) give the Regulator a written report of the occurrence within the period, and that contains the particulars, as required in respect of the giving of a written report of a routine reportable matter under the *Transport Safety Investigation Act 2003* of the Commonwealth, as in force from time to time; and
- (b) within 14 days (or such longer period as may be allowed by the Regulator) after becoming aware of the occurrence, provide any other information required by the Regulator in respect of the occurrence that is not included in the report under paragraph (a).
- (5) Regulation 57—after subregulation (3) insert:
- (3a) For the purposes of section 121 (Notification of certain occurrences) of the Law, if a Category C notifiable occurrence happens on, or in relation to, a rail transport operator's railway premises or railway operations during a reporting period, the operator must, subject to subregulations (3b) and (3c), give the Regulator a written report that provides a summary of any such occurrences within 6 months after the end of the reporting period.
- (3b) A report under subregulation (3a) must—
- (a) provide the total number of Category C notifiable occurrences with respect to each month of the reporting period, and each type of such occurrences, as required by the Regulator; and
- (b) unless otherwise specified by the Regulator, be made in conjunction with a safety performance report required by section 103 (Safety performance reports) of the Law.
- (3c) The Regulator may, by written notice, require a rail transport operator to provide a report under subregulation (3a), at such other times, and in relation to such other periods, and in such manner, as specified in the notice (which may be in addition to a report otherwise provided in accordance with that subregulation).
- (3d) For the purposes of subregulations (3a) and (3b), *reporting period* has the same meaning as in section 103(3) (Safety performance reports) of the Law.

10—Insertion of Schedule 1A

After Schedule 1 insert:

Schedule 1A—Notifiable occurrences

Part 1—Category A notifiable occurrences

1—Collisions and near hits

- (1) A collision between a train and—
- (a) a rail safety worker; or

- (b) a person (other than a rail safety worker) that results in a serious injury or fatality, including self-harm incidents; or
 - (c) another train on the running line; or
 - (d) a vehicle (other than a train) at a level crossing; or
 - (e) a vehicle (other than a train) that results in a serious injury or fatality.
- (2) A collision, that results in significant damage or a serious injury or fatality, between a train and—
- (a) another train; or
 - (b) rolling stock (other than a train); or
 - (c) plant or machinery within a rail worksite; or
 - (d) rail infrastructure.
- (3) A near hit between a train and a rail safety worker.

2—Derailment

A derailment that—

- (a) consists of the derailment of a single unit of rolling stock and results in significant damage; or
- (b) consists of the derailment of more than 1 unit of rolling stock; or
- (c) consists of the derailment of passenger rolling stock that is in service; or
- (d) occurs in proximity of persons who were at risk of injury from the rolling stock or debris as a result of the derailment.

3—Wrong side failure

- (1) A safety critical integrated engineered system has failed, or is suspected to have failed, in an unsafe manner and not in accordance with the system's design principles, including in relation to the following systems:
- (a) active level crossings;
 - (b) signalling systems;
 - (c) authority management systems;
 - (d) rolling stock interlocking systems;
 - (e) train protection systems;
 - (f) electrical traction systems;
 - (g) track detection systems.
- (2) A total failure of level crossing warning lights or boom barriers.

4—Proceed authority exceeded

- (1) A train (not including a light rail vehicle) that exceeds a limit of a proceed authority or proceeds without proceed authority on, or onto, a running line—
 - (a) due to the driver missing the limit of authority completely; or
 - (b) that results in the train entering an occupied section of track or the train being in conflict with another train movement.
- (2) A train (including a light rail vehicle) that exceeds a limit of a proceed authority or proceeds without proceed authority on, or onto, a running line that results in the train—
 - (a) entering a rail worksite; or
 - (b) entering an active level crossing without warning devices activating.
- (3) A train (including a light rail vehicle) that proceeds while a restraint authority is in place.

5—Rolling stock runaway

- (1) A runaway of a train or rolling stock on, or onto, a running line.
- (2) A runaway of a train or rolling stock in a yard that occurs in proximity of persons who were at risk of injury from the train or rolling stock as a result of the runaway.

6—Fire, explosion or dangerous goods spill

A fire, explosion or spill of dangerous goods that directly threatens the safety of people.

7—Breach of network rules or procedures

A breach or omission of, or failure to comply with, a network rule, process or procedure, that results in an immediate or direct threat to the safety of people or railway operations including in the case of the following:

- (a) failure to maintain a safe separation of trains with other trains, people or machinery (for example, due to the issuing of an incorrect proceed authority or incorrect protection arrangements);
- (b) a worker who is on a track without authority;
- (c) failure to protect a person who is working near electrical infrastructure, including trains being routed into de-energised or isolated sections of track;
- (d) a worker who is near electrical infrastructure without authority.

8—Load irregularity

A load irregularity that results in an immediate or direct threat to the safety of people or railway operations including in the case of the following:

- (a) a load that has shifted and breached the maximum kinetic rolling stock outline that applies in respect of that rolling stock;
- (b) a load that has been lost during transit on a running line.

9—Rolling stock irregularity (including monitoring systems)

A rolling stock irregularity that results in an immediate or direct threat to the safety of people or railway operations, including in the case of the following:

- (a) a complete bearing failure;
- (b) a broken axle or wheel;
- (c) a train parting that did not apply the brakes.

10—Track irregularity

A track irregularity that results in an immediate or direct threat to the safety of people or railway operations, including trains traversing an undetected track defect resulting in injury of train crew or passengers or near derailment.

11—Civil infrastructure irregularity

A civil infrastructure irregularity that results in an immediate or direct threat to the safety of people or railway operations, including in the case of the following:

- (a) a bridge collapse;
- (b) a tunnel collapse.

12—Electrical traction irregularity

An electrical traction irregularity that results in an immediate or direct threat to the safety of people or railway operations, including in the case of the following:

- (a) overhead wires falling near people;
- (b) a failure that exposes a person to a risk of electrocution.

13—Incidents at person and train interfaces

- (1) Any of the following incidents:
 - (a) a train passenger door or platform screen door being open while the train is in motion;
 - (b) a person being caught in the passenger door of a train as the train begins to move, or while it is in motion;
 - (c) an incident involving a platform screen door that results in—
 - (i) a person being caught and exposed to a moving train; or
 - (ii) a person being caught between a train and the platform screen door.
- (2) Any slip, trip or fall by a person that occurs at an interface between a person and a train that results in a serious injury or fatality, including in the case of the following:
 - (a) a fall by a person while boarding or alighting from a train;
 - (b) a fall by a person from a platform onto a track;

- (c) a fall by a person between a train and a platform.

14—Other incidents or accidents involving serious injury or fatality

- (1) Any incident or accident not included in a preceding provision of this Part, including an incident of self-harm, that results in a serious injury to, or fatality of, a person as a result of, or in relation to, railway operations.
- (2) Any incident or accident not included in a preceding provision of this Part, that results in a serious injury to, or fatality of, a rail safety worker while performing rail safety work.

15—Other incidents or accidents directly threatening rail safety

A rail safety incident or accident that is not included in a preceding provision of this Part, that directly threatens the safety of people or railway operations.

Examples of such other incidents or accidents may include—

- (a) an incident that involves sabotage or breach of cyber security;
- (b) an event that results in an emergency evacuation to protect public safety;
- (c) the sudden incapacity of a rail safety worker while performing a safety critical task or function;
- (d) de-training of passengers into an uncontrolled environment;
- (e) a train that significantly exceeds permitted speed.

Part 2—Category B notifiable occurrences

16—Collisions and near hits

- (1) A collision between a train and a person, other than a rail safety worker, that does not result in a serious injury or fatality.
- (2) A collision (that is not a Category A notifiable occurrence) between a train and—
 - (a) another train; or
 - (b) rolling stock (other than a train); or
 - (c) plant or machinery within a rail worksite; or
 - (d) rail infrastructure.
- (3) A near hit (that is not a Category A notifiable occurrence) between a train and—
 - (a) another train; or
 - (b) a person or a vehicle (other than a train) at a level crossing; or
 - (c) rolling stock (other than a train); or
 - (d) plant or machinery within a rail worksite; or
 - (e) rail infrastructure.

17—Derailment

A derailment that is not a Category A notifiable occurrence.

18—Proceed authority exceeded

- (1) A train (not including a light rail vehicle) that exceeds a limit of a proceed authority or proceeds without proceed authority on, or onto, a running line, other than due to a train rolling back (that is not a Category A notifiable occurrence).
- (2) A light rail vehicle that exceeds a limit of a proceed authority or proceeds without proceed authority that results in a near hit (that is not a Category A notifiable occurrence).

19—Rolling stock runaway

A runaway of a train or rolling stock (that is not a Category A notifiable occurrence) that occurs within a yard and where the distance of the train or rolling stock runaway is more than 10 metres.

20—Fire, explosion or spill of dangerous goods

- (1) A fire (that is not a Category A notifiable occurrence) that does not directly threaten the safety of people, being—
 - (a) a fire that occurs on an unoccupied locomotive or in an unoccupied driving cab; or
 - (b) a lineside fire caused by a train; or
 - (c) a fire that results in damage to rail infrastructure or rolling stock.
- (2) An accident or incident (that is not a Category A notifiable occurrence) that involves the spill of dangerous goods that results in damage to rail infrastructure or rolling stock.
- (3) Any other fire, explosion or spill of dangerous goods that does not directly threaten the safety of people.

21—Breach of network rules or procedures

A breach or omission of, or failure to comply with, a network rule, process or procedure, that does not result in an immediate or direct threat to the safety of people or railway operations, including in the case of the following:

- (a) failure to maintain a safe separation of trains with other trains, people or machinery (for example, due to the issuing of an incorrect proceed authority or incorrect protection arrangements);
- (b) a worker who is on a track without authority;
- (c) failure to protect a person who is working near electrical infrastructure, including trains being routed into de-energised or isolated sections of track;
- (d) a worker who is near electrical infrastructure without authority.

22—Rolling stock irregularity (including monitoring systems)

- (1) A rolling stock irregularity that does not result in an immediate or direct threat to the safety of people or railway operations, but does require operating restrictions to be applied, including in the case of the following:
 - (a) a non-critical failure of vehicle structural integrity;
 - (b) a non-critical reduction in braking performance;
 - (c) a failure that requires the isolation of vigilance or on-board train protection systems;
 - (d) a draw gear or coupler failure.
- (2) A train parting other than a train parting that is a Category A notifiable occurrence.

23—Track irregularity

A track irregularity (that is not a Category A notifiable occurrence) that is detected outside of track maintenance or inspection activities and that requires the imposition of an operational restriction, including in the case of the following:

- (a) a broken rail (including a fish plate);
- (b) a rail defect;
- (c) a track defect that affects horizontal alignment;
- (d) a track defect that affects vertical alignment;
- (e) spread track;
- (f) a points irregularity where damage may result in a threat to the safety of railway operations.

24—Other incidents or accidents involving serious injury or fatality

An incident or accident (that is not a Category A notifiable occurrence) involving a road vehicle that results in a serious injury to, or fatality of, a member of a train crew who is on roster while in transit to or from a service.

Part 3—Category C notifiable occurrences**25—Collisions and near hits**

A collision or near hit (that is not a Category A or a Category B notifiable occurrence)—

- (a) between a train and a vehicle (other than a train); or
- (b) between a train and a person.

26—Proceed authority exceeded

- (1) A train that exceeds a limit of a proceed authority or proceeds without proceed authority (that is not a Category A or a Category B notifiable occurrence) where—
 - (a) the rear portion of an otherwise stationary train (not including a light rail vehicle) rolls back resulting in part of the rear vehicle re-occupying a section of track; or
 - (b) in the case of a train (including a light rail vehicle) within a yard—the train remains in the yard.
- (2) Any other incident where a train (including a light rail vehicle) exceeds a limit of a proceed authority or proceeds without proceed authority that is not a Category A or a Category B notifiable occurrence.

27—Rolling stock runaway

A runaway of a train or rolling stock (that is not a Category A or a Category B notifiable occurrence) that occurs within a yard and where the distance of the train or rolling stock runaway is 10 metres or less.

28—Breach of network rules or procedures

A breach or omission of, or failure to comply with, work scheduling practices and procedures set out in the rail transport operator's fatigue risk management program.

29—Load irregularity

A load irregularity, that does not result in an immediate or direct threat to the safety of people or railway operations, including—

- (a) an open door, hatch, gate or curtain or an ineffective load restraint that results, or may result, in the loss of a load or a collision; and
- (b) an uneven distribution of a load, or underloading or overloading beyond safety tolerances (for example, due to the way a train that includes empty and loaded wagons is configured).

30—Rolling stock irregularity (including monitoring systems)

A failure of systems and processes designed to identify and manage rolling stock irregularities, that is not a Category A or a Category B notifiable occurrence, including the following:

- (a) a failure of wayside monitoring equipment;
- (b) an administrative failure that allows defective rolling stock to remain in service.

31—Level crossing irregularity

A failure of level crossing equipment (that is not a Category A or a Category B notifiable occurrence) that results in the intended level of protection not being fully provided prior to, or during, the passage of a train through the crossing, including in the case of the following:

- (a) only partial operation of an active warning device (for example, not all warning lights operating);
- (b) slow or incomplete lowering of boom barriers for the passage of a train;
- (c) locking systems on pedestrian gates (including emergency escape gates) failing to fully engage when closed;
- (d) missing or damaged control signs and devices at a passive level crossing.

32—Track irregularity

A track irregularity (that is not a Category A or a Category B notifiable occurrence) that is detected during track maintenance or inspection activities and that requires the imposition of an operational restriction, including in the case of the following:

- (a) a broken rail (including a fish plate);
- (b) a rail defect;
- (c) a track defect that affects horizontal alignment;
- (d) a track defect that affects vertical alignment;
- (e) spread track;
- (f) a points irregularity where damage may result in a threat to the safety of railway operations.

33—Civil infrastructure irregularity

A civil infrastructure irregularity (that is not a Category A notifiable occurrence) that does not result in an immediate or direct threat to the safety of people or railway operations, including in the case of the following:

- (a) a bridge strike by a road vehicle;
- (b) a significant track obstruction (for example, a landslide, rock fall, fallen tree, flood water or other infrastructure);
- (c) an embankment failure;
- (d) a structural defect of a viaduct, bridge, tunnel or station infrastructure;
- (e) a scaffolding collapse.

34—Electrical traction irregularity

An electrical traction irregularity (that is not a Category A notifiable occurrence) that does not result in an immediate or direct threat to the safety of people or railway operations, including in the case of the following:

- (a) a de-wiring or entanglement of overhead wiring;
- (b) failure of overhead wiring;
- (c) a traction equipment fault.

35—Incidents at person and train interfaces

- (1) A train passenger door failure, system failure or an incident involving a train or a platform screen door (that is not a Category A notifiable occurrence) that results in a risk to the safety of passengers, including in the case of the following:
 - (a) a defective passenger train door or inter-carriage door;
 - (b) a train door that opens on the incorrect side of the train or while the train is not at, or completely at, the platform;
 - (c) a platform screen door that opens while a train is not present;
 - (d) an emergency door release failing to function.
- (2) Any slip, trip or fall by a person that occurs at an interface between a person and train (that is not a Category A notifiable occurrence), that does not result in a serious injury or fatality, including in the case of the following:
 - (a) a fall by a person while boarding or alighting from a train;
 - (b) a fall by person from a platform onto a track;
 - (c) a fall by a person between a train and a platform.

ENVIRONMENT PROTECTION ACT 1993

SECTION 68

Approval of Category B Containers

I, Nicholas Stewart, Team Leader, Container Deposit Legislation and Delegate of the Environment Protection Authority ('the Authority'), pursuant to Section 68 of the *Environment Protection Act 1993* (SA) ('the Act') hereby:

Approve as Category B Containers, subject to the conditions in subclauses 1, 2, 3 and 4 below, each of the classes of containers identified by reference to the following matters described in the first 4 columns of Schedule 1 of this Notice which are sold in South Australia:

- (a) the product which each class of containers shall contain;
 - (b) the size of the containers;
 - (c) the type of containers; and
 - (d) the name of the holders of these approvals.
1. That containers of the class to which the approval relates must bear the refund marking specified by the Authority for containers of that class. The Authority specifies the following refund markings for Category B containers:
 - (1) "10c refund at collection depots when sold in SA"; or
 - (2) "10c refund at SA/NT collection depots in State/Territory of purchase"; or
 - (3) "10c refund at collection depots/points in participating state/territory of purchase".
 2. The holder of the approval must have in place an effective and appropriate waste management arrangement in relation to containers of that class. For the purpose of this approval notice the company named in Column 5 of Schedule 1 of this Notice is the nominated super collector.
 3. In the case of an approval in relation to Category B containers that the waste management arrangement must require the holder of the approval to provide specified super collectors with a declaration in the form determined by the Authority in relation to each sale of such containers by the holder of the approval as soon as practicable after the sale.
 4. The holder of these approvals must ensure that if a sticker bearing the refund marking has been approved, and is applied to the container, then the sticker must not be placed on any portion of the opening mechanism or in any other place that would require complete or partial removal of the sticker before the contents may be consumed.

SECTION 76

Amendment to the Planning and Design Code

Preamble

It is necessary to amend the Planning and Design Code (the Code) in operation at 12 May 2022 (Version 2022.8) in order to make changes of form relating to the Code’s spatial layers and their relationship with land parcels. NOTE: There are no changes to the application of zone, subzone or overlay boundaries and their relationship with affected parcels or the intent of policy application as a result of this amendment.

1. PURSUANT to section 76 of the *Planning, Development and Infrastructure Act 2016* (the Act), I hereby amend the Code in order to make changes of form (without altering the effect of underlying policy), correct errors and make operational amendments as follows:
 - a. Undertake minor alterations to the geometry of the spatial layers and data in the Code to maintain the current relationship between the parcel boundaries and Code data as a result of the following:

- i. New plans of division deposited in the Land Titles Office between 4 May 2022 and 17 May 2022 affecting the following spatial and data layers in the Code:

*Commentary to the Statement of the Amounts Credited to and Issued from the Consolidated Account
for the Quarters Ended 30 September 2021 and 30 September 2020*

Receipts*Taxation*

Gambling tax receipts in the September quarter 2021 were higher compared to the corresponding prior year period reflecting the timing of receipts from the Lotteries Commission of South Australia being recorded in the Consolidated Account.

Land tax receipts in the September quarter 2021 were lower than the corresponding prior year period largely due to the timing of collections for government land tax liabilities.

Payroll tax receipts in the September quarter 2021 were higher compared to the corresponding prior year period. This largely reflects the impacts of COVID-19 payroll tax relief measures in 2020 that reduced collections in the September quarter 2020, combined with growth in taxable payrolls.

Stamp duty receipts in the September quarter 2021 were higher compared to the corresponding prior year period primarily due to higher conveyance duty on the transfer of properties reflecting an increase in residential transactions and the average value of properties transferred.

Fees and charges

Fees and charges receipts in September quarter 2021 were higher than the corresponding prior year period due to the timing of receipts for Land Services Regulatory Fees. The Department of Infrastructure and Transport payment to the Consolidated Account of fees collected up to 30 September 2020 was delayed as the appropriate financial approvals were sought. The responsibility for these fees transferred to the Attorney-General's Department from 1 October 2020.

Recoveries

Recoveries receipts in the September quarter 2021 were higher than the corresponding prior year period mainly due the timing of the receipt of a payment under the Commonwealth Project Agreement for the Proton-Therapy centre at SAHMRI. The Commonwealth's payments are made based on that achievement of project milestones.

Royalties

Royalty receipts in the September quarter 2021 were higher compared to the corresponding prior year period mainly due to an additional month of royalty receipts recognised in the 2021 September quarter. On an underlying basis, royalty receipts in the September quarter 2021 were higher compared to the prior year period due to improvements in the commodity prices and production levels.

Commonwealth—General Purpose Payments

Growth in general purpose grant receipts in 2021-22 compared to 2020-21 is not indicative of underlying movements in Goods and Services Tax (GST) revenue. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government rather than actual emerging monthly GST collections.

Based on the growth in the national GST pool and population estimates, and South Australia's relativity in 2020-21, the Commonwealth Government estimated in its 2021-22 Mid-Year Economic and Fiscal Outlook that South Australia's GST revenue grants will decline by 0.9% in 2021-22.

Commonwealth—National Partnership Payments

National Partnership Payments in the September quarter 2021 were higher than the corresponding prior year period mainly reflecting reimbursements for Commonwealth HomeBuilder grants that are being administered by the state on the Commonwealth Government's behalf.

Payments

Payments were made pursuant to the *Appropriation Act 2021* and also in accordance with other Acts for which specific appropriation has been authorised. The timing of the payments is based on agreed agency drawdown schedules and may change from period to period based on specific agency requirements.

All appropriations were paid within approved limits established under the various Acts.

Note

The following points should be considered when reviewing the quarterly statement of Consolidated Account transactions:

- Unlike, the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statement is limited to cash transactions.
- The Consolidated Account does not capture all the transactions undertaken by the general government sector. In particular, it does not record receipts to and payments from Agency deposit and special deposit accounts.
- The timing of receipts and payments can be volatile within a financial year. As a result, apparently large movements between quarters or years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.

*Commentary to the Statement of the Amounts Credited to and Issued from the Consolidated Account
for the Quarters Ended 31 December 2021 and 31 December 2020*

Receipts*Taxation*

Gambling tax receipts in the December quarter 2021 and six months ended December 2021 were higher compared to the corresponding prior year periods. This was mainly due to the timing of payments to the Consolidated Account in 2020 as well as the impact of COVID-19 related gambling tax relief, which allowed licence holders to defer gaming machine taxation and casino duty payments.

Land tax receipts in the December quarter 2021 and six months ended December 2021 were lower than the corresponding prior year periods largely due to the timing of collections for government land tax liabilities.

Payroll tax receipts in the December quarter 2021 and six months ended December 2021 were higher compared to the corresponding prior year periods. This largely reflects the impacts of COVID-19 payroll tax relief measures in 2020 combined with growth in taxable payrolls.

Stamp duty receipts in the December quarter 2021 and six months ended December 2021 were higher compared to the prior year periods. This was mainly due to higher conveyance duty on the transfer of properties reflecting an increase in residential transactions and the average value of properties transferred.

Fees and charges

Fees and charges receipts in the December quarter 2021 and the six months ended December 2021 were higher than the corresponding prior year periods. This is due to the timing of receipts for Land Services Regulatory Fees since the responsibility for these fees transferred to the Attorney-General's Department from 1 October 2020. The payment to the Consolidated Account of all fees collected by the Attorney-General's Department in 2020-21 was conducted in June 2021. In 2021-22 the fees are being remitted to the Consolidated Account on a monthly basis.

Royalties

Royalty receipts for the December quarter 2021 and six months ended December 2021 are impacted by timing of collections paid into the Consolidated Account. The underlying royalty receipts were higher compared to the corresponding prior year periods mainly reflecting improvements in commodity prices and production levels.

Commonwealth—General Purpose Payments

Growth in general purpose grant receipts in 2021-22 compared to 2020-21 is not indicative of underlying movements in Goods and Services Tax (GST) revenue. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government rather than actual emerging monthly GST collections.

Based on the growth in the national GST pool and population estimates, and South Australia's relativity in 2021-22, the Commonwealth Government estimated in its 2021-22 Mid-Year Economic and Fiscal Outlook that South Australia's GST revenue grants will decline by 0.9% in 2021-22.

Commonwealth—National Partnership Payments

National Partnership Payments received in the December quarter 2021 and six months ended December 2021 were higher than the corresponding prior year periods. This was mainly due to reimbursements for Commonwealth HomeBuilder grants that are being administered by the state on the Commonwealth Government's behalf.

Other receipts

Recoveries receipts in the December quarter 2021 and six months ended December 2021 were higher than the corresponding prior year periods mainly due to the receipts from the Department for Environment and Water of the net proceeds from 2020-21 Crown Land sales to the Consolidated Account. This included the proceeds of the sale of land at Oakden to Renewal SA.

Payments

Payments were made pursuant to the *Appropriation Act 2021* and also in accordance with other Acts for which specific appropriation has been authorised. The timing of the payments is based on agreed agency drawdown schedules and may change from period to period based on specific agency requirements.

All appropriations were paid within approved limits established under the various Acts.

Note

The following points should be considered when reviewing the quarterly statement of Consolidated Account transactions:

- Unlike, the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statement is limited to cash transactions.
- The Consolidated Account does not capture all the transactions undertaken by the general government sector. In particular, it does not record receipts to, and payments from Agency deposit and special deposit accounts.
- The timing of receipts and payments can be volatile within a financial year. As a result, apparently large movements between quarters or years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.
